Uses of Intertextuality in Classroom and Educational Research Nora Shuart-Faris, David Bloome, 2004-11-01 On
Discourse Analysis in Classrooms David Bloome, Stephanie Power Carter, Beth Morton Christian, Samara Madrid, Sheila Otto, Nora Shuart-Faris, Mandy Smith, 2008 This book in the NCRL Collection provides an introductory discussion of discourse analysis of language and literacy events in classrooms The authors introduce approaches to discourse analysis in a way that redefines traditional topics and provokes the imagination of researchers For those who have limited knowledge of discourse analysis this book will help generate new questions about literacy events in classrooms For those familiar with this research perspective it will map diverse new approaches Offers examples of classroom discourse with analyses that researchers and practitioners can use as the basis for pursuing their own analyses Rob Tierney Dean Faculty of Education University of British Columbia On Discourse Analysis provokes us to rethink discourse analytic approaches as generative tools that can open up new ways of seeing language and literacy events in classrooms The authors richly illustrate the complexity and potential of discourse analysis studies with cases that orient us to foreground the local with broader cultural historical and social relations in ways that make evident what it means to be human On Discourse Analysis provides a fresh approach to discourse analysis studies Kris Gutierrez University of California at Los Angeles

Children's Ways with Science and Literacy Maria Varelas, Christine C. Pappas, 2013-05-07 Science is often a forgotten subject in early elementary grades as various mandates require teachers to focus on teaching young students to achieve specific reading and mathematical competencies This book offers specific examples and empirical evidence of how integrated science literacy curriculum and teaching in urban primary grade classrooms give students opportunities to learn science and to develop positive images of themselves as scientists The Integrated Science Literacy Enactments ISLE approach builds on multimodal multidimensional and dialogically oriented teaching and learning principles Readers see how as children engage with texts material objects dialogue ideas and symbols in their classroom community they are helped to bridge their own understandings and ways with words and images with those of science In doing so they become learners of both science and literacy The book features both researcher and teacher perspectives It explores science learning and its intersection with literacy development in schools that educate predominately children of color many of whom struggle with poverty and have been traditionally underestimated underserved and underrated in science classrooms In all these ways this volume is a significant contribution to a critically under researched area of science education
