Volume 19, Tome I: Kierkegaard Bibliography Peter Šajda, Jon Stewart, 2017-03-31 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I which covers Tomes I-V is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II which covers Tomes VI-VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.

King, J. de Rooij, 2012-12-06 The language of some eighteen million people living at the junction of the two great cultures of western Europe Romance and Germanic is now taught by some 262 teachers at 143 universities outside the Netherlands including Finland Hungary Poland Russia Czechoslovakia Portugal Japan Malaysia and South Korea. These teachers obviously need to keep in regular and close touch with the two countries whose cultural life forms the subject of their courses. Yet the first international congress of Dutch teachers abroad did not take place until the early sixties since when the Colloquium Neerlandicum has become a triennial event meeting alternately in the Netherlands and Belgium in The Hague 1961 and 1967 Brussels 1964 Ghent 1970 with the fifth Colloquium planned for Leiden in 1973. Financial support from the Dutch and Belgian governments enables the majority of European colleagues and a number of those from other continents to attend a conference lasting for four or five days and including discussions of the problems involved in teaching Dutch abroad and papers on various aspects of current Dutch studies of interest to those who are working in a certain degree of isolation abroad. At the first Colloquium a Working Committee of Professors and Lecturers in Dutch studies at Universities abroad was set up Indonesia's History Between the Myths Gertrudes Johan Resink, 1968
