Cultures of Africa Mary Clare Kidenda, Lize Kriel, Ernst Wagner, 2022-04-06 The voices in this book offer a multi-perspectival approach to Africa focusing on the skills and the knowledge underpinning visual cultural expressions ranging from Akan symbolism to embodied performances by dancers and storytellers even re-designed models of Western cars. Educators, designers, artists, critics, curators and custodians based both in Africa and in Europe are configuring spaces for public, private, institutional as well as digital conversation whether through pottery or portraiture, furniture or film, shoes or selfies, buildings or books. Readers are encouraged to question how African visual cultures are both in and of identifying and confrontational, post and decolonial, preserved and practised, old and new, borrowed and authentic, composite and complete, rooted and soaring. Disciplines being engaged include visual culture studies, media studies, performance studies, orature, literature, art and design as well as their histories. The editors Mary Clare Kidenda, Lize Kriel and Ernst Wagner represent three nodes in the Exploring Visual Cultures north-south collaborative network: The Technical University of Kenya, the University of Pretoria in South Africa and Munich Academy of Fine Arts in Germany.

Globalization and Technology Rajneesh Narula, 2015-03-03 In this book Rajneesh Narula examines the interdependence of globalization and technological innovation at two levels: first between locations by examining the role of cross-border initiatives in the innovation process; second between corporate entities by studying the dynamics of inter-firm R&D. Knowledge creation suffers from inertia and remains concentrated in a few locations. Draws on a wide variety of data at the firm and national level in the sphere of R&D and technological innovation. Spells out important lessons for both policy makers and managers on industrial policy as well as the organisation of research and development by firms.
