THINGS I'VE SAID TO MY CHILDREN

Things Ive Said To My Children

George Eliot

Things Ive Said To My Children:

Things I've Learned About Children Mark Givens, 2016-12-19 *Things I've Learned About Children* is a collection of articles that appeared in MungBeing Magazine from 2010 to 2015. The theme of each issue is mentioned once or twice but the important thing is that as these articles were written the babies were not neglected or harmed in any way. What I find interesting is that several of the lessons are repeated again and again either as a reminder or because I didn't actually learn it the first time around. Such is the nature of baby raising I guess. Most of all I hope you enjoy reading these things and that this collection becomes the most important guidebook in raising your own children. *Things I've Said to My Children* Nathan Ripperger, 2015-09-15 An illustrated gift book that brings to life the universal parenting experience of saying strange and hilarious things to one's kids. As the father of five boys all under age 10, graphic designer Nathan Ripperger has found himself saying some rather funny, absurd, and downright bizarre things to his children. From "Stop riding that penguin we're leaving to I am NOT talking to you until you are wearing underwear" he created poster-like images for each and posted them online. The response from other parents was overwhelming. With *Things I've Said to My Children* Ripperger has assembled around 80 of the funniest, weirdest, and most amusing sayings and paired them with full-color designed images that bring these outrageously hysterical quotes to life. Covering the essential parenting topics like food, animals, don'ts, and of course bodily functions, *Things I've Said to My Children* is a light-hearted illustrated reminder of the shared absurdity of parenthood. Especially for those parents who've ever found themselves uttering some variation of the line "Please don't eat the goldfish crackers you've put in your butt." **Things I've Learned from Dying** David R. Dow, 2025-05-01 National Book Critics Circle Award finalist David R. Dow confronts the reality of his work on death row when his father-in-law is diagnosed with lethal melanoma, his beloved Doberman becomes fatally ill, and his young son begins to comprehend the implications of mortality. Every life is different but every death is the same. We live with others. We die alone. In his riveting, artfully written memoir *The Autobiography of an Execution*, David Dow enraptured readers with a searing and frank exploration of his work defending inmates on death row. But when Dow's father-in-law receives his own death sentence in the form of terminal cancer and his gentle dog Winona suffers acute liver failure, the author is forced to reconcile with death in a far more personal way, both as a son and as a father. Told through the disparate lenses of the legal battles he's spent a career fighting and the intimate confrontations with death each family faces at home, *Things I've Learned From Dying* offers a poignant and lyrical account of how illness and loss can ravage a family. Full of grace and intelligence, Dow offers readers hope without cliché and reaffirms our basic human needs for acceptance and love by giving voice to the anguish we all face as parents, as children, as partners, as friends when our loved ones die tragically and far too soon. **From Doctor to Healer** Robbie Davis-Floyd, Gloria St. John, 1998 Why would a successful physician who has undergone seven years of rigorous medical training take the trouble to seek out and learn to practice alternative methods of healing such as homeopathy and Chinese

medicine From Doctor to Healer answers this question as it traces the transformational journeys of physicians who move across the philosophical spectrum of American medicine from doctor to healer Robbie Davis Floyd and Gloria St John conducted extensive interviews to discover how and why physicians make the move to alternative medicine what sparks this shift and what beliefs they abandon or embrace in the process After outlining the basic models of American health care the technocratic humanistic and holistic the authors follow the thoughts and experiences of forty physicians as they expand their horizons in order to offer effective patient care The book focuses on the radical shift from one end of the spectrum to the other from the technocratic approach to holism made by most of the interviewees Because many American physicians find such a drastic change too threatening the authors also address the less radical transition to humanism a movement toward compassionate care arising from within the medical system **Hodder & Stoughton's sixpenny novels.
