

Individual and corporate social responsibility

Individual Social Responsibility is a moral belief where we as individuals, have a responsibility toward society. Being “socially responsible” is about all individuals behaving ethically and sensitively towards social, economic, and environmental issues. It is about being accountable for our actions and being conscious of the impact your actions have on others, our communities, and the environment.

By taking an active participation in resolving some of the issues, we as individuals should all strive to set good examples by applying and adhering to socially responsible practices, such as improving the quality of lives for individuals and their families, volunteer energy and time towards improving and benefiting society.

Student social responsibility is the responsibility of every student for their actions. It is morally binding, and suggests that each individual act in such a way that minimizes the adverse effect on those immediately around them.

Corporate social responsibility or CSR has been defined by Lord Holme and Richard Watts in the World Business Council for Sustainable Development's publication “Making Good Business Sense” as “...the continuing commitment by business to behave ethically and contribute to economic development while improving the quality of life of the workforce and their families as well as the local community and society at large.” CSR is one of the newest management strategies where companies try to create a positive impact on society while doing business. Evidence suggests that CSR taken on voluntarily by companies will be much more effective than CSR mandated by governments.[12] There is no clear-cut definition of what CSR means. It is

Written in an accessible style that lends substantial clarity to complex issues **The Changing Fortunes of Economic Liberalism** David Henderson, 2001 The first edition of this book traced the declining fortunes of economic liberalism in the hundred years up to the 1970s and its subsequent revival David Henderson analysed the programmes of economic reform on which many governments embarked late in the twentieth century and the renewal of interest in liberal ideas in the economic profession He pointed out however that liberalism has a chronic weakness because it has so few conscious adherents In this new edition Henderson explains to what extent his views have changed in the last three years The uneasy trend to economic liberalism has in general been maintained But he now emphasises two increasing anti liberal influences the growth of non government organisations hostile to the market system and the appeasement by companies of anti business activists as exemplified in the Corporate Social Responsibility movement **The Friend** , 1919 The Christian Advocate , 1911
