Understanding and Teaching the Holocaust

Laura Hilton, Avinoam Patt, 2020-07-21 Few topics in modern history draw the attention that the Holocaust does. The Shoah has become synonymous with unspeakable atrocity and unbearable suffering. Yet it has also been used to teach tolerance, empathy, resistance, and hope. *Understanding and Teaching the Holocaust* provides a starting point for teachers in many disciplines to illuminate this crucial event in world history for students. Using a vast array of source materials from literature and film to survivor testimonies and interviews, the contributors demonstrate how to guide students through these sensitive and painful subjects within their specific historical and social contexts. Each chapter provides pedagogical case studies for teaching content such as antisemitism, resistance, and rescue, and the postwar lives of displaced persons. It will transform how students learn about the Holocaust and the circumstances surrounding it.

The Hitler Years: Triumph, 1933-1939

Frank McDonough, 2025-09-23 From historian Frank McDonough, the first volume of a new chronicle of the Third Reich under Hitler's hand. On January 30th, 1933, Adolf Hitler was appointed the German Chancellor of a coalition government by President Hindenburg. Within a few months, he had installed a dictatorship, jailing and killing his leftwing opponents, terrorizing the rest of the population, and driving Jews out of public life. He embarked on a crash program of militaristic Keynesianism, reviving the economy and achieving full employment through massive public works, vast armaments spending, and the cancellations of foreign debts. After the grim years of the Great Depression, Germany seemed to have been reborn as a brutal and determined European power. Over the course of the years from 1933 to 1939, Hitler won over most of the population to his vision of a renewed Reich. In these years of domestic triumph, cunning maneuvers pitting neighboring powers against each other, and biding his time, we see Hitler preparing for the moment that would realize his ambition. But what drove Hitler's success was also to be the fatal flaw of his regime: a relentless belief in war as the motor of greatness, a dream of vast conquests in Eastern Europe, and an astonishingly fanatical racism.
