The Mamluk Sultanate from the Perspective of Regional and World History Reuven Amitai,Stephan Conermann,2019-06-17 The Mamluk Sultanate represents an extremely interesting case study to examine social economic and cultural developments in the transition into the rapidly changing modern world On the one hand it is the heir of a political and military tradition that goes back hundreds of years and brought this to a high pitch that enabled astounding victories over serious external threats On the other hand as time went on it was increasingly confronted with modern problems that would necessitate fundamental changes in its structure and content The Mamluk period was one of great religious and social change and in many ways the modern demographic

map was established at this time This volume shows that the situation of the Mamluk Sultanate was far from that of decadence and until the end it was a vibrant society although not without tensions and increasing problems that did its best to adapt and compete in a rapidly changing world
