Personal Adornment and the Construction of Identity Hannah V. Mattson, 2021-06-09 Objects of adornment have been a subject of archaeological historical and ethnographic study for well

over a century Within archaeology personal ornaments have traditionally been viewed as decorative embellishments associated with status and wealth materializations of power relations and social strategies or markers of underlying social categories such as those related to gender class and ethnic affiliation Personal Adornment and the Construction of Identity seeks to understand these artefacts not as signals of steady pre existing cultural units and relations but as important components in the active and contingent constitution of identities Drawing on contemporary scholarship on materiality and relationality in archaeological and social theory this book uses one genre of material culture items of bodily adornment to illustrate how humans and objects construct one another Providing case studies spanning 10 countries three continents and more than 9 000 years of human history the authors demonstrate the myriad and dynamic ways personal ornaments were intertwined with embodied practice and identity performativity the creation and remaking of social memories and relational collections of persons materials and practices in the past The authors careful analyses of production methods and composition curation heirlooming and reworking decorative attributes and iconography position within assemblages and depositional context illuminate the varied material and relational axes along which objects of adornment contained social value and meaning When paired with the broad temporal and geographic scope collectively represented by these studies we gain a deeper appreciation for the subtle but vital roles these items played in human lives

Re-thinking Diversity

Cordula Braedel-Kühner, Andreas Müller, 2015-12-01 This volume entails a collection of new ideas themes and questions towards a phenomenon which we are used to refer to with the key term diversity The aim of the book is to offer a cultural sciences perspective on diversity to advance knowledge about it and enrich the dialogue between academics and practitioners in related domains of action Today changes in the demographic structures of the population the migration flux multiculturalism the rising awareness concerning minorities rights gender studies and so on lead to a complex picture of what diversity means The narrative of a society and of most organizations is constituted by multiple layers of social categorization segregation and identity Therefore diversity defies simple definition The contributions in this volume approach the phenomenon from different angles and reveal new theoretical methodological and practical perspectives on it
