Chodat,2018-07-05 Ants ghosts cultures thunderstorms stock markets robots computers this is just a partial list of the sentient things that have filled American literature over the last century From modernism forward writers have given life and voice to both the human and the nonhuman and in the process addressed the motives behaviors and historical pressures that define lives or things both everyday and extraordinary In *Worldly Acts and Sentient Things* Robert Chodat exposes a major shortcoming in recent accounts of twentieth century discourse What is often seen as the death of agency is better described as the displacement of

agency onto new and varied entities Writers as diverse as Gertrude Stein Saul Bellow Ralph Ellison and Don DeLillo are preoccupied with a cluster of related questions Which entities are capable of believing something saying something desiring hoping hating or doing Which things in turn do we treat as worthy of our care respect and worship Drawing on a philosophical tradition exemplified by Ludwig Wittgenstein and Wilfrid Sellars Chodat shows that the death of the Cartesian ego need not entail the elimination of purposeful action altogether Agents do not dissolve or die away in modern thought and literature they proliferate some in human forms some not Chodat distinguishes two ideas of agency in particular One locates purposes in embodied beings persons the other in disembodied entities presences Worldly Acts and Sentient Things is an engaging blend of philosophy and literary theory for anyone interested in modern and contemporary literature narrative studies psychology ethics and cognitive science

South to the Future Fred C. Hobson, 2002 Until recently the American South has often been treated in isolation by historians and literary critics In these essays five scholars of southern history and literature evaluate elements of contemporary and future southern experience including place community culture class gender and racial roles Fred Hobson observes in his introductory essay that the U S South must be seen in relation to a larger world the Caribbean and Central and South America as well as European countries with a similar grounding in hardship and defeat Moreover the South can no longer be viewed in black and white terms especially if the subject is race Joel Williamson's essay challenges fellow historians to broaden their purview by getting acquainted with *Gone with the Wind* Elvis Presley and other phenomena of southern culture's Linda Wagner Martin discusses the innovative ways in which contemporary southern writers such as Charles Frazier take on traditional southern concerns and shows us how place becomes space for Alice Walker Barbara Kingsolver Cormac McCarthy and other southern born writers whose works are often set outside the geographical South Thadious Davis looks at the youngsters of southern poetry fiction and drama revealing how their work reflects a racially and ethnically mixed digitized and otherwise reconfigured South In the writings of Shay Youngblood Randall Kenan Donna Tartt Mona Lisa Sallooy and others one can see the collapsing of distinctions between the literary and the popular and a greater comfort with social fluidity and mobility The concluding essay by Edward Ayers set in 2076 offers a witty glimpse of things perhaps to come Through a series of short dispatches from a sixteen year old narrator of Scottish Ghanian Honduran Korean Cherokee descent Ayers transports us to the Consolidated South that counts Incarceration Incorporated among its largest employers As these writings signal new depths and directions

Gertrude Stein's Surrealist Years Ery Shin,2020-06-23 Examines how surrealism enriches our understanding of Stein's writing through its poetics of oppositions Gertrude Stein's Surrealist Years brings to life Stein's surrealist sensibilities and personal values borne from her WWII anxieties not least of which originated in a dread of anti-Semitism Stein's earlier works such as *Tender Buttons* and *Lucy Church Amiably* tend to prioritize formal innovations over narrative building and overt political motifs However Ery Shin argues that Stein's later works engage more with storytelling and life writing in startling ways most emphatically and poignantly through the surrealist lens Beginning with *The Autobiography of Alice B. Toklas* and continuing in later works Stein renders legible her war-torn era's jarring dystopian energies through narratives filled with hallucinatory visions teleportation extreme coincidences action reversals doppelgängers dream sequences spanning both sleeping and waking states and great whiffs of the occult Such surrealist gestures are predicated on Stein's return to the independent clause and by extension to plot characterization and anecdotes By summoning the marvelous in a historically situated world Stein joins her surrealist contemporaries in their own ambivalent crusade on behalf of historiography Besides illuminating Stein's art and life the surrealist framework developed here brings readers deeper into those philosophical ideas invoked by war Topics of discussion emphasize how varied Jewish experiences were in Hitler's Europe how outliers like Stein can be included in the surrealist project surrealism's theoretical bind in the face of WWII and the age-old question of artistic legacy *The Forgotten Emancipator* Rebecca E. Zietlow,2018 Zietlow explores the ideological origins of Reconstruction and the constitutional changes in this era through the life of James Mitchell Ashley **Vanishing Moments** Eric Schocket,2006-12-22 Publisher description *Approaches to Teaching the Works of Gertrude Stein* Logan Esdale,Deborah M. and China and meant that he read the Cold War world in a way that Washington and London could not allowing him a unique insight into how they would act as individuals and in relation to other nations
