Seven Planes of Existence Vianna Stibal, 2016-01-26

First developed twenty years ago by Vianna Stibal, ThetaHealing is essentially applied quantum physics. Using a theta brain wave which until now was believed to be accessible only in deep sleep or yogi level meditation, the practitioner is able to connect with the energy of All That Is, the energy in everything, to witness healings of the physical body and to identify and change limiting beliefs. This book is for those who have already started to experience the magic of this energy healing modality and wish to deepen their understanding of the Seven Planes of Existence, the philosophy behind the creation of ThetaHealing. Vianna presents exciting new information to help you take your skill with this work to the next level and brings the reader into dimensions that she believes to be the beginnings of life itself on a journey that leads outward, past the universe, to transform beliefs, showing that with a theta state of mind, it is possible to connect to a Divine Energy before it becomes anything in this universe.

The Key to Self-liberation Christiane Beerlandt, 2001-06

An authoritative work on the relationship between body and mind, second revised and enlarged edition. Why do you get headaches? Which psychological patterns correspond to an increased cholesterol level? Why are certain people susceptible to colds? What is the message of the 2020 coronavirus pandemic? How does cancer originate emotionally? And what can you do yourself to help healing? Psychological/emotional undercurrents play an important role in the development of diseases. Christiane Beerlandt shows that the germs, the fundamental origins of illnesses, are to be found in the depths of the human psyche: one's deepest feelings, beliefs, convictions, thoughts, expectations, self-image, habitual patterns, etc. The profoundness and accuracy of the texts, written in a language accessible to all, have brought this book worldwide recognition among all types of people, including many health professionals. While listening to the loving language of the heart, Christiane Beerlandt used her innate giftedness to feel herself into the inner world of people.
