What Is Global Studies? Manfred Steger, Amentahru Wahlrab, 2016-11-10 What is Global Studies and how does it relate to globalization Responding to this frequently asked question Manfred B Steger and Amentahru Wahlrab provide the first comprehensive overview of this emerging field Authoritative and accessible this primer speaks to students and instructors interested not only in key theories but also in applied teaching and learning programs designed to educate global citizens to meet the concrete challenges of the twenty first century Linking the influential arguments of major thinkers in Global Studies to their own framework the authors discuss the Four Pillars of Global Studies globalization transdisciplinarity space and time and critical thinking The book with instructive appendix materials will appeal to readers seeking a deeper understanding of Global Studies one of the most popular fields of study in major universities around the world

The Security Council as Global Legislator Vesselin Popovski, Trudy Fraser, 2014-07-11 Security Council resolutions have undergone an important evolution over the last two decades While continuing its traditional role of determining state specific threats to peace and engaging accordingly in various peaceful or coercive measures the Security Council has also adopted resolutions that have effectively imposed legal obligations on all United Nations member states This book seeks to move away from the discussions of whether the Security Council in the current composition and working methods is representative capable or productive Rather it assesses whether legislative activity by the Security Council can be beneficial to international peace and security The authors examine and critique the capacities of the Security Council to address thematic international threats such as terrorism weapons proliferations targeting of civilians recruitment of child soldiers piracy as an alternative to the traditional model of addressing country specific situations on a case by case basis Ultimately the book seeks to assess the efficacy of the Security Council as global legislator in terms of complementing the Security Council s mandate for the maintenance of international peace and security with a preventative and norm setting capacity The book presents views from a diverse range of Security Council stakeholders including academic scholars political analysts and international lawyers This resource will be of great interest to students of international relations international organizations and international security studies alike

The "Third" United Nations Tatiana Carayannis, Thomas G. Weiss, 2021-02-04 The Third UN is the ecology of supportive non state actors intellectuals scholars consultants think tanks NGOs the for profit private sector and the media that interacts with the intergovernmental machinery of the First UN member states and the Second UN staff members of international secretariats to formulate and refine ideas and decision making at key junctures in policy processes Some advocate for particular ideas others help analyze or operationalize their testing and implementation many thus help the UN think While think tanks knowledge brokers and epistemic communities are phenomena that have entered both the academic and policy

The SAGE Handbook of Globalization Manfred Steger, Paul Battersby, Joseph Siracusa, 2014-05-22 Global studies is a fresh and dynamic discipline area that promises to reinvigorate undergraduate and postgraduate education in the social sciences and humanities In the Australian context the interdisciplinary pedagogy that defines global studies is gaining wider acceptance as a coherent and necessary approach to the study of global change Through the Global Studies Consortium GSC this new discipline is forming around an impressive body of international scholars who define their expertise in global terms The GSC paves the way for the expansion of global studies programs internationally and for the development of teaching and research collaboration on a global scale Mark Juergensmeyer and Helmut Anheier's forthcoming *Encyclopaedia of Global Studies* with SAGE is evidence of this growing international collaboration while the work of Professor Manfred Steger exemplifies the flourishing academic literature on globalization RMIT University's Global Cities Institute represents a substantial institutional investment in interdisciplinary research into the social and environmental implications of globalization in which it leads the way internationally Given these developments the time is right for a book series that draws together diverse scholarship in global studies This Handbook allows for extended treatment of critical issues that are of major interest to researchers and students in this emerging field The topics covered speak to an interdisciplinary approach to the study of global issues that reaches well beyond the confines of international relations and political science to encompass sociology anthropology history media and cultural studies economics and governance environmental sustainability international law and criminal justice Specially commissioned chapters explore diverse subjects from a global vantage point and all deliberately cohere around core global concerns of narrative praxis space and place This integrated approach sets the Handbook apart from its competitors and distinguishes Global Studies as the most equipped academic discipline with which to address the scope and pace of global change in the 21st century Global Governance Lisa L. Martin, 2008 The process of globalization while not entirely new has created new challenges for policymakers attempting to reap its benefits and manage its effects This volume brings together work on global governance that examines these challenges and looks at the patterns of governance that emerge **GLOBAL ENVIRONMENTAL CHANGE AND INTERNATIONAL GOVERNANCE**, 1996

Global Governance and the Role of Non-state Actors Gunnar Folke Schuppert, 2006 This book represents a conference organized by the Social Science Research Centre Berlin WZB the Alfred Herrhausen Society The International Forum of the Deutsche Bank and the Centre for the Analysis of Risk and Regulation CARR at the London School of Economics and Political Science LSE in November 2004 in London Changes in statehood are one of the main indicators of a shift in the focus of governance onto the global level This is manifested most clearly in the emergence and growing importance of actors that are no longer tied to national or state contexts in the traditional way as with national parliaments government ministries or administrative bodies The age of global governance is an age of international actors such as the WTO and of non state

actors such as non governmental organizations NGOs and transnational corporations TNCs The aim of the conference was to take a closer look at these non state actors the scope of their activities the way they operate and the extent to which they are perhaps more appropriately classified as governance actors given their function as regulators and standard setters tasks more traditionally associated with the state Toward Genuine Global Governance Errol E. Harris, James A.

Yunker, 1999-06-30 Nine well known authors associated with the world federalist movement critique the 1995 Report of the Commission on Global Governance entitled Our Global Neighborhood Although the contributors manifest a variety of viewpoints styles and approaches they are unanimous in condemning the Report as insufficiently imaginative and visionary Despite repeated calls in the Commission Report for a radically new way of thinking the substance of the Report mindlessly rubber stamps the legitimacy of the sovereign nation state system of today by means of summarily and peremptorily dismissing even the possibility of a supernational government qualitatively beyond the United Nations According to the contributors the concept of genuine world government is sufficiently advanced and the circumstances of the present day are conducive so that this concept is deserving of the most careful and serious attention by the general public and the political leadership Despite their unconventional conclusions these essays are lucid judicious and commanding **The Writers**

Tallberg, 2010-07-21 The nature of global governance is changing as are the standards by which we judge its legitimacy We are witnessing a gradual and partial shift from inter state co operation to more complex forms of governance involving participation by transnational actors such as NGOs party associations philanthropic foundations and corporations **Global Governance and Biopolitics** David Roberts, 2010 Presents the global governance as the calculated mismanagement of life directing biopolitical neoliberal ideology through global networks and undermining the human security of millions This book answers the critiques of the human security concept as incoherent by prioritizing transnational human populations facing life ending contingencies A People's Response to Our Global Neighborhood Michael Hays, 1995 **The Politics of World**
