Thinking Like A Plant A Living Science For Life:

Thinking Like a Plant Craig Holdrege, 2013-10-15 Who would imagine that plants can become master teachers of a radical new way of seeing and interacting with the world Plants are dynamic and resilient living in intimate connection with their environment This book presents an organic way of knowing modeled after the way plants live When we slow down turn our attention to plants study them carefully and consciously internalize the way they live a transformation begins Our thinking becomes more fluid and dynamic we realize how we are embedded in the world we become sensitive and responsive to the contexts we meet and we learn to thrive within a changing world These are the qualities our culture needs in order to develop a more sustainable life supporting relation to our environment While it is easy to talk about new paradigms and to critique our current state of affairs it is not so easy to move beyond the status quo That s why this book is crafted as a practical guide to developing a life infused way of interacting with the world

Holonomics Simon Robinson, 2014-05-22 Businesses around the world are facing rapidly changing economic and social situations Business leaders and managers must be ready to respond and adapt in new innovative ways The authors of this groundbreaking book argue that business people must adopt a holonomic way of thinking a dynamic and authentic understanding of the relationships within a business system and an appreciation of the whole Complexity and chaos are not to be feared but rather are the foundation of successful business structures and economi Holonomi presents a new world view where economi and ecology are in harmony Using real world case studies and practical exercises the authors guide the reader in a new holistic approach to business towards a more sustainable future where both people and planet matter

This Sacred Life Norman Wirzba, 2021-10-14 This Sacred Life redescribes the meaning of this world and the value and purpose of human life within it

Right Research Geoffrey Rockwell, Oliver Rossier, Chelsea Miya, 2021-04-29 The book is current and interdisciplinary engaging with recent developments around this topic and including perspectives from sciences arts and humanities It will be a welcome contribution to studies of the Anthropocene as well as studies of research methods and practices Sam Mickey University of S Francisco Educational institutions play an instrumental role in social and political change and are responsible for the environmental and social ethics of their institutional practices The essays in this volume critically examine scholarly research practices in the age of the Anthropocene and ask what accountability educators and researchers have in righting their relationship to the environment The volume further calls attention to the geographical financial legal and political barriers that might limit scholarly dialogue by excluding researchers from participating in traditional modes of scholarly conversation As such Right Research is a bold invitation to the academic community to rigorous self reflection on what their research looks like how it is conducted and how it might be developed so as to increase accessibility and sustainability and decrease carbon footprint The volume follows a three part structure that bridges conceptual and practical concerns the first section challenges our assumptions about how sustainability is defined measured and practiced the second section showcases artist

researchers whose work engages with the impact of humans on our environment while the third section investigates how academic spaces can model eco conscious behaviour This timely volume responds to an increased demand for environmentally sustainable research and is outstanding not only in its interdisciplinarity but its embrace of non traditional formats spanning academic articles creative acts personal reflections and dialogues Right Research will be a valuable resource for educators and researchers interested in developing and hybridizing their scholarly communication formats in the face of the current climate crisis

The Impulse of Rudolf Steiner to a Living Science L. R. Twentyman,1962 **Living Perenniality** Craig Holdrege,2022-06-15 Combines careful observation scholarly research and holistic thinking offering readers creative and instructive narratives of plant life histories crop domestication and human consciousness The book engages multiple disciplines in the Humanities and Social Sciences to boldly reimagine the minds of our ancestors more than 450 human generations ago while offering sensible pathways away from our current destructive ways of being and toward a living perennality

Principles of Life David M. Hillis,David E. Sadava,Richard Hill,Mary V.
