Thorie Gnrale Conflits Europen Conventionnel:

Private Law in the External Relations of the EU Marise Cremona, Hans-W Micklitz, 2016-03-17 Private Law in the External Relations of the EU is an innovative study of the interactions between EU external relations law and private law two unrelated fields of law inverted if private law is understood as regulatory private law the space where regulatory law intersects with private economic activity Here the link between the Internal Market and the global market and thereby international law is much more prominent In this book key questions about the relationship between EU external relations law and private law are answered including in what ways might European private law act as a tool to achieve EU external policy objectives particularly in regulatory fields How might the quickly developing EU external competence over the procedural dimensions of private law including private international law impact on substantive law both externally and internally And how is the legal position of private parties affected by EU external relations In asking these questions this edited collection opens up a field of enquiry into the so far underexplored relationship between these two fields of law In doing so it addresses three different aspects of the relationship i the evolution of the EU competence ii the ways in which EU private law extends its reach beyond the boundaries of the internal market and iii the ways in which the EU contributes to the formation of private regulation at the international level

Enforcement of International Contracts in the European Union Johan Meeusen, 2004 The enforcement of international contracts in the European Union is increasingly dependent on Community rather than national private international law This book examines the present status and future prospects of Community private international law in the contractual area It focuses in particular upon the joint analysis of the Rome Convention of 19 June 1980 on the law applicable to contractual obligations which is likely to be converted in the near future into the Rome I regulation and the Brussels I regulation Rather than attempting a comprehensive study of Brussels I and Rome I this book examines a number of key issues considered particularly pertinent from the point of view of the coherence between both instruments This approach should contribute to the consistency of Community policy making and legislation in the field of international contracts to the benefit of market participants This book is the culmination of a research project funded by the European Commission DG Justice and Home Affairs Framework programme for judicial co operation in civil matters and co ordinated by the University of Antwerp Belgium Eminent European experts have contributed to the book which should prove of interest to law makers academics and practitioners concerned with the enforcement of contracts in a cross border context

L'intégration du droit international et communautaire dans l'ordre juridique national Pierre Michel Eisemann, 2023-09-14 Just how International and European Community Law is being integrated into domestic legal systems is as yet not too well known To gain a clear overview of this grey area requires more than knowing about the various constitutional rules What is also needed is a study of little known administrative practices and the attitudes of the national courts where case law is often as complex as it is diverse When all these elements are taken into account the general

picture that emerges is a much more subtle one transcending the classical positions based on the theories of monism and dualism To grasp this reality and go beyond preconceived ideas it seemed indispensable to make a thorough analysis of national practices To this end the International Law Centre of the University of Paris XIII Cedin Paris XIII took the initiative in 1990 of setting up a network of European international lawyers to work on the theme International norms and legal barriers This book presents the outcome of the network s programme The research was organized on the basis of a single questionnaire which provided the outline of a common workplan to which each of the contributors has adhered Detailed comparisons of national practices can now be made relating in particular to international treaties acts of international organisations and of the European Communities and to unwritten international law This is the first time that such a comprehensive and detailed survey has been made of all thirteen countries Reading the national reports one after the other provides complete information on domestic practices reading them crosswise gives a direct comparison between the different countries on specific issues *Journal du droit international* Edouard Clunet, André Henri Alfred Prudhomme, 1905 Vols 6 29 and 32 53 include section Bibliographie systématique de droit international varies slightly for 1878 1902 and 1905 26

Droit International Privé À la Fin Du XXe Siècle Symeon Symeonides, 2000 This book provides a comparative assessment of the current state of private international law by exploring the fundamental philosophical ideological and methodological challenges encountered during the 20th century and the responses to those challenges in the western world Among the questions discussed are the dilemma between conflicts justice and material justice the conflict between the goal of international uniformity and the need or desire to protect state or national interests the tension between the goals of certainty and flexibility the symbiosis of the multilateral unilateral and substantive methodologies and the antagonism or co existence between choice of law rules and flexible approaches and between jurisdiction selecting and content oriented rules or approaches Written by some of the world s most distinguished scholars this thought provoking book provides insightful and diverse perspectives from nineteen countries It is essential reading for any teacher or student of private international law or comparative law Les fonds islamiques en Europe Bahya Bouharati, 2016-05-18 Les fonds islamiques intègrent dans leur stratégie de gestion des critères d'investissement extra financiers fondés sur des principes directeurs issus du droit musulman applicable en matière bancaire et financière Ils répondent une demande croissante en produits d'investissement religieusement orientés Si l'industrie de la gestion collective islamique se développe sur le marché européen les fonds islamiques de même que leurs gestionnaires ne font pas l'objet d'une réglementation spécifique La régulation des fonds islamiques se fait par le biais de prescriptions et de recommandations issues de normes autonomes d'origines publiques et privées religieuses et extra religieuses Ces fonds interpellent galement sur l'opportunité et partant sur la possibilité de l'élaboration d'une réglementation contraignante susceptible de poser les bases d'un régime juridique d'un tel type de fonds Ce dernier point ne serait-il pas un prérequis nécessaire la possible émergence d'un modèle européen des fonds islamiques

La représentation institutionnelle dans l'ordre international Evelyne Lagrange, 2021-10-18 L'institutionnalisation et l'organisation d'un ordre juridique sur un mode représentatif impliquent un processus de différenciation fonctionnelle entre représentés et représentants permettant la réduction de la multiplicité unitaire. La personne morale apparaît comme le terme unificateur de tout système représentatif. Dans l'ordre international ce processus est perturbé par la présence dans les organes intergouvernementaux de représentants d'Etat qui sont autant d'organes des Etats membres présence prolongée par le consentement aux actes adoptés en leur sein. Quel en est donc le sujet d'imputation l'organisation ou ses membres. Une théorie de l'acte doit être développée au cœur de la théorie de l'organe pour démontrer que l'organisation internationale est la personnification juridique d'une collectivité d'Etats dotée d'un système représentatif et n'est que cela. La qualité de partie, un trait constitutif et de membre d'une organisation internationale ne prive l'Etat d'aucun des attributs de la souveraineté dans l'ordre international. Au contraire la faculté d'investir un sujet de droit de compétences nouvelles est précisément un attribut de la souveraineté. L'organisation est tout entière une création des Etats membres. Leur souveraineté n'inhibe pas le processus de personnification de l'organisation qui en retour ne la confisque pas la souveraineté et la relativité des rapports juridiques demeurent les principes régulateurs de l'ordre international

Durkheim and the Birth of Economic Sociology Philippe Steiner, 2011 Steiner argues that there are two stages in Durkheim's approach to the economy: a sociological critique of political economy and a sociology of economic knowledge. In his early works Durkheim critiques economists and their categories and tries to analyze the division of labor from a social rather than economic perspective. From the mid 1890s onward Durkheim's preoccupations shifted to questions of religion and the sociology of knowledge

L'EUROPE ET LE DROIT D'ASILE Daphné Bouteillet-Paquet, 2001-01-01 Longtemps ignorés des enjeux de la construction européenne la politique d'asile et de protection

des réfugiés constitue depuis quelques années une question majeure. Entre crise de l'asile et risque migratoire, la protection des réfugiés a été l'objet d'un amalgame sécuritaire dans une Europe repliée sur le mythe de l'immigration zéro. Cet ouvrage constitue une mise en lumière des effets de la construction communautaire et de l'émergence d'un espace sans frontières sur le développement d'une politique d'asile européenne. *Revue générale de l'architecture et des travaux publics*, 1881
