Vogels Van Groningen:

The University Library of Groningen Gerda C. Huisman, 2014-01-06 Four hundred years ago on 28 February 1615 the University Library of Groningen was officially instituted This book celebrates the four centuries during which the Library matured from a single room with chained books to a modern and busy centre which is an information hub and a social meeting place as well This book not only marks the Library's four hundredth anniversary but it also appears in a time of many changes From September 2014 over the next few years the building will undergo a complete transformation This is another reason why it appropriately focuses on the present day building and the organisation's long history The forty collections presented here form a selection of the many delightful fascinating and rare items in our care Together they give an impression of the treasures preserved by our Library a trust which it is hoped we will continue to honour for many centuries to come
