The South African Defence Forces In The Border War 1966 1989:

The South African Defence Forces in the Border War 1966-1989 Leopold Scholtz, 2015 The SADF in the Border War 1966 1989 offers the first comprehensive analysis of the South African Defense Force s role in the Border War in Namibia and Angola since the end of this conflict in 1989 It investigates the causes of the Border War and follows its progress and escalation in the 1980s It also considers the broader international context against which this conflict took place The author brings vital new information to light gained from documents which have since been declassified This includes documents from the State Security Council the department of foreign affairs the SADF itself as well as from the Cuban and Soviet governments It sheds light on the objectives of the National Party government in both Angola and the former Southwest Africa the SADF s strategy in the war and its cross border operations in Angola To sketch as complete a picture as possible of individual operations the author not only interviewed several high ranking SADF officers but also included information from the Cuban archives and testimonies of Cuban and Russian officers All the major operations and battles are discussed including Savannah Reindeer Sceptic Protea and Moduler as well as the battles of Cassinga and Cuito Cuanavale Where a battle had no clear winner the author asks what the aim was of each of the parties involved and whether they succeeded in achieving that goal In this way he offers fresh perspectives on long running and often controversial debates for instance on who won the battle of Cuito Cuanavale In the last chapter the author looks at the objectives of all the parties involved in the war and whether they achieved them In the process he tries to answer the all important question Who won the Border War

South Africa's Border War 1966-89 Willem Steenkamp, 2022-02-15 Of all the books about South Africa s 21 year Border War fought on both sides of Angola s frontier with present day Namibia South Africa s Border War has always been rated as among the best A significant full color volume it originally sold 31 000 copies in South Africa alone and has been out of print for decades This version is the first re issue of the original written by Willem Steenkamp Almost all the photos were taken by Al J Venter who covered that conflict intermittently for almost two decades Both Steenkamp and Venter have gone on to produce other works on that bitter conflict but neither they nor anybody else has been able to match this beautiful coffee table volume Both agree that the book should be regarded as a tribute to a generation of fighting men where sons often followed in the footsteps of their fathers serving in the same units a generation apart Though South Africa s Border War started slowly with the first major clash of the conflict taking place on South West African soil at Omugulugwombashe in August 1966 hostilities escalated steadily to the point where Moscow provided the Marxist Luanda government with all the military hardware it needed Tens of thousands of Cuban troops were drafted into Angola after Portugal had abandoned its African territories The conflict then entered several conventional phases that involved long range South African armored strikes into Angola s interior and several major tank battles that eventually brought hostilities to an end Luanda by then had already used chemical weapons on a limited scale and Pretoria was considering deploying its newly

developed nuclear arsenal Willem Steenkamp a seasoned war correspondent covers all these historical issues in South Africa's Border War as well as ancillary military strikes in several other black African countries that included Zambia and Mozambique The book is exceptionally well illustrated with hundreds of color as well as black and white photos truly a valuable addition to recent African military history

In Different Times Ian van der Waag, Albert Grundlingh, 2019-11-15 This is the first attempt to bring together diverse scholars using different lenses to study South Africa's Border War As a book it is critical in approach provides deeper reflection and focuses specifically on the SADF experience of the war The result is a more complex picture of the war's dynamics and its legacies Although South Africa is a vastly different country today the study of the Border War opens a range of questions also relevant to contemporary deployments such as in Lesotho 1998 and the Central African Republic 2013 It includes the debate on participation in foreign conflicts on the deployment design and preparation of appropriate modern armed forces and their use as foreign policy instruments in far off theatres on military planning and as the historical controversies regarding the battles at Cuito Cuanavale and Bangui illustrate on the interface between foreign campaigning and domestic politics

A Military History of Modern South Africa Ian van der Waag, 2018-03-14 The story of a century of conflict and change from the Second Boer War to the anti apartheid movement and the many battles in between Twentieth century South Africa saw continuous often rapid and fundamental socioeconomic and political change The century started with a brief but total war Less than ten years later Britain brought the conquered Boer republics and the Cape and Natal colonies together into the Union of South Africa The Union Defence Force later the SADF was deployed during most of the major wars of the century as well as a number of internal and regional struggles the two world wars Korea uprising and rebellion on the part of Afrikaner and black nationalists and industrial unrest The century ended as it started with another war This was a flash point of the Cold War which embraced more than just the subcontinent and lasted a long thirty years The outcome included the final withdrawal of foreign troops from southern Africa the withdrawal of South African forces from Angola and Namibia and the transfer of political power away from a white elite to a broad based democracy This book is the first study of the South African armed forces as an institution and of the complex roles that these forces played in the wars rebellions uprisings and protests of the period It deals in the first instance with the evolution of South African defense policy the development of the armed forces and the people who served in and commanded them It also places the narrative within the broader national past to produce a fascinating study of a century in which South Africa was uniquely embroiled in three total wars

Warfare and Tracking in Africa, 1952-1990 Timothy J Stapleton, 2015-10-06 During the decolonization wars in East and Southern Africa tracking became increasingly valuable as a military tactic Drawing on archival research and interviews Stapleton presents a comparative study of the role of tracking in insurgency and counter insurgency across Kenya Zimbabwe and Namibia

War of Intervention in Angola Adrien Fontanellaz, Tom Cooper, José Augusto Matos, 2023-06-30 Through late 1987 and early 1988 the battlefields of southern

Angola moved ever further away from the border with South West Africa Namibia until the showdown between the Soviet and Cuban supported government in Luanda and South African supported insurgency of UNITA culminated in the controversial and still much disputed Battle of Cuito Cuanavale During this period Angolan and Cuban airpower slowly grew to a point where it outmatched the SAAF in turn limiting the freedom of movement of the SADF and UNITA ground forces and reducing their operations to attritional battles with little chance of achieving major victories on terms acceptable to the government in Pretoria As the changing political climate between East and West and in Africa began to bring about and end to the South African intervention in Angola and the occupation of South West Africa Namibia the government of Angola was able to switch its attentions to dealing with UNITA Volume 5 of War of Intervention in Angola examines in detail this final period of Cuban involvement in the long and tragic civil war that ruined Angola between 1975 and 1992 While the emphasis is upon the operations of the Angolan and Cuban air forces it also details how these impacted upon the ground operations of all parties This volume is richly illustrated with original photographs of the forces involved specially commissioned maps of the ground operations and a range of full color artworks *The SADF in the Border War* Leopold Scholtz,2013

Memories of the Border War Danielle Graham,Dalhousie University. Department of History,2012 **South African Defence Force Review** ,1990 **South African Military Who's Who, 1452-1992** Ian S. Uys,1992 This biographical dictionary contains information on many persons relevant to Namibian military history including German Schutztruppe officers **Israel/Palestine and the Politics of a Two-State Solution** Thomas G. Mitchell,2013-05-27 This is a dispassionate examination of the viability of a two state solution in the Israeli Palestinian conflict based on the politics of Israel Palestine and the United States It includes instructive case studies from South Africa in Namibia and the Irish claim to Northern Ireland The results of Israeli elections from 2001 to 2013 are analyzed with the conclusion that the Likud will be in any government coalition for at least the midterm future giving it a veto over policy A chapter examining the history and ideology of the secular right over the last 90 years follows There are three chapters of case studies the Likud withdrawal from the Sinai in 1979 1982 and from Gaza in 2005 the withdrawal of South Africa from Namibia in 1988 1989 and the dropping of Ireland s constitutional claim to Northern Ireland in 1998 under a Fianna Fail government the same party that wrote the constitution in 1937 A chapter examines Palestinian politics since the mandatory era and another the American Israeli alliance and American politics A concluding chapter draws lessons from the case studies and the analysis **From Fledgling to Eagle** Dick Lord,2017-06-05 The crucible of combat over 23 years forged the fledgling South African Air Force into a formidable strike weapon capable of defeating the best Soviet air defenses of the time From Fledgling to Eagle chronicles the evolution of the SAAF in the Border War that raged in Angola and South West Africa Namibia from 1966 to 1989 covering all the major South African Defence Force SADF operations from Ongulumbashe to the April Fools Day war in 1989 Dick Lord who writes in a from the cockpit style has drawn on his own firsthand operational reports and diaries

incorporating anecdotes from dozens of aviators from a wide variety of squadrons Buccaneers Canberras Mirages Impalas Bosboks C 160s and 130s Dakotas and helicopters He also expands on the close relationship the SAAF had with the ground troops in a variety of operations such units as the Parabats Recces and Koevoet However Lord studies the broader ramifications of the conflict in that it was not a simple black white war Angola was really just a sideshow for the Soviets who wanted to bleed the SAAF in a war of attrition before attempting total domination of South Africa their ultimate goal He is unafraid to admit SADF mistakes of Operations Hooper and Packer he says Lines of communications were too long to ably support the battle which is why we did not clear them off the east bank of the Cuito River and why they captured the three Oliphant tanks which was their only propaganda victory Although he gives credit to the enemy when they put up a stiff fight he clearly outlines the overwhelming South African successes and dispels in accurate detail all enemy claims by giving an accurate account of each battle He said I agree with General Geldenhuys that we thrashed them severely on the Lomba in 85 and 87 much recent publicity has also been given to the so called victory of the Forces of Liberation SWAPO MPLA and 50 000 Cubans and Soviets over the SADF at Cuito Cuanavale in 1988 Nothing could be further from the truth it is blatant propaganda *South African Military Yearbook* ,1997 Through Desert, Veld and Mud Hamish R. Airpower in Small Wars James S. Corum, Wray R. Johnson,2003 The use of airpower in wartime calls to mind the massive bombings of World War II but airplanes have long been instrumental in small wars as well Ever since its use by the French to put down rebellious Moroccan tribes in 1913 airpower has been employed to fight in limited but often lengthy small conflicts around the globe This is the first comprehensive history of airpower in small wars conflicts pitting states against non state groups such as insurgents bandits factions and terrorists tracing it from the early years of the twentieth century to the present day It examines dozens of conflicts with strikingly different scenarios the Greek Civil War the Philippine Anti Huk campaign French and British colonial wars the war in South Vietnam before the American escalation counterinsurgency in southern Africa Latin American counter guerrilla operations and counterinsurgency and counterterrorist campaigns in the Middle East over the last four decades For each war the authors describe the strategies employed on both sides of the conflict the air forces engaged and the specific airpower tactics employed They discuss the ground campaigns and provide the political background necessary to understand the air campaigns and in each case they judge the utility of airpower in its broadest sense In their historic sweep they show how forms of airpower evolved from planes to police helicopters aircraft of the civilian air reserve and today s unmanned aircraft They also disclose how small wars after World War II required new strategies operational solutions and tactics By taking this broad view of small war airpower the authors are able to make assessments about the most effective and least effective means of employing airpower They offer specific conclusions ranging from the importance of comprehensive strategy to the need for the United States and its allies to expand small wars training programs *Airpower in Small Wars* will be invaluable for educating military professionals and policy makers in the

subject as well as for providing a useful framework for developing more effective doctrine for employing airpower in the conflicts we are most likely to see in the twenty first century **Visual History** ,2001 Pro Patria Mark Coghlan,2000
