**The Sport of the Gods** Paul Laurence Dunbar, 2020-07-17 Reproduction of the original *The Sport of the Gods* by Paul Laurence Dunbar     *Black Folklore and the Politics of Racial Representation* Shirley Moody-Turner, 2013-10-02 Before the innovative work of Zora Neale Hurston folklorists from the Hampton Institute collected studied and wrote about African American folklore Like Hurston these folklorists worked within but also beyond the bounds of white mainstream institutions They often called into question the meaning of the very folklore projects in which they were engaged Shirley Moody Turner analyzes this output along with the contributions of a disparate group of African American authors and scholars She explores how black authors and folklorists were active participants rather than passive observers in conversations about the politics of representing black folklore Examining literary texts folklore documents cultural performances legal discourse and political rhetoric *Black Folklore and the Politics of Racial Representation* demonstrates how folklore studies became a battleground across which issues of racial identity and difference were asserted and debated at the turn of the twentieth century The study is framed by two questions of historical and continuing import What role have representations of black folklore played in constructing racial identity And how have those ideas impacted the way African Americans think about and creatively engage black traditions Moody Turner renders established historical facts in a new light and context taking figures we thought we knew such as Charles Chesnutt Anna Julia Cooper and Paul Laurence Dunbar and recasting their place in African American intellectual and cultural history     *Slumming in New York* Robert M. Dowling, 2007 This remarkable exploration of the underbelly of New York City life from 1880 to 1930 takes readers through the city s inexhaustible variety of distinctive neighborhood cultures *Slumming in New York* shows how the city s rich and poor foreign born and native born competed for a voice from such diverse vantage points as the East Side waterfront the Bowery the Tenderloin s black bohemia the Jewish Lower East Side and mythic Harlem Investigating a wide range of New York slumming narratives in which mainstream outsiders write about marginalized urban insiders Robert M Dowling shows how literary works transformed moral threats into cultural treasures     *English Journal* ,1999     *The Nadir and the Zenith* Anna Pochmara, 2021-05-01 *The Nadir and the Zenith* is a study of temperance and melodramatic excess in African American fiction before the Harlem Renaissance Anna Pochmara combines formal analysis with attention to the historical context which in addition to postbellum race relations in the United States includes white and black temperance movements and their discourses Despite its proliferation and popularity at the time African American fiction between Reconstruction and World War I has not attracted nearly as much scholarly attention as the Harlem Renaissance Pochmara provocatively suggests that the historical moment when black people s status in American society reached its lowest point what historian Rayford Logan called the Nadir coincides with the zenith of black novelistic productivity before World War II Pochmara examines authors such as William Wells Brown Charles W Chesnutt Paul Laurence Dunbar Frances Ellen Watkins Harper Pauline Elizabeth Hopkins and Amelia E Johnson Together

these six writers published no fewer than seventeen novels in the years of the Nadir 1877 1901 surpassing the creativity of all New Negro prose writers and the number of novels they published during the height of the Harlem Renaissance in the 1920s *The Literary Griot*, 1992 [The Underdogs](#) Mariano Azuela, 2013-09-03 Hailed as the greatest novel of the Mexican Revolution *The Underdogs* recounts the story of an illiterate but charismatic Indian peasant farmer's part in the rebellion against Porfirio Díaz and his subsequent loss of belief in the cause when the revolutionary alliance becomes factionalized Azuela's masterpiece is a timeless authentic portrayal of peasant life revolutionary zeal and political disillusionment **Complexions of Race** Fritz Gysin, Cynthia S. Hamilton, 2005 *Complexions of Race* The African Atlantic reveals the ways in which conceptions of race have informed and sometimes over determined readings of American experience The first section is concerned with the geography of racial identity with race place and with mapping The second explores the way racial identities are constructed reconstructed or enforced through performance The final section explores the way literary forms generic constructions linguistic strategies and critical practices construct re construct or reposition identities assigned or claimed on the basis of race *The Complete Signet Classic Shakespeare* William Shakespeare, 1972 Brings together in one volume editions of all the plays poems and sonnets originally published as individual paperbacks in the New American Library's Signet Classic Shakespeare series With a General Introduction by Professor Barnet introductions to the individual plays by the contributing editors **The Sport of the Gods** Paul Dunbar, 1999 This classic story about a displaced Southern family's struggle to survive and prosper in early Harlem was one of the first novels to depict the harsh realities of ghetto life Introduction by William Andrews scholar of the Harlem Renaissance and of Antebellum literature **MultiCultural Review**, 2000 *U.S. Realism and the (conceptual) Problem of Race* Jonathan R. Daigle, 2006 *Bowker's Guide to Characters in Fiction* 2007, 2008-02 **A Companion to American Literature** Susan Belasco, Theresa Strouth Gaul, Linck Johnson, Michael Soto, 2020-04-03 A comprehensive chronological overview of American literature in three scholarly and authoritative volumes *A Companion to American Literature* traces the history and development of American literature from its early origins in Native American oral tradition to 21st century digital literature This comprehensive three volume set brings together contributions from a diverse international team of accomplished young scholars and established figures in the field Contributors explore a broad range of topics in historical cultural political geographic and technological contexts engaging the work of both well known and non canonical writers of every period Volume One is an inclusive and geographically expansive examination of early American literature applying a range of cultural and historical approaches and theoretical models to a dramatically expanded canon of texts Volume Two covers American literature between 1820 and 1914 focusing on the development of print culture and the literary marketplace the emergence of various literary movements and the impact of social and historical events on writers and writings of the period Spanning the 20th and early 21st centuries Volume Three studies traditional areas of American literature as well as the
