

The Torah

Did You Know...?

There are 304,806 letters in a Torah scroll and it takes around a year to write!

The word Torah comes from an old Hebrew word that means 'to teach'. Jewish people believe that the Torah teaches them about how G-d wants them to live.

The Torah is the most holy Jewish book and contains the five books of Moses. These five books are also found in the Christian Bible: Genesis, Exodus, Leviticus, Numbers and Deuteronomy.

Jewish people believe that G-d dictated the Torah to Moses, who wrote down how G-d instructed the people to live. This included many rules for living and the most famous rules known as the Ten Commandments.

Every synagogue has a Sefer Torah in it, which is written out in Hebrew by a specially trained scribe onto a scroll. It is read aloud in the synagogue every week. The Sefer Torah is treated with great respect and is not allowed to be touched. Instead, a special stick called a gad is used to point to the words. Once the service is finished, the Torah is stored in a special place called the Ark of the Covenant so that it is protected and no one touches it.

Ancient History: a Revised Chronology Anthony Lyle, 2012-05-29 This book is a culmination of that research After trashing his work 10 times and starting over he managed to get a revised chronology that seemed to be more accurate than that being put out by the status quo universities It combines secular world history with Biblical history in a far more even and smoother match than that proposed by former historians who have attempted the same This is his version 12 which doesn't try to match different histories based on dates but rather by matching people and events and then applying revised dates to those events and people This work will call into question the conclusions of historians of the last 200 years about the ancient periods of time and provide an alternative dating for those times It is a World History in that it incorporates the ancient history of India China Japan as well as the traditional Middle Eastern and European societies of ancient times It re-evaluates the beginnings of civilization and the solar system refuting common historical and scientific beliefs of the modern world Documents that have previously been written off as Mythology have been re-evaluated as well as they give a different perspective of ancient times and what happened back then The use and creation of calendars is an important feature added to this work which is seldom taken into account by modern histories Incorporated in this work are many of the more recent archaeological finds that have yet to be incorporated in status quo works and institutions He makes no apology for the fact that this is Biblically based and the conclusions that have been reached by this work fit very well in Biblical contexts and adds some understanding to the events that took place in the Biblical narratives

BEWARE OF THE MAN WITH ONLY ONE RELIGIOUS BOOK! Louis S. S. Toth Ph.D, 2020-11-15 The thesis of this book is that people and religions that have one religious book as guidance cannot be true in the larger sense of shared truth and that government that are faith based cannot represent all the people Free and open discussions and serious debate are essential for arriving at truth and democratic government And religion is detrimental to world peace The discussions presented assert that there are many religions and that ALL their gods are pretend given arbitrary characteristics and new gods religions have been easily made by many persons who visit the desert wilderness mountain top or any place of solitude where they were able to receive god's calling without witnesses and then

they decree that god wants to speak through them and only to them and echoed by their appointed priests If they can get gullible people to follow them and their god s rules they can establish their own religion and warriors The primary focus of the book s discussions will be to establish ground rules for establishing truth Then as examples discussions are presented with other explanations of miracles in order to reconsider some of the Bible dogma specifically attributed to Jehovah Moses Passover and the roles of all the gods involved in the story of the Exodus The Bible or Torah may tell a different story when we discount miracles and explain them with other real possibilities The conclusions may be different when we explore the plausibility that 1 Moses was the son of Pharaoh Amenhotep IV later called Akhenaten who converted Egypt to a monotheistic religion and Jochebed a lesser wife if married at all and that 2 Moses was an Aten Priest who killed King Tut The Exodus and Adam and Eve would have different explanations if Jehovah were not invented until on Mount Sinai in 1311 BCE Before the Common Era not In the Beginning of the existence of the world Also the Passover the Jews took in leaving Egypt would be logical if one sees Moses attempt to assert his claim to the pharaoh throne And the Jews wandering in the desert would be reasonable if one considers that they were advised and supported by Moses father in law Jethro who was the nomadic high priest of the Druze religion also a monotheistic type These possibilities are herein explored in some detail and the events are presented with a psychological history that includes the back stories motivation and relationships behind the characters and events These discussions encourage rational thought and open mindedness *The Routledge Companion to Jewish History and Historiography* Dean Phillip Bell, 2018-10-10 The Routledge Companion to Jewish History and Historiography provides an overview of Jewish history from the biblical to the contemporary period while simultaneously placing Jewish history into conversation with the most central historiographical methods and issues and some of the core source materials used by scholars within the field The field of Jewish history is profitably interdisciplinary Drawing from the historical methods and themes employed in the study of various periods and geographical regions as well as from academic fields outside of history it utilizes a broad range of source materials produced by Jews and non Jews It grapples with many issues that were core to Jewish life culture community and identity in the past while reflecting and addressing contemporary concerns and perspectives Divided into four parts this volume examines how Jewish history has engaged with and developed more general historiographical methods and considerations Part I provides a general overview of Jewish history while Parts II and III respectively address the rich sources and methodologies used to study Jewish history Concluding in Part IV with a timeline glossary and index to help frame and connect the history sources and methodologies presented throughout The Routledge Companion to Jewish History and Historiography is the perfect volume for anyone interested in Jewish history
