The Streaks Gresleys A4s:

The A4 Pacifics After Gresley Ronald Hillier, Tim Hillier-Graves, 2023-11-23 In their book *Gresley's Silver Link* the authors analyzed the evolution of the A4s Gresley's and their service up to Gresley's death in 1941. This book takes this compelling story from the early years of the war up to their demise in the 1960s. After four years of service pulling the LNER's most prestigious trains the A4s took on a more utilitarian role and for six years worked hard to support Britain's war effort. From this they emerged bowed but unbeaten although in an extremely jaded condition. Once restored they took up where they had left off in 1939 and did exceptional service for the rest of their days. With the help of previously unpublished material the authors analyze the second phase of the A4s careers first as LNER engines then from 1948 under British Railways management. Without a diesel or electric fleet of engines to replace them they entered a second golden age of fast running in the 50s. Then in the Swinging Sixties they faced as some thought a premature end as part of a much delayed modernization program. Until withdrawn from service they continued to astound their footplate crew and performed exceptionally well even when maintenance standards had slipped and their condition had deteriorated. They were thoroughbreds and have become a fitting memorial to the master engineers who produced and sustained them for 30 years or more. *The Streaks* Roger J. Mannion, 1997. ***The Railway Magazine***, 2003. *The Southern Pacifics* Roger J. Mannion, 1998. This is the third volume in Roger Mannion's trilogy of works on remarkable locomotives which began with *The Duchess* and *The Streaks*. This book concentrates on the Southern Pacifics and includes information on the Southern Railway companies. It looks closely at the business and engineering background of the locomotives and compares them with other designs. *Proceedings of the Chartered Institute of Transport*, 1996. *The British National Bibliography* Arthur James Wells, 1999. ***Gresley and Stanier*** John Bellwood, D. Jenkinson, 1986. *The Ultimate Book of Cross-sections*, 1996. See inside fascinating cars, trains, trucks, tanks etc. *Yesterday's Railways* Peter Herring, 2002. Many still recall when the train was their principal means of travel whether to school or work to visit friends and relatives or to go on a trip away from home. Trains were not only used to transport people; they were also an essential means for daily survival, delivering the coal that heated their homes and food that sat on the dinner table. It was a time when a train journey remained an adventure and the steam locomotive that made such a journey possible provided a source of both awe and fascination. These times are recalled in *Yesterday's Railways*, a fascinating book that chronicles England's complete railway history from the ground-breaking years of the 1900s to August 1968 when the engine fires were put out for the last time. Readers will learn not only about the varied cargo routes and destinations of these historic trains but also how they were used during times of war as necessary tools of victory for England and its allies. *Parliamentary Debates (Hansard)*. Great Britain. Parliament. House of Commons, 1990. ***Model Railroad Craftsman***, 1989. *Railroad History*, 2005. ***Gresley's Silver Link*** Tim Hillier-Graves, Ronald Hillier, 2023-03-23. Gresley's A4 Pacifics are arguably the most famous locomotives ever built, a status cemented by Mallard's record-breaking run on the

3rd July 38 And yet only a year later the glamorous streaks seemed likely to be cast into obscurity by the coming of another world war So for only four exhilarating years they were allowed to flourish as their creator had intended and in that time captured the imagination of railwaymen and public alike With the help of previously unpublished material the author analyses the complex evolution of the A4s a project that began in 1911 when Gresley was appointed as Locomotive Superintendent of the Great Northern Railway It is a story with many strands to consider war peace and war again engineering and art politics and business recession and social change the growth of the media and consumerism the struggle for professional reputations and a growing deeply damaging international rivalry All these elements are captured in the story of the A4s in the heady days before conflict ended their brief golden age and Gresley s life came to an end
