Books and Social Media Miriam J. Johnson, 2021-07-29 Social media and digital technologies are transforming what and how we read Books and Social Media considers the way in which readers and writers come together in digital communities to discover and create new works of fiction This new way of engaging with fiction stretches the boundaries of what has been considered a book in the past by moving beyond the physical or even digitally bound object to the consideration of content containers and the ability to share Using empirical data and up to date research methods Miriam Johnson introduces the ways in which digitally social platforms give rise to a new type of citizen author who chooses to sidestep the industry's gatekeepers and share their works directly with interested readers on social platforms Gender and genre especially play a key role in developing the communities in which these authors write The use of surveys interviews and data mining brings to the fore issues of gender genre community and power which highlight the push and pull between these writers and the industry Questioning what we always thought we knew about what makes a book and traditional publishing channels this book will be of interest to anyone studying or researching publishing book history print cultures and digital and contemporary literatures

Beyond Text Jennifer Buckley, 2019-10-09 Taking up the work of prominent theater and performance artists *Beyond Text* reveals the audacity and beauty of avant garde performance in print With extended analyses of the works of Edward Gordon Craig German expressionist Lothar Schreyer the Living Theatre Carolee Schneemann and Guillermo Gomez-Pe the book shows how live performance and print aesthetically revived one another during a period in which both were supposed to be in a state of terminal cultural decline While the European and American avant gardes did indeed dismiss the dramatic author they also adopted print as a theatrical medium altering the status form and function of text and image in ways that continue to impact both the performing arts and the book arts *Beyond Text* participates in the ongoing critical effort to unsettle conventional historical and theoretical accounts of text performance relations which have too often been figured in binary chronological from page to stage or hierarchical terms Across five case studies spanning twelve decades *Beyond Text* demonstrates that print as noun and verb has been integral to the practices of modern and contemporary theater and performance artists

Wasteland Modernism Rebeca Gualberto

Valverde,2021-09-06 This book proposes a renewed myth critical approach to the so called wasteland modernism of the 1920s to reassess certain key texts of the American modernist canon from a critical prism that offers new perspectives of analysis and interpretation Myth criticism and more specifically the critical survey of myth as an aesthetic and ideological strategy fundamental for the comprehension of modernist literature leads to an engaging discussion about the disenchantment of myth in modernist literary texts This process of mythical disenchantment inextricable from the cultural and historical circumstances that define the modernist zeitgeist offers a possibility for revising from a contemporary standpoint a set of classic texts that are crucial to our understanding of the modern literary tradition in the United States This study carries out an exhaustive and updated myth critical examination of works by T S Eliot John Dos Passos F Scott Fitzgerald Ernest Hemingway John Steinbeck and Djuna Barnes to broaden the scope of familiar themes and archetypes enclosing the textual analysis of these works in a wider exploration about the purpose and functioning of myth in literature particularly in times of crisis and transformation Companion to the History of the Book Simon Eliot,Jonathan

Rose,2019-08-15 The celebrated text on the history of the book completely revised updated and expanded The revised and updated edition of The Companion to the History of the Book offers a global survey of the book s history through print and electronic text Already well established as a standard survey of the historiography of the book this new expanded edition draws on a decade of advanced scholarship to present current research on paper printing binding scientific publishing the history of maps music and print the profession of authorship and lexicography The text explores the many approaches to the book from the early clay tablets of Sumer Assyria and Babylonia to today s burgeoning electronic devices The expert contributions delve into such fascinating topics as archives and paperwork and present new chapters on Arabic script the Slavic Canadian African and Australasian book new textual technologies and much more Containing a wealth of illustrative examples and case studies to dramatize the exciting history of the book the text is designed for academics students and anyone interested in the subject **Imagining Home** Susan Elizabeth Farrell,2017 War has often been seen as the domain

of men and thus irrelevant to gender analysis and American writers have frequently examined war according to traditional gender expectations that boys become men by going to war and girls become women by building a home Yet the writers discussed in this book complicate these expectations since their female characters often take part directly in war and especially since their male characters repeatedly imagine domestic spaces for themselves in the midst of war Chapters on Hemingway and the First World War Kurt Vonnegut and the Second World War and Tim O Brien and the Vietnam War place these writers in their particular historical and cultural contexts while tracing similarities in their depiction of gender relationships imagined domestic spaces and the representability of trauma The book concludes by examining post 9 11 American literature probing what happens when the front lines actually come home to Americans While much has been written about Hemingway Vonnegut O Brien and even 9 11 literature separately this study is the first to bring them together

in order to examine views about war gender and domesticity over a hundred year period It argues that 9 11 literature follows a long tradition of American writing about war in which the domestic and public realms are inextricably intertwined and in which imagined domestic spaces can provide a window into representing wartime trauma an experience often thought to be unrepresentable or incomprehensible to those who were not actually there SUSAN FARRELL is Professor of English at the College of Charleston **The Complete Idiot's Guide to Online Shopping** Preston Gralla,1999 Tired of shopping at the mall Now it s easier than ever and more secure to shop online Learn basics of maneuvering through eBay and other sites that offer everything from books to collectibles vintage cars to travel deals Accessible text provides quick reference
