This addition to the Greenwood Press series Bio Bibliographies in Music serves as a reference guide to Menotti's career. A brief biographical sketch precedes a chronologically arranged bibliography of general writings by and about Menotti followed by a detailed list of works alphabetically arranged. A bibliography of writings about specific compositions complete with selected contemporary critical reviews includes data on premiers and other significant performances and discographies of recordings. Opera music scholars along with Menotti fans will appreciate this detailed guide to available research materials. Intended as a scholarly resource, this volume also includes two appendices: a chronological list of works and a genre list of works. An author index and a separate performer index are provided.

The Amateur Stage, 1929 **The Musical Times**, 1906 Sunday Excursion Alec Wilder, 1953 **Arias, Ensembles, & Choruses** John Yaffé, David Daniels, 2011-11-17

Conductors John Yaff and David Daniels have created a one-stop sourcebook for orchestras, opera companies, conductors, and librarians who research and/or prepare programs of vocal excerpts such as solos, ensembles, and choruses for concert performance. In this book, readers will find detailed information on a vast repertoire of vocal pieces commonly extracted from operas, operettas, musicals, and oratorios: more than 1,750 excerpts from 450 parent works. Modeled on Daniels' *Orchestral Music*, *Arias, Ensembles, Choruses* includes basic historical details about each parent work as well as extract titles, subtitles, voice types, keys, durations, locations in the original work with page numbers in both full scores and piano/vocal scores, and exact instrumentation. It also lists the publishers that make available the orchestral materials for just the excerpt being programmed, independent of the full parent work. Until now, conductors and orchestra librarians commonly had to first leaf through full scores searching for one elusive three-minute aria after another, only to then consult multiple publishers' catalogues to compile crucial information on all the excerpts proposed for a concert or recording. This book constitutes a single source for finding that information. In many cases, the individual entries include valuable insider information on common performance practice, including start and stop points, transpositions, and conventional cuts. Searching for repertoire is made easy with the detailed title index and appendixes devoted to ensemble excerpts, all categorized by personnel, e.g., duets, trios, quartets, quintets, sextets, choruses, and language: Czech, English, French, German, Italian, Latin, Russian. This book is the ideal tool for the working conductor and orchestral librarian, as well as music program directors at colleges and conservatories, opera companies, and symphony orchestras.

As of October 2015, a new printing of this book has occurred to correct errors in the index. A PDF version of the new index is available to previous purchasers of the volume. Please contact Rowman Littlefield's music editor for assistance.

Twentieth Century Opera George Whitney Martin, 1999. *Limelight* Martin provides a guide to opera that is sweeping in its scope, thorough in its detail, and authoritative in its commentary. He recalls a century of achievement in an art form that today enjoys unprecedented popularity and that has been generously enriched by challenging works in many cases yet to be fully recognized of the modern era.
