The Strategic Project Leader Mastering Service Based Project Leadership Second Edition:

The Strategic Project Leader Jack Ferraro, 2014-09-26 As executives build and nurture their organization's strategic agility in today's turbulent uncertain business environment the ability to lead strategic change has become more critical than ever. The Strategic Project Leader Mastering Service Based Project Leadership Second Edition will help project managers lead with confidence in temporary ambiguous team structures that execute risk laden work in an increasingly agile project environment. Like the first edition this edition encourages readers to take ownership of their leadership agenda and become disciplined in the processes of building a framework of leadership skills. Readers are introduced to a new role the service based project leader. This role serves the entire project organization by creating a meaningful experience for team members customers and critical stakeholders. The book provides practical guidance to help you move from project manager to service based project leader. Detailing a framework for developing and refining leadership skills it explains how to build a leadership competency pyramid and then execute a self directed plan for building leadership competencies. The leadership competency pyramid includes an intuitive model that will be helpful to project managers at any level. The book elaborates on the components of each layer of the pyramid and how each layer relates to the others. A chapter is dedicated to each layer of the pyramid with supporting evidence for the necessity of each of these layers as well as practical advice on how to build and practice these component layers.

The Strategic Project Leader Jack Ferraro, 2007-10-11 In addition to overseeing projects managers are expected to provide creative input and foster an environment that can respond rather than react to changing parameters and fluctuating objectives. Facilitating the development of the skills required to do so. The Strategic Project Leader Mastering Service Based Project Leadership
