The System States Rebellion Dietmar Arthur Wehr, 2019-11-13 This omnibus edition includes all three books of the System States Rebellion series with over 200,000 words of military SF action. Included in this ebook are the following novels: Rumors of Glory, Rumors of Honor, and Rumors of Salvation. The first book, Rumors of Glory, can still be downloaded individually and is free. After centuries of peaceful expansion under the auspices of the Federation of Planetary States, some of the more developed colonies have had enough of the economic exploitation by Earth chartered companies and attempt to secede. The Rebellion soon expands in both scope and violence beyond the expectations of both sides. As the war drags on year after year, it takes an unexpected turn and puts not only Human Civilization at risk but Human existence as well. This ebook has both space and ground battles, high-level strategy, personal triumphs, and tragedies. Valkyrie's War Dietmar Arthur Wehr, 2024-11-06 Valkyrie's War is a short military SF novel set in the Synchronicity War Retro War universe. It's an action-packed story where the Artificial Intelligence Valkyrie and her AI soul mate Casanova discover that all of humanity is in deadly danger and the two of them are humankind's only hope. But this time they're not facing a biological threat. This time the enemy is another AI that is far more capable than they are. If you enjoyed The Synchronicity War's clash of space fleets and time travel, then you'll enjoy this stand-alone sequel to The Retro War. *Scimitar's Glory* Dietmar Arthur Wehr, 2018-01-30 Human explored space lies between two alien races that are either openly aggressive or covertly hostile. 7th Fleet discovers that one of those races is moving to attack. In a moment of panic, the commanding admiral orders the fleet to attempt a risky jump through hyperspace. They miss hitting their target star's gravity well and end up deep in unexplored space with a shockingly long trip home and not nearly enough food to last that long. With war now raging in their home systems, the officers of 7th Fleet must find a way to put aside their egos, ambitions, and fears in order to make it back, and they know that not all of them will. *Scimitar's Glory* is the first book in a new fast-paced action-packed military SF series: Swordships Odyssey. The second book, Excalibur's Quest, is also now available. Excerpt: With a long risky jump like this, Dejanus would have expected Corregidor's astrogational AI to take at least ten minutes to aim the ship as precisely as possible to the distant star's center. She was therefore surprised and somewhat alarmed when the flagship signaled to the rest of the fleet that they could start to match her trajectory after only half that time. Goddammit, what's the rush, she said to Koenig, who was the only other human on the Bridge. There's no possible way the Jab fleet can catch us before we jump, even

if we take another hour to do it Why not take a few extra minutes to get the most accurate trajectory possible When it became clear that Koenig had nothing to say she continued Astro I want you to check the flagship s alignment with Alpha9 while we match vectors Let me know if you think the flagship s vector could be better That extra task delayed Excalibur s alignment and therefore she became the last ship in the fleet to signal her readiness for the jump Fleet Commander on Tac2 Commander said the com AI Dejanus switched channels to her Command Pod Excalibur Actual speaking said Dejanus in the formal form of address that ship COs normally didn t bother with What s taking your Astro so long to get aligned Commander Rostov didn t bother to hide his annoyance Just double checking the overall jump trajectory Admiral Dejanus thought she heard Rostov swear under his breath but it could have been her imagination You tell your Astro that if Excalibur isn t aligned in the next two minutes I ll order him replaced and transferred to a cargo hauler FC out The astro AI managed to get the ship aligned within the deadline to no one s surprise With all ships in the fleet now aligned perfectly with the flagship and jump velocity attained the order was given to enter hyperspace It was 131 3 hours later when both Koenig and Dejanus were on the Bridge again watching the jump chronometer countdown to the second when the ship should drop back down into normal space Koenig watched the countdown clock hit zero and then start counting up again After ten more seconds Dejanus began shaking her head She had a horrified expression on her face We ve missed That bastard has killed us all

Return of the Star Raiders Dietmar Arthur Wehr, 2019-11-14

fter the collapse of the interstellar Federation human civilization descended into a new Dark Age as planets cut off from Earth and each other reverted to a lower tech level After centuries of struggling to pull themselves back up by their bootstraps they face a new and terrible threat Raiders with faster than light ships and contra gravity tanks steal anything they want and kill anyone that gets in their way This military SF novel is the story of three generations of a family as they fight to protect their planet and loved ones from the forces of chaos Excerpt He quickly checked the distance to the mine site and compared that with the missile s own effective range and the X 12 s speed There was a slim chance of getting within firing range before the enemy ships got too high The throttles were already pushed as far forward as they could go but there was one more thing Strider could try in order to get more speed He initiated the afterburners which poured fuel directly into the hot engine exhaust causing secondary combustion and additional thrust The sudden surge in speed felt like someone had just kicked him in the back The enemy ships were starting to gain altitude faster now The distance between them and the X 12 was dropping faster too but there was no way to know for sure if it was dropping fast enough With seconds to go until the enemy ships got within missile range Strider armed the warhead opened the weapons bay and lowered the missile s launch platform The fuel exhaustion warning light lit up and he heard the accompanying warning alarm that he was almost out of fuel Landing without fuel was going to be a bitch but he couldn t worry about that now He had to focus on getting within firing range Without radar there was no way to know for sure but his estimated position relative to the mine site told him that the enemy ships were now within missile range He activated the
