

A Walk on the Shoreline

by Rebecca Hainnu
illustrated by Qin Leng

Walk Shoreline Rebecca Hainnu

Rebecca Hainnu

Walk Shoreline Rebecca Hainnu:

A Walk on the Shoreline Rebecca Hainnu, 2020-04 Young Nukappia can't wait to get out to his family campsite on the shoreline. After spending all year in the south with his adoptive parents, Nukappia always looks forward to his summer visits with his birth family. After spending one night in town, Nukappia and his uncle Angu begin the long walk down the shore to the family summer campsite where all of Nukappia's cousins and aunts and uncles are waiting for him. Along the way, Nukappia learns that the shoreline is not just ice and rocks and water. There is an entire ecosystem of plants and animals that call the shoreline home. From seaweed to clams to char to shore grasses, there is far more to see along the shoreline than Nukappia ever imagined. *Powerful Thinking* Adrienne Gear, 2024-03-18 An inspiring book to help teachers shift their beliefs and stretch their thinking around reading comprehension, literacy instruction, and content area learning. Using the key concepts and strategies introduced in her groundbreaking book *Reading Power*, Adrienne Gear shows teachers practical ways to create a culture of thinking that can be integrated into all areas of learning. Using knowledge-rich texts as tools, Adrienne shares how read-alouds can be used in content areas to support literacy skills and build knowledge. This timely book offers classroom-tested lessons and anchor books to create a content-rich learning environment that helps strengthen student learning and knowledge building.

Living Things for Grades 3-5 Jennifer E. Lawson, 2021-09-13 *Living Things for Grades 3-5* from *Hands On Science for British Columbia: An Inquiry Approach* completely aligns with BC's New Curriculum for science. Grounded in the Know-Do-Understand model, First Peoples knowledge and perspectives, and student-driven scientific inquiry, this custom-written resource emphasizes Core Competencies so students engage in deeper and lifelong learning, develops Curricular Competencies as students explore science through hands-on activities, fosters a deep understanding of the Big Ideas in science. Using proven *Hands On* features, *Living Things for Grades 3-5* contains information and materials for both teachers and students, including Curricular Competencies correlation charts, background information on the science topics, complete easy-to-follow lesson plans, digital reproducible student materials, and materials lists. Innovative new elements have been developed specifically for the new curriculum: a multi-age approach, a five-part instructional process (Engage, Explore, Expand, Embed, Enhance), an emphasis on technology, sustainability, and personalized learning, a fully developed assessment plan for summative, formative, and student self-assessment, a focus on real-life Applied Design Skills and Technologies, learning centres that focus on multiple intelligences, and universal design for learning (UDL). Place-based learning activities, Makerspaces, and Loose Parts. In *Living Things for Grades 3-5*, students investigate plants and animals. Core Competencies and Curricular Competencies will be addressed while students explore the following Big Ideas: Plants and animals have observable features. Living things have features and behaviours that help them survive in their environment. Living things have life cycles adapted to their environment. *Hands-On Science and Technology for Ontario, Grade 2* Jennifer E. Lawson, 2023-12-01 *Hands On Science and Technology for Ontario Grade 2* is an easy-to-use resource for teaching

the five strands of the Ontario science and technology 2022 curriculum STEM Skills and Connections Life Systems Growth and Changes in Animals Matter and Energy Properties of Liquids and Solids Structures and Mechanisms Simple Machines and Movement Earth and Space Systems Air and Water in the Environment Hands On Science and Technology for Ontario Grade 2 encourages students natural curiosity about science and the world around them as they participate in hands on activities and explore their environment Using the inquiry approach this comprehensive resource fosters students understanding of STEM science technology engineering and mathematics skills makes coding and emerging technologies approachable for both teachers and students emphasizes personalized learning using a four part instructional process activate action consolidate and debrief enhance relates science and technology to sustainability and our changing world including society the economy and the environment focuses on practical applications of the engineering design process as students work on solutions to real life problems builds understanding of Indigenous knowledge and perspectives specific to Ontario explores contributions to science and technology by people with diverse lived experiences Using proven Hands On features this book provides resources for both teachers and students including background information on the science topics complete easy to follow lesson plans materials lists and digital image banks and reproducibles find download instructions in the Appendix of the book Innovative elements developed specifically for the Ontario curriculum include the following plugged and unplugged coding activities in nearly every lesson land based learning activities opportunities for students to use the scientific research process scientific experimentation process and engineering design process a fully developed assessment plan to guide assessment for as and of learning ideas and prompts for STEM Makerspace project
