constitutive force in food representations and its symbolic and material effects *The Mindfulness Workbook for Addiction* Rebecca E. Williams, Julie S. Kraft, 2012-08-01 Most addictive behavior is rooted in some type of loss be it the death of a loved one coming to terms with limitations set by chronic health problems or the end of a relationship By turning to drugs and alcohol people who have suffered a loss can numb their grief In the process they postpone their healing and can drive themselves further into addiction The Mindfulness Workbook for Addiction offers readers an effective program for working through their addiction and grief with cognitive behavior therapy CBT dialectical behavior therapy DBT and acceptance and commitment therapy ACT Created by a psychologist who works for the Department of Veterans Affairs and a marriage and family therapist who works for Sharp Mesa Vista Hospital this mindfulness training workbook is effective for treating the emotion dysregulation stress depression and grief that lie at the heart of addiction No matter the loss the mindfulness skills in this workbook help readers process their grief determine the function their addiction is serving and replace the addiction with healthy coping behaviors **Food Junkies** Vera Tarman, 2019-01-05 A fact filled guide to coping with compulsive overeating problems by an experienced addictions doctor who draws on many patients stories of recovery Overeating binge eating obesity anorexia and bulimia Food Junkies tackles the complex poorly understood issue of food addiction from the perspective of a medical researcher and dozens of survivors What exactly is food addiction Is it possible to draw a hard line between indulging cravings for comfort food and engaging in substance abuse For people struggling with food addictions recognizing their condition remains a frustrating battle This revised second edition contains the latest research as well as practical strategies for people facing the complicated challenges of eating disorders and addictions offering an affirming and manageable path to healthy and sustainable habits **Feminist Theology and Contemporary Dieting Culture** Hannah Bacon, 2019-08-08 Hannah Bacon draws on qualitative research conducted inside one UK secular commercial weight loss group to show how Christian religious forms and theological discourses inform contemporary weight loss narratives Bacon argues that notions of sin and salvation resurface in secular guise in ways that repeat well established theological meanings The slimming organization recycles the Christian terminology of sin spelt Syn and encourages members to frame weight loss in salvific terms These theological tropes lurk in the background helping to align food once more with guilt and moral weakness but they also mirror to an extent the way body policing techniques in Christianity have historically helped to cultivate self care The self breaking and self making aspects of women s Syn watching practices in the group continue certain features of historical Christianity serving in similar ways to conform women s bodies to patriarchal norms while providing opportunities for women s self development Taking into account these tensions Bacon asks what a specifically feminist theological response to weight loss might look like If ideas about sin and salvation service hegemonic discourses about fat while also empowering women to shape their own lives how might they be rethought to challenge fat phobia and the frenetic pursuit of thinness As well as naming as sin principles and practices which diminish women s appetites and

bodies this book forwards a number of proposals about how salvation might be performed in our everyday eating habits and through the cultivation of fat pride It takes seriously the conviction of many women in the group that food and the body can be important sites of power wisdom and transformation but channels this insight into the construction of theologies that resist rather than reproduce thin privilege and size ist norms
