Mount Rushmore

Read the following informative passage:

About 400 people helped climb Mt. Rushmore. Workers climbed 200 stairs up the mountain and then were lowered over the mountain in special chairs hanging by cables. They worked during blizzards, hot summers, frigid winters, and in windy conditions. They set off small charges of dynamite to complete about 90 percent of the carvings. Workers used 25-pound jackhammers or hand tools for the remainder of the work. Despite many dangers, not one person was killed during the carving of Mt. Rushmore.

(Adapted from readingonline.com)

Imagine you are one of the workers who was involved in carving Mt. Rushmore. Write a short narrative about a day at the building site. (You can use pieces of information from the passage.)

To make the most of this period, it's essential to adopt a proactive and mindful approach. Maintaining a healthy lifestyle lays the foundation for a successful adolescence. Prioritize regular exercise, a balanced diet, and adequate sleep to support physical and mental well-being. Foster relationships with credible mentors, cultivate friendships based on respect and open communication, while also fostering connections with family members who can offer guidance. Effective communication skills will serve you well in various aspects of life. Express your thoughts and emotions clearly and practice active listening to understand others. Setting goals, both short-term and long-term, gives direction and purpose.
