EBOOK: Working Knowledge Colin Symes, John McIntyre, 2002-11-16 a rich inter weaving of carefully articulated critical stances It is impossible in a short review to do justice to the quality and variety of all these perspectives The result is strong coverage of the territory set out in the title in ways that many working in the field will find valuable Phil Hodgkinson Journal of Education for Teaching Universities are undergoing a series of profound changes One of the more pronounced of these involves the partnerships that are now being formed between business enterprises and higher education The emergence of these partnerships has much to do with the changing economy which is increasingly based around knowledge and information the traditional stock in trade of the university Knowledge capitalism has given a renewed impetus to higher education One expression of this is work based learning which challenges the scope and site of the university curriculum This book analyses this development from a number of perspectives critical historical philosophical sociological and pedagogical Its various contributors argue that work based approaches contain much that is challenging to the university and also much that could help to create new frameworks of learning and new roles for academics Working Knowledge offers a comprehensive examination of the new vocationalism in higher education *The Foundations of Social Work Knowledge* Frederic G. Reamer, 1994 Leading social work educators explain the essential components of the social work curriculum social work practice policy and services human behavior in the social environment research and evaluation field education ethics oppression and social injustice and diversity and populations at risk including ethnic minorities and people of color women lesbians and gays and people with disabilities **Knowledge at Work** Robert Defillippi, Michael Arthur, Valerie Lindsay, 2009-02-04 This book's unique perspective stems from its knowledge diamond framework to examine how individuals communities organizations and host industries reciprocally influence each other in the course of knowledge work This highly topical book focuses on work based projects as a focus for organizational learning Establishes the link between individual community organization and industry learning Suggests that organizations need to recognise and understand this link if they are to capitalize on project based learning Incorporates material on project based learning in virtual communities Refers to different examples such as the film industry the software industry and the boat building industry Includes end of chapter questions provoking reflection and discussion Work, Consumption and Capitalism Lynne Pettinger, 2017-09-15 Sonic branding guerrilla marketing celebrity endorsements customer service excellence and multi channel advertising are just some of the popular sales techniques that currently promote consumerism in contemporary capitalism Considerable energy is devoted to encouraging consumers to desire new fashions to celebrate good design to have feelings for brands and to immerse themselves in sensory experiences without worrying about the ethics of their practices Work Consumption and Capitalism looks at how consumption is produced by focusing on the multiple kinds of work that make consumption possible from advertising creatives to fashion designers from self service checkouts to the hippest barista in the coolest coffee shop
