Works Triumphs In Detail Standard Triumphs Works Competition Entrants Car By Car:

Works Triumphs In Detail Graham Robson, 2015-03-01 Between 1953 and 1980 the Triumph competitions department produced more than 150 works competition cars for race and rally. These included TR2, TR3 and TR3A, the TR3S, TRS and Conrero race cars, Herald and Vitesse TR4, 2000 Spitfire and GT6R, 2.5 PI Dolomite and Sprint TR7 and TR7 V8. In addition, they prepared Standard Eight, Ten Pennant and Phase III Vanguard for competition. Viewed overall, what stands out as the remarkable feature of the work of the department was that they achieved such a degree of success with relatively ordinary production cars from 803cc saloons upwards. Author Graham Robson was manager of the Standard Triumph competitions department in the early 1960s and himself supervised the development and management of the works TR4s Spitfires and 2000s. Here he provides information on each and every one of the works cars of the whole 1953-80 period with details of their specifications, entries, drivers and careers, accompanied in nearly all cases by archive photographs. In addition, there is specially commissioned colour photography of important surviving examples. *Triumph Cars* Ross Alkureishi, 2023-06-20 Triumph Cars is a comprehensive gorgeously illustrated history of the Triumph sports cars sought by today's collectors and admired by automotive enthusiasts. [The Illustrated History of Triumph Sports and Racing Cars](#) G. William Krause, 2017-11-15 The Triumph Motor Company is known around the world for its iconic sports cars. The hugely popular TR series Spitfires and GT6s represent the quintessential British sports car: rugged good looks were combined with performance and economy at a price everyone could afford. These sports cars are always in demand and prized by British car collectors, racers and open air motoring enthusiasts. Triumph understood the connection between competition success and sales success and was able to parlay rally and road racing wins into the best-selling sports cars in the world, particularly in the United States during the 1950s and 1960s. The Works competition cars notched victories at Le Mans, Sebring, the Monte Carlo rally and many others and inspired privateers to take their cars to the track. Every model came from a bloodline of racing Triumph. Historian G. William Krause reviews every model in the sports car lineup. He covers the history, design, evolution and performance specifications from the first sports cars in the 1930s through the final cars built in 1981. Throughout Triumph's history, a number of pivotal moments could have significantly changed the company's fortunes. This book also looks at the what-ifs: cars that never made it into production, including photos. Although they have not been built for more than three decades, their mark on sports car history is undeniable. Whether you're a fan of the spartan brutes of the 1950s or the refined comfort and performance of the last TRs, you will find the backstory of your favorites here. p 1 margin 0 0px 0 0px 0 0px 0 0px font 12 0px Arial **TRIUMPH TR - TR2 to 6: The Last of the Traditional Sports Cars** Bill Piggott, 2022 The Triumph TR range has earned its place among the most popular sports cars of all time with enthusiasts and owners on both sides of the Atlantic. The cars covered here range from the original basic four-cylinder TR2 of 1953 to the hairy-chested six-cylinder TR6 that finally bowed out of production in 1975, replaced by the unloved TR7. **Triumph TR** Kevin
