Till the Cows Come Home Lorna Sixsmith, 2018-05-30

One farm Two worlds Three generations Fuelled by dreams of a rural idyll Lorna Sixsmith and her husband swap the 9 to 5 for a return to her family's ancestral farm at Garrendenny. They love the fields and lanes of their corner of Ireland where their black and white herd flourishes, the land where the patterns of their lives echo those of generations of Sixsmiths before them. But a rural existence isn't a heaven on earth. Bad weather, runaway bulls, temperamental farm machinery and cows that refuse to be milked can test anyone's patience. But not for too long, the fields, the animals and the laughter always win out. Warm, witty and wise Lorna Sixsmith effortlessly mixes family memories, social history and her own hard won insights into life on the land. Praise for *Till the Cows Come Home* A mesmerising tale of Irish farming. From top cow Delilah to the stranger at the silage table, the joys and challenges are skilfully tied together. Lorna Sixsmith is a natural storyteller in the vein of Alice Taylor. ANN FITZGERALD author of *A Year on Our Farm* and journalist with *Farming Independent*. A strong female farming voice and a vivid sense of a rural childhood. Drink in rural life for the first time or get lost in pleasant memories. A must read memoir. SHARON THOMPSON author of *The Abandoned* *F&S Index Europe Annual* ,1999 *International Commerce* ,1967

A Successful Transformation? Petr Pavlínek, 2008-04-30 I started researching the dramatic changes in the automobile industry of Central and East European countries in the late 1990s. My interest grew out of my previous work on the post socialist transformation, foreign direct investment and regional economic development. While researching the economic and regional development effects of foreign direct investment I was increasingly drawn to the automobile industry because of the speed and depth of its transformation through foreign direct investment and its potentially very significant economic and regional development effects. In addition to working on the Central and East European automobile industry as a whole I became interested in detailed case studies of enterprise restructuring as I wanted to understand its complex nature and the role of different actors in the restructuring of the automobile industry. In order to achieve this goal I visited dozens of automotive enterprises especially in the Czech Republic (Czechia) to conduct in-depth interviews with key informants. I have also interviewed key informants at ministries, automotive associations and academia and collected various secondary data.

and information This book is the outcome of this work In this endeavor I have benefited from various support The University Committee on Research and Creative Activity at the University of Nebraska at Omaha funded three field work sessions in Czechia to conduct interviews and research for this book **Technology Transfer And Development** R.
