Zoological Mythology, Vol. 1 of 2 Angelo de Gubernatis,2015-06-02 Excerpt from Zoological Mythology Vol 1 of 2 The Legends of Animals It is not without some little anxiety and trepidation that I for the first time in my career as a student venture to address myself to a foreign public and clothe my ideas in a foreign tongue nor is it without considerable diffidence in my own powers that I have chosen to do so on a subject which however interesting it is on account of its novelty and its historical significance has brought me face to face with difficulties and a range of scholarship and speculation which as in the presence of a foolhardy enterprise have more

than once given me pause If however notwithstanding these incessant fears of mine and the caution they so naturally inspire I have from other considerations suffered myself to be hurried away into statements which may appear crude or inconclusive I cast myself at the outset on the kindness of my readers and respectfully bespeak their indulgent regards The essential defect of this book will without doubt lie in its incompleteness About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Zoological Mythology, Or, The Legends of Animals, 1872 **Zoological Mythology, Volume I (of 2) Or The Legends of Animals** Angelo De Gubernatis, 2012 *Zoological Mythology, Or, The Legends of Animals* conte Angelo de Gubernatis, 1872 **Volume 3 of the Collected Works of Marie-Louise von Franz: Archetypal Symbols in Fairytales** Marie-Louise von Franz, 2022-02-28 The Collected Works of Marie Louise von Franz is a 28 volume Magnum Opus from one of the leading minds in Jungian Psychology Volume 3 turns to the Maiden s Quest within fairytales The maiden heroine navigates a complicated maze of inner and outer relationships as she builds a bridge to the unconscious The heroine contends with the animus in many forms like a devouring and incestuous father demonic groom the beautiful prince an androgenous mother a cold dark tower and through conflict with the evil stepmother Dangers and pitfalls await her as the conscious feminine strives to make connections with the unconscious masculine The maiden is the undeveloped feminine and the promised fruit of her struggle with the animus is the coniunctio Volume 3 is a masterwork of cross cultural scholarship penetrating psychological insight and a strikingly illuminating treatise With her usual perspicacity and thoroughness von Franz gathers countless fairytale motifs revealing a myriad of facets to the maiden s quest *Zoological Mythology, Vol. 1 of 2* Angelo De Gubernatis, 2018-03-22 Excerpt from *Zoological Mythology Vol 1 of 2 The Legends of Animals* Since then the ancient myths still exist although only in a fragmentary shape in the popular traditions of Europe these fragments connected together offer a precious material for comparison with the ancient forms which the genius of poets and artists has coloured but which could not be easily interpreted without the aid of the remaining traditions The ancient myth often gives us the germ of many existing traditions and in the same manner existing legends resolve the enigma of more than one ancient celestial personification Their relation to each other is almost immediate and the demonstration of this is the precise object of the science in the interest of which I now offer my first modest contribution About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the
