The Special Data Dissemination Standard The Special Data Dissemination Standard:

The Special Data Dissemination Standard Plus International Monetary Fund. Statistics Dept.,2013-10-30 The International Monetary Fund IMF launched the Data Standards Initiatives to enhance member countries data transparency and to promote their development of sound statistical systems The need for data standards was highlighted by the financial crises of the mid 1990s in which information deficiencies were seen to play a role Under the Data Standards Initiatives the IMF established the Special Data Dissemination Standard SDDS in 1996 to provide guidance to countries that have or seek access to capital markets to disseminate key data so that users in general and financial market participants in particular have adequate information to assess the economic situations of individual countries In 1997 the IMF introduced under the initiatives the General Data Dissemination System GDDS to provide a framework for countries that aim to develop their statistical systems within which they can work toward disseminating comprehensive and reliable data and eventually meet SDDS requirements In February 2012 the IMF Executive Board approved the establishment of the SDDS Plus as a third tier of the Fund's Data Standards Initiatives to address data gaps revealed during the global crisis The SDDS Plus is open to all SDDS subscribers those with systemically important financial sectors are encouraged to adhere early to the initiative *The Special Data Dissemination Standard* International Monetary Fund,2007-07-25 The Special Data Dissemination Standard SDDS was established by the IMF in 1996 to guide members that already had or that might seek access to international capital markets in providing key economic and financial data to the public In the following year the IMF established the General Data Dissemination Standard GDDS which seeks to prepare countries for meeting the requirements of the SDDS Data supplied by countries subscribing to the SDDS as well as information provided by countries participating in the GDDS are posted on the Dissemination Standards Bulletin Board DSBB on the IMF's public website <http://dsbb.imf.org> This Guide is intended to assist subscribers of the SDDS GDDS participants moving toward subscription to the SDDS and users of the DSBB in becoming aware of the features and scope of the SDDS and the DSBB It is intended to further the IMF's initiatives in data transparency and standards to enhance the public availability of timely and comprehensive international statistics and therefore to contribute to countries pursuit of sound macroeconomic policies and to the improved functioning of global financial markets

Revisions to the Special Data Dissemination Standard and Establishment of the Special Data Dissemination Standard Plus-Proposed Decisions Internationaler Währungsfonds,2012 The purpose of the Special Data Dissemination Standard SDDS is to guide member countries in the dissemination of comprehensive timely accessible and reliable economic and financial statistical data in the context of increasing economic and financial integration The SDDS not only prescribes that subscribers disseminate certain data categories but also prescribes that subscribers disseminate the relevant metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories The purpose of the Special Data Dissemination Standard Plus SDDS Plus is to reinforce and

supplement the Fund's Data Standards Initiatives and assist Fund members who decide to adhere to the SDDS Plus with regard to the publication of comprehensive timely accessible and reliable economic and financial statistical data in a world of continuing economic and financial integration. The SDDS Plus also requires adherents to disseminate metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. The Fund decided that the existing rules governing the SDDS are superseded by the new SDDS legal text. The Fund established the SDDS Plus which is governed by the rules in the SDDS Plus legal text.

Revisions to the Special Data Dissemination Standard and Establishment of the Special Data Dissemination Standard Plus—Proposed Decisions International Monetary Fund, 2012-04-10. The purpose of the Special Data Dissemination Standard (SDDS) is to guide member countries in the dissemination of comprehensive timely accessible and reliable economic and financial statistical data in the context of increasing economic and financial integration. The SDDS not only prescribes that subscribers disseminate certain data categories but also prescribes that subscribers disseminate the relevant metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. The purpose of the Special Data Dissemination Standard Plus (SDDS Plus) is to reinforce and supplement the Fund's Data Standards Initiatives and assist Fund members who decide to adhere to the SDDS Plus with regard to the publication of comprehensive timely accessible and reliable economic and financial statistical data in a world of continuing economic and financial integration. The SDDS Plus also requires adherents to disseminate metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. The Fund decided that the existing rules governing the SDDS are superseded by the new SDDS legal text. The Fund established the SDDS Plus which is governed by the rules in the SDDS Plus legal text.

Modifications to the Special Data Dissemination Standard Plus International Monetary Fund, 2014-03-19. The Special Data Dissemination Standard Plus (SDDS Plus) was established in October 2012 to reinforce and supplement the Fund's Data Standards Initiatives and assist Fund members who decide to adhere to the SDDS Plus with regard to the publication of comprehensive timely accessible and reliable economic and financial statistical data in a world of continuing economic and financial integration. The SDDS Plus also requires adherents to disseminate metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. Following consultations conducted between Fund staff and members' authorities of potential adherents to the SDDS Plus, it appeared necessary to introduce certain modifications to the SDDS Plus legal framework to facilitate adherence. These modifications are consistent with views expressed by Executive Directors in informal discussions with staff and entail: i) extending the timeliness of three data categories and ii) maintaining consistency with the principle underlying the SDDS Plus framework under which subscribers may choose to adopt new methodologies or continue to follow older ones. The Executive Board approved, on a lapse of time basis, the proposed decision in the paper. The existing rules governing the SDDS Plus are superseded by the new SDDS Plus.

Sixth Review of the Fund's Data Standards Initiatives International Monetary Fund. Statistics Dept., 2005-01-07 The Data Standards Initiatives the SDDS and the GDDS have achieved the goals the Executive Board set in its Fifth Review of July 2003 The staff sees the next three years as a period of consolidating these gains by maintaining the credibility of the SDDS through improved monitoring of countries observance of its requirements and further integrating both the SDDS and GDDS under the Fund's Data Quality Program DQP by aligning their structure with the Fund's Data Quality Assessment Framework DQAF The staff proposes to include no new data categories in the SDDS and GDDS Instead the staff proposes to deepen descriptive information on how countries cover oil and gas activities and products in selected existing data categories

Broadening Financial Indicators in the Special Data Dissemination Standard Internationaler Währungsfonds, 2010 In December 2008 the IMF Executive Board discussed the Seventh Review of Data Standards Initiatives and Directors requested staff to return to the Board within about a year with a proposal for the inclusion of selected financial indicators in the Special Data Dissemination Standard SDDS This paper responds to the 2008 request taking into account recent developments The recent financial crisis has heightened the need for policymakers financial regulators and capital market participants to put in place conditions that would help prevent the occurrence of similar crises in the future One of the areas identified by the international community as key in crises prevention is the availability of timely and more detailed financial data that could provide early warning signals of impending risks and vulnerabilities

The General Data Dissemination System International Monetary Fund, 2007-07-25 The IMF's work on data dissemination standards consists of two tiers the General Data Dissemination System GDDS which applies to all IMF member countries and the Special Data Dissemination Standard SDDS for those members having or seeking access to international capital markets The GDDS framework provide governments with guidance on the overall development of the

macroeconomic financial and sociodemographic data that are essential for policymaking and analysis in an environment that increasingly requires relevant comprehensive and accurate statistical data This Guide explains the nature objectives and operation of the GDDS the data dimensions it covers and how countries participate It provides national statistical authorities with a management tool and a framework to foster sound statistical methodology professional data compilation and data dissemination The Guide supersedes the version updated in March 2002 and incorporates the UN Millennium Development Goals MDGs as specific elements of the GDDS sociodemographic component which was articulated with the collaboration of the World Bank
