Clinical Assessment of Malingering and Deception Richard Rogers, Scott D. Bender, 2020-05-28 Widely used by practitioners researchers and students and now thoroughly revised with 70% new material this is the most authoritative comprehensive book on malingering and related response styles Leading experts translate state of the art research into clear usable strategies for detecting deception in a wide range of psychological and psychiatric assessment contexts including forensic settings The book examines dissimulation across multiple domains mental disorders cognitive impairments and medical complaints It describes and critically evaluates evidence based applications of multiscale inventories other psychological measures and specialized methods Applications are discussed for specific populations such as sex offenders children and adolescents and law enforcement personnel Key Words Subject Areas malingering deception deceptive feigning dissimulation feigned cognitive impairment feigned conditions defensiveness response styles response bias impression management false memories forensic psychological assessments forensic assessments clinical assessments forensic mental health forensic psychological evaluations forensic psychologists forensic psychiatrists psychological testing and assessment detection strategies expert testimony expert witnesses family law child custody disputes child protection child welfare Audience Forensic psychologists and psychiatrists other mental health practitioners involved in interviewing and assessment including clinical psychologists social workers psychiatrists and counselors Also of interest to legal professionals **Rare**

Conditions, Diagnostic Challenges, and Controversies in Clinical Neuropsychology Jessica Fish, Shai Betteridge, Barbara A. Wilson, 2023-06-23 This book highlights those rare difficult to diagnose or controversial cases in contemporary clinical neuropsychology The evidence base relevant to this type of work is almost by definition insufficient to guide practice but most clinicians will encounter such cases at some point in their careers By documenting the experiences and learning of clinicians who have worked with cases that are out of the ordinary the book addresses an important gap in the literature The book discusses 23 challenging and fascinating cases that fall outside what can be considered routine practice Divided into three sections the text begins by addressing rare and unusual conditions defined as either conditions with a low incidence or cases with an atypical presentation of a condition It goes on to examine circumstances where an accurate diagnosis and or coherent case formulation has been difficult to reach The final section addresses controversial conditions in neuropsychology including those where there is ongoing scientific debate disagreement between important stakeholders or an associated high stakes decision This text covers practice across lifespan and offers crucial information on specific conditions as well as implications for practice in rare disorders This book will be beneficial for clinical neuropsychologists and applied psychologists working with people with complex neurological conditions along with individuals from medical nursing allied health and social work backgrounds It will further be of appeal to educators researchers and students of these professions and disciplines Harwood-Nuss' Clinical Practice of Emergency Medicine

Allan B. Wolfson, Robert L. Cloutier, Gregory W. Hendey, Louis J. Ling, Jeffrey J. Schaidler, Carlo L. Rosen, 2014-10-27 Harwood Nuss Clinical Practice of Emergency Medicine presents a clinically focused and evidence based summary of emergency medicine Chapters are templated to include the clinical presentation differential diagnosis evaluation management and disposition with highlighted critical interventions and common pitfalls Management and disposition are especially critical in the emergency department and their emphasis is unique to Harwood Nuss Often a diagnosis can not be made given the constraints of an ED evaluation thus effective management of the patient with or without a confirmed diagnosis is key Also distinct to Harwood Nuss is the High Risk Chief Complaints section which covers the key presentations in the ED chest pain abdominal pain shortness of breath altered mental status When patients present in the ED they don't present with a known diagnosis this chapter walks the physician through possible differential diagnoses and the evaluation and management of these patients so that they can be stabilized and treated quickly and effectively *Emergency and Trauma Care for Nurses and Paramedics* Kate Curtis, Clair Ramsden, 2015-10-16 Highlighted skills cross references to the Clinical Skills chapter throughout text Over 30 new case studies Patient journey from pre hospital and emergency specific case studies Critical thinking questions at the end of chapters Chapter 35 Obstetric emergencies now includes Supporting a normal birth
