Instaread, 2017-06-16 **Leadership from the Mission Control Room to the Boardroom: A Guide to Unleashing Team Performance** Paul Sean Hill, 2017-06-20 Failure is always an option and so is choosing to lead your team into an environment that helps them avoid catastrophe and pull off miracles For more than fifty years NASA's Mission Control has done just that Take the ultimate insider's look at the leadership values and culture that made that track record possible Paul Hill paints a vivid picture candidly portraying the critical cultural connections in human spaceflight triumphs and failures By demonstrating how his Mission Control team learned to steward this culture into their management roles Paul provides a guide for any organization to boost their own performance by leveraging the core ideas and values that have delivered impossible wins for decades Whether failure means cost and schedule overruns quality escapes loss of market share bankruptcy or putting people's lives at risk how we lead can determine whether even small mistakes snowball out of control and destroy an enterprise Discover how to take Leadership from the Mission Control Room to the Boardroom and enable this leadership environment in your team What can your team learn from top tier leaders at NASA Mission Control Maybe more than you think In Leadership from the Mission Control Room to the Boardroom former NASA flight director Paul Hill tells the

true story of the game changing transformation of Mission Control's senior leadership team. Ride along on a journey of evolution as these executives rediscover the core purpose and values that had never left their organization. Hill's candor and intensity makes this a fascinating read for every leader. KEN BLANCHARD COAUTHOR OF THE NEW ONE MINUTE MANAGER AND LEADING AT A HIGHER LEVEL. There is no higher stakes environment than NASA's Mission Control. This incredible team's leadership journey and development of precise decision making in the face of unbelievable pressure are inspiring. Filled with fascinating insights into spaceflight and leadership alike, every leader will find parallels to their own organization. Paul's incredible book is a must have for anyone leading a high performance team and an invaluable addition to any business library. MARSHALL GOLDSMITH THE THINKERS 50 1 LEADERSHIP THINKER IN THE WORLD. This is an arresting work by a former NASA Flight Director with whom I was privileged to work during the Return to Flight of the Space Shuttle Program in 2005. Paul Hill takes the reader through NASA's legendary Mission Control in a way not found in any other work with which I am familiar. From its origins in aircraft flight test to the early days of the space program with Project Mercury and on to the iconic time of Apollo and from there to the Space Shuttle program, Paul Hill offers a view from the inside track to both laymen and space professionals. From there he takes you to the business world outside of NASA and shows how the principles and values of the Mission Operations Directorate apply in a far larger arena. No leader or manager can fail to benefit from the lessons captured here. MICHAEL D GRIFFIN NASA ADMINISTRATOR 2005-09 AND SCHAFER CORPORATION CEO. Paul Hill has written a stunning instructional manual for business executives and leaders who want to learn from the best team on the planet. The men and women of NASA's Mission Control. For the first time, a leader of the Mission Operations Directorate of NASA shares the hard won lessons of this world famous organization and translates them into key principles and examples designed to hone a superior leadership team grounded in integrity and bedrock organizational values. Steeped in the lessons of history, rich with achievement and heart rending loss, laser focused on application and results, and above all, a great narrative, this book like its author is one of a kind. MARY LYNNE DITTMAR EXECUTIVE DIRECTOR OF THE COALITION FOR DEEP SPACE EXPLORATION AND FORMER MEMBER HUMAN SPACEFLIGHT COMMITTEE NATIONAL ACADEMIES OF SCIENCES ENGINEERING AND MEDICINE. This engaging book tells the story of how NASA's renowned Mission Control evolved into an extraordinary team that directed many of the world's greatest technical triumphs. Equally important is Paul Hill's cautionary tale that sustaining excellence may be more difficult than attaining it. He shares how Mission Control learned the importance of articulating, modeling, and nurturing its core values of technical truth, integrity, and courage to maintain exceptional performance under adverse circumstances. Leaders from every organization will benefit from these vital lessons. WALTER E NATEMEYER CHAIRMAN AND CEO NORTH AMERICAN TRAINING AND DEVELOPMENT. *Planning for Success* Louis J. Pepe, 2020-10-01. *Planning for Success* demonstrates the power of applied listening through focus, meaning, and understanding context. The book centers on the need

for planning and formulation of strategies to enhance goal attainment and achieve lasting success in any organization Chapters focus on different facets of planning by providing context meaning and value for the reader that is applicable to organizations and leaders at every level The subject matter is not just advice for the reader but proven planning methods concepts and techniques designed to achieve positive outcomes and improve overall operations These practical insights are invaluable to any leader intent on achieving success and growth in their career *Virtual Reality in Higher Education* Darrel W. Staat,2021-08-11 Virtual Reality in Higher Education Instruction for the Digital Age brings to the foreground how Virtual Reality using headsets in educational and training programs is already beginning to be used in higher education The book is the result of research to determine where and how virtual reality is being used in higher education recruitment and athletics The book cites specific examples and methods used in teaching training and recruitment that would be of interest to faculty and administrators in community colleges and universities The book is written to help faculty to understand the potential of VR for education administrators to see possibilities for student recruitment and athletic directors and sports program coaches to determine the advantage of new avenues for successful training It is critical that faculty and administrators investigate the potential of VR for teaching learning recruitment and athletics This technology provides an immersive method that could create serious changes in how faculty teach students learn institutions recruit and athletic programs train
