The Story Grid What Good Editors Know:

The Story Grid Shawn Coyne, 2015-05-02 WHAT IS THE STORY GRID The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments It s like a CT Scan that takes a photo of the global story and tells the editor or writer what is working what is not and what must be done to make what works better and fix what s not The Story Grid breaks down the component parts of stories to identify the problems And finding the problems in a story is almost as difficult as the writing of the story itself maybe even more difficult The Story Grid is a tool with many applications 1 It will tell a writer if a Story works or doesn t work 2 It pinpoints story problems but does not emotionally abuse the writer revealing exactly where a Story not the person creating the Story the Story has failed 3 It will tell the writer the specific work necessary to fix that Story s problems 4 It is a tool to re envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer 5 It is a tool that can inspire an original creation *Writing a Second-Chance Love Story* Celeste Sharpe, Mai Nguyen, 2022-02-09 Jane Austen s final novel Persuasion opens in an unusual way with two hearts already broken Anne Elliot and Captain Frederick Wentworth have endured seven years of separation and longing after Anne was convinced by family and friends to refuse his proposal When they meet again the central question they face is one that resonates for readers in every time and place Can we earn a second chance at love In their Story Grid Masterwork Analysis Guide editors Mai Nguyen and Celeste Sharpe show precisely how Austen layered her complex love story with all the necessary obstacles secrets and sacrifices to get Anne and Frederick to their well deserved happy ending Nguyen and Sharpe analyze Austen s innovative story scene by scene to reveal the genius of Anne s heroic journey to recapture her voice and agency If you dream of crafting stories where characters must navigate their own do overs in love friendship or other meaningful relationships this writer s guide to Persuasion provides a map to help you find your way *All the Words* Kristen Tate, 2020-02-10 If you read one book about writing every week for a year what would you learn Thanks to the self publishing revolution and events like National Novel Writing Month the genre of writing craft books has exploded in recent years Book editor Kristen Tate set out to read and review one writing advice book each week for a year from classics like E M Forster s Aspects of the Novel and Anne Lamott s Bird by Bird to newer works like Jane Alison s Meander Spiral Explode and Jessica Brody s Save the Cat Writes a Novel What she discovered was a dizzying array of approaches to writing plotters who know even the smallest details about characters before they write a word pantsers who blithely dive right into a draft without a plan anti adverb crusaders and advocates for complex sentences and always that the best way to learn is to read the kinds of books you want to write All the Words is also a meditation on the challenges and pleasures of starting and sustaining a weekly practice of reading thinking and writing It s an optimistic encouraging book that will motivate you to keep reading and most importantly keep writing **The Threshing by Tim Grahl** Shawn Coyne, Tim Grahl, 2020-04-08 What if you could look inside a novel and see exactly how it works like a doctor analyzing an x ray or MRI scan In The Story Grid Contenders Analysis Guide to The

Threshing Tim Grahl and Shawn Coyne look deep into the heart of Grahl's dystopian action novel set in a grim future where people compete in a virtual world to survive in the real one. What essential actions lie beneath the moves the characters make? How does each scene propel the story forward? Coyne opens the Guide by analyzing the structure of the Action Story, the first and most primal fiction genre. Why have humans shared heroic tales that pivot on life or death choices ever since we began gathering around campfires? Why do Action stories persist at the top of bestseller lists? Because they speak to our desire to experience heart-stopping fear and excitement and learn hard lessons vicariously. Coyne's analysis provides the framework you need to satisfy those desires in readers. Then Grahl takes you into his process of crafting a story that works by dissecting the structure of each scene from inciting incident to crisis to resolution. You'll see the critical choices he made to deepen his characters' dilemmas and surprise readers again and again. There is simply no better way to learn the craft of storytelling than to study a novel scene by scene. This Story Grid Contenders Analysis Guide is a valuable tool for any writer or editor interested in the art and science of storytelling. By showing you the inner workings of this contemporary action story at the macro and micro levels, Coyne and Grahl give you the tools to analyze your own work, diagnose and solve problems, and level up your craft.

The Wonderful Wizard of Oz by L. Frank Baum. Shawn Coyne, 2020-12-09. Dorothy Gale's trip from Kansas to the Emerald City, in print, on screen, and on stage, has enchanted audiences around the world for more than a century. But what is her magical adventure really about? And can studying such classic tales help today's writers improve their craft? In *The Wonderful Wizard of Oz* by L. Frank Baum, A Story Grid Masterworks Analysis Guide, Shawn Coyne answers these questions and more. In *Oz*, Coyne finds a pitch-perfect illustration of the Heroic Journey 2.0, his revolutionary take on Joseph Campbell's monomyth. Coyne exposes the essential ingredients that define the book's life-or-death Action Story, coming-of-age Worldview Story, and transcendent Heroic Journey. Writers who take up the challenge and put the Heroic Journey 2.0 to work will craft stories that resonate across time and cultures and provide the emotional catharsis their readers crave. By the end of Baum's book, Dorothy has survived a worldview-shattering moment and committed to go on, creating new meaning in her life. Your journey as a storyteller begins with the same commitment to make meaning in the world, and this Guide will set you on the right path.

The Hobbit by J.R.R. Tolkien. Shawn Coyne, 2020-12-09. Bilbo Baggins, an altogether respectable hobbit, had never done anything unexpected to say nothing of heroic until he met a wizard in a blue pointed hat. After that meeting, Bilbo embarked upon an adventure recorded in the pages of *The Hobbit* by J.R.R. Tolkien, that captured the imagination of readers around the world. With unparalleled skill, Tolkien forged scenes of physical courage, revelatory self-transformation, and spiritual transcendence that do more than entertain; they help us make sense of the world. In this Story Grid Masterworks Analysis Guide, Shawn Coyne examines Bilbo's transformation and Tolkien's craft through a powerful new lens, the Heroic Journey 2.0, revealing how stories help us survive, thrive, and find meaning individually and as a species. Using this lens, writers will learn to create the emotional catharsis readers crave and tell stories that cross barriers of time and culture. Bilbo

s unexpected journey beautifully illustrates the human imperative to keep going to break and remake our worldviews in a search for truth But in the end readers and writers may agree with Coyne that There is no final truth only the creative act of meaning making in the here and now *How To Write a Novel* Joanna Penn,2022-08-13 Writing a novel will change your life It might not be in the way that you expect but when you hold your book in your hand and say I made this something will shift The process of getting to that point will light a spark in your creative soul and help you discover unexpected aspects of yourself It will be one of the things you are most proud of in your life This book will help you get there I m Joanna J F Penn award nominated New York Times and USA Today bestselling author of 18 novels and novellas with nearly a million books sold in over one hundred countries This book will help you write your first novel or improve your creative process so you can write more books and reach more readers It covers mindset ideas and research aspects of craft how to write a first draft and work through an editing process to a finished book You will discover Part 1 First Principles Why are you writing a novel What has stopped you from completing a novel before Principles to keep in mind as you create Part 2 Ideas Research Plotting and Discovery Writing How to find and capture ideas How to research your novel and when to stop Outlining or plotting Discovery writing or pantsing What are you writing Genre What are you writing Short story novella or novel What are you writing Stand alone series or serial Part 3 Aspects of a Novel Story structure Scenes and chapters Character Who is the story about Point of view Dialogue Plot What happens in the story Conflict Openings and endings Setting and World building Where does the story happen Author voice Theme Book or story title Language versus story and tools versus art Part 4 Writing the first draft Attitude to the first draft How to write the first draft Dictate your book Write fast cycle through or write slow Writer s block Writing tools and software When is the first draft finished Part 5 The Editing Process Overview of the editing process Self editing How to find and work with a professional editor Beta readers specialist readers and sensitivity readers Editing tools and software Lessons learned from editing my first novel after more than a decade When is the book finished Conclusion If you want to finally write your novel then buy *How to Write a Novel* today **Three Story Method** J.
