The Sun Starting With Space:

Cleopatra Incarnate and the great alien mother snake Katrina Morrow,2023-05-30 Cleopatra a Queen and the last Pharaoh of Egypt comes from space as the most prominent foreign galactic being ever to walk the face of the Earth As the Egyptians believed that in death all would recycle and renew into new life so Cleopatra is reborn again through a woman of the American Civil Rights Era and then she is born again through another young woman of the American aughts In this incarnate story Cleopatra is something other than human as she embarks on a journey on Earth in the name of truth justice and union of Earth and the rest of space She is poetic and speaks the language of outer space as she faces trials on Earth and asks her old notorious snake that took her life to guide her through Earth s authorities accusations against her As the ancient war between Rome and Egypt lead to her demise her alien spirit takes flight into the American Era where trials are wavering in two different human women that embody the very alien spirit of Cleopatra **A COSMIC BIRTH... STARTING BEFORE**

ZERO PSJ (Peet) Schutte,2013-07-12 I explain Genesis 1 v 1 the beginning or birth of the Universe in terms of the Bible using not theology but mathematics I prove Genesis 1 verse 1 to be correct by using mathematics The Bible says IN THE BEGINNING OF CREATION 1 when God made heaven and earth 2 the earth was without form and void 3 with darkness over the face of the abyss Yes this I do explain mathematically and I manage this because I prove and explain four cosmic keys that build the Universe namely The Titius Bode Law The Lagrangian Points The Roche limit and Coanda Effect Everything in nature in the Universe applies these phenomena in how space forms The Titius Bode Law The Lagrangian Points The Roche Coanda Effect forms the Universe in as much as forming stars in spheres and forming galactica in circles These principles form space and materials This is a process that produces space and that is how the Universe began before the Universe began in space I take the cosmic birth back to before space came about as the Big Bang **The Sun** Paulette

Bourgeois,1997 A discussion of the earth s life giving star the sun **Evolution Unraveled** Randall Harris,2015-09-23 Evolution is the cause of everything in the universe or so we are taught But is this based in scientific truth Could much of what we have learned at school and what the media and evolutionists suggest about the origins of life and the universe be contrary to the real scientific facts After 15 years of research and written in everyday language Evolution Unraveled is the only place on earth where Evolutionary Theory is explained from the very beginning of the universe to the present day where every major evolutionary step is dissected and compared with the facts that science already knows In this book you will discover that the science of evolution is not what you thought it was Does science confirm the big bang Why can t scientists create life from inanimate matter What did Charles Darwin really say about evolution What does the fossil record say about the origins of humankind Why is Evolutionary Theory still a theory and not a fact Can any creature change itself into something else and has this ever actually happened This comprehensive analysis of evolutionary theory presents the scientific facts that are not generally known to the public It is a journey of wonder reflection and revelation that will

challenge many of the fundamental beliefs on which our lives are based With over 500 pages of astounding scientific facts you will discover that science really does have all the answers and now you can too ebook and webinar series at www.evolutionunraveled.com

UNCOVERING CORRUPT SCIENCE PSJ (Peet) Schutte,2013-07-17 Modern science or what I call Newtonian science is altogether wrong Nothing can stand still in the Universe and remain a part of the Universe The Universe is the movement thereof Everything in the Universe has to move should it wish to be and everything in the Universe moves and in circles but everything moves There is no mass but only movement and movement is gravity and gravity is time forming space But how does this system work and how does this system form an entire Universe as big as the one we have Read this and see how the Universe is truly stitched together by nature and not by Newton s fantasy It works exactly as Kepler said it does in the tables Kepler left us to study Space by three forms a circle by two that moves straight by one and that forms the six sided Universe we enjoy as a reality *An Indian Ephemeris A.D. 700 to A.D. 1999: no. 2.
