The Tears Of Re Beekeeping In Ancient Egypt:

The Tears of Re Gene Kritsky, 2015 Entomologist Gene Kritsky presents the first full length discussion of the ways in which bees were a part of life in ancient Egypt From the presence of bees in paintings and hieroglyphs in tombs to the use of beeswax in a variety of products bees had a significant presence in ancient Egyptian culture *The Sacred Bee* Hilda M Ransome, 2018-04-18 Ransome's *The Sacred Bee* is classic that has stood the test of time It is a must read for anyone interested in the history of beekeeping and beekeeping lore Gene Kritsky PhD author of *The Tears of Re Beekeeping in Ancient Egypt*

The Culture of Animals in Antiquity Sian Lewis, Lloyd Llewellyn-Jones, 2018-01-09 *The Culture of Animals in Antiquity* provides students and researchers with well chosen and clearly presented ancient sources in translation some well known others undoubtedly unfamiliar but all central to a key area of study in ancient history the part played by animals in the cultures of the ancient Mediterranean It brings new ideas to bear on the wealth of evidence literary historical and archaeological which we possess for the experiences and roles of animals in the ancient world Offering a broad picture of ancient cultures in the Mediterranean as part of a wider ecosystem the volume is on an ambitious scale It covers a broad span of time from the sacred animals of dynastic Egypt to the imagery of the lamb in early Christianity and of region from the fallow deer introduced and bred in Roman Britain to the Asiatic lioness and her cubs brought as a gift by the Elamites to the Great King of Persia This sourcebook is essential for anyone wishing to understand the role of animals in the ancient world and support learning for one of the fastest growing disciplines in Classics *Re-Indigenizing Ecological Consciousness and the Interconnectedness to Indigenous Identities* Michelle Montgomery, 2022-10-25 The authors of *Re-Indigenizing Ecological Consciousness and the Interconnectedness to Indigenous Identities* share the diversity and complexities of the Indigenous context of worldviews examining relationships between humans and other living beings within an eco conscious lens Michelle Montgomery's edited volume shows that we belong not only to a human community but to a community of all nature as well The contributors demonstrate that the reciprocity of Indigenous knowledges is inclusive and represents worldviews for regenerative solutions and the need to realign our view of the environment as a whole rather than an it This reciprocity is intertwined as an obligation of environmental ethics to acknowledge the attributes of Indigenous knowledges as not merely a body of knowledge but as multiple layers or levels of place based knowledges identities and lived experiences

The ^ASilken Thread Robert N. Wiedenmann, J. Ray Fisher, 2021-08-27 Insects are seldom mentioned when we discuss human history yet they significantly shaped today's societies In this book entomologists Robert N Wiedenmann and J Ray Fisher take readers through the unique stories of five insects that have shaped history silk moths rat fleas lice fever mosquitos and honey bees *Sacred Flames* Meghan E. Strong, 2021-04-27 A fascinating examination of the role of lighting in ancient Egyptian culture Artificial lighting is one of the earliest tools used by humans By the time we began to paint cave walls we were producing lamps consisting of an illuminant a fat or oil and a wick such as a strip of fabric or a piece of reed or wood

Drawing on archaeological textual and iconographic sources Meghan Strong examines the symbolic part that artificial lighting played in religious economic and social spheres in ancient Egyptian culture From the earliest identifiable examples of lighting devices to the infiltration of Hellenistic lamps in the seventh century BC *Sacred Flames* explores the sensory experience of illumination in ancient Egypt the shadows sheen color and movement that resulted when lighting interacted with different spaces and surfaces The soft flickering light from lamps or hand held lighting devices not only facilitated the navigation of darkened environments such as allowing workers to see in underground chambers in the Valley of the Kings or served as temple offerings but also impacted upon the viewer's perception of a space and the objects within it *Sacred Flames* illustrates the active role that lighting played in Egyptian society providing a richer understanding of the symbolic and social value of artificial light and the role of lighting in ritual space and performance in ancient Egyptian culture while serving as a case study of the broader impact of artificial light in the ancient world *The Insect Epiphany* Barrett Klein,2024-10-15

From entomologist Barrett Klein comes a buzz worthy exploration of the many ways insects have affected human society history and culture Insects surround us They fuel life on Earth through their roles as pollinators predators and prey but rarely do we consider the outsize influence they have had on our culture and civilization Their anatomy and habits inform how we live work create art and innovate Featuring nearly 250 color images from ancient etchings to avant garde art from bug based meals to haute couture *The Insect Epiphany* proves that our world would look very different without insects not just because they are crucial to our ecosystems but because they have shaped and inspired so many aspects of what makes us human *Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures* Helaine Selin,2008-03-12
