The Soul Our Innermost Eternal Sparkling Diamond Part 2:

The Soul James Essig,2017-03-31 I thought that you as reader would enjoy this writing on the great dignity of the human soul This book offers a sharp contrast to the main topics on which I tend to post and was written and compiled from my heart I have often posted articles on extremely manned starship technologies and as a physicist I will continue to do such However I offer this rather long article as a sharing of my personal belief in the transcendent dignity of every human person and by corollary that of any of our ETI brothers and sisters With modern technological capabilities to monitor the various emotional and mental states of test subjects and the ability to measure and experimentally probe the electric and magnetic fields generated within the human body we sometimes are tempted to view the human soul as some form of corruptible energy field We long for a rekindling of a sense of mystery regarding the ephemeral reality of the human soul This book is motivated as an attempt to restore a sense of mystery in the minds and hearts of any and all persons who will read this post regarding that aspect of our human nature that seems to be beyond validation by modern science technology and medicine and which seems to defy certain and precise explanation by philosophers theologians and clergyman alike *The Soul: Our Innermost Eternal Sparkling Diamond. Part 2* James M. Essig,2014-07-05 This book is a serious attempt to advance the philosophy of the Human Soul I as author make no claim that the scope of the content represents Catholic Teaching and Dogmatic Truths even though I consider myself a conservative Catholic In this lengthy series many new ideas and concepts on the subject of the human soul are presented Heavy use of set theory and counting algorithms is made in an attempt to probe speculative infinite quantities and qualities of the human soul However many of the 251 chapters in this multi part series are devoid of any mathematical formulations so that those unfamiliar with advanced math can appreciate the subject chapters **The Soul** James Essig,2014-12-26 The Human Soul is a topic that continues to vex both theologians and medical professionals and researchers alike According to Scholastic approaches the Soul as the substantial form of the body substantial meaning a first created principle of being that is intrinsically independent of the body for its existence and for some of its more advanced operations Now once again given the Scholastic interpretation of the nature of the Human Soul that is the Human Soul is 1 Spiritual 2 Naturally immortal 3 Incorruptible per addends and per se 4 Simple 5 Unextended 6 Without shape or size 7 Non material 8 Non corporeal 9 Rational 10 Free 11 A first created principle 12 An essence or a being which exist per se 13 Independent of the body for its existence and to some extent its operations in this life 14 The substantial form of the body in the Ancient Greek philosophical sense of the word 15 Directly created by God 16 Immediately created by God and if I am not mistaken 17 Multiple meaning that it is completely and totally present and united to every portion of the Human body that is alive we have much grounding through the use of natural reasoning that the Human Soul is naturally immortal and naturally indestructible In all we have at least the above 17 transcendent dignities of the Human Soul if Saint Thomas Aquinas is to be believed But how might we ask is the Soul the substantial form of the body One way to answer this question is to consider

some traditional Church mindset that the Soul is completely and fully present even united to every portion of the human body that is alive This means that every aspect of the Human Soul from its substantiality semi substantiality and accidentality is fully present in every differential portion of the human body that is alive In a sense this union ironically existentially multiplies the Soul The great irony in all of this is that the Human Soul being spiritual and immortal is existentially amplified by being first created in uniform to the body it is united to retains this existential amplification after bodily death and its separation from the body at death This is a rational assertion because each modification of the Soul in substance semi substance or faculty wise and in accidentality is retained as stored information embodied in the existence of the Human Souls of the deceased I d like to propose that at the very least each Human Soul is thus amplified existentially in the following locations within each living portion of the Human Body including individual the atoms molecules fermions gluons points of concentrated presence or existential light of the multiply present human soul I hope you will enjoy this volume and the many additional volumes in this series that will be forthcoming I hope you will enjoy my musings on the nature of the Human Soul in the months years and decades ahead Up to now all I have written about the Human Soul is perhaps empty straw The Etude ,1900 **The Etude.
