Principles of Catholic Theology Thomas Joseph White, 2023

Three Theological Mistakes Ric Machuga, 2015-01-05 Is the existence of God a matter of faith or knowledge Does God sometimes act miraculously or are there physical causes for everything Is morality absolute or relative Are humans truly free or does God's sovereignty determine everything When bad things happen is God the cause or are they the fault of humans Too frequently Christians answer these questions with a Yes

to one side and a No to the other side Thomas Aquinas and Karl Barth answer Yes to both Following their model Machuga defends a third way which transcends the Enlightenment dichotomies of fideism vs rationalism supernaturalism vs naturalism relativism vs absolutism free will vs predestination and God's justice vs his mercy Machuga begins by showing how these false dichotomies grew out of the Enlightenment assumptions of mechanism universal quantification and mono causation He then corrects these demonstrably dubious assumptions by articulating a theory of dual causation The result is a thoroughly biblical understanding of God miracles and free will that can withstand the contemporary criticisms of both science and philosophy

Science and Christian Ethics Paul Scherz, 2019-05-09 The scientific reproducibility crisis is a crisis of character Stoic and Christian spiritual exercises build virtues that address these problems

Scripture and Metaphysics Matthew Levering, 2008-04-15 This book makes a major contribution to contemporary theological and philosophical debates bridging scriptural and metaphysical approaches to the triune God Bridges the gap between scriptural and metaphysical approaches to biblical narratives Retrieves Aquinas's understanding of theology as contemplative wisdom Structured around Aquinas's treatise on the triune God in his Summa Theologiae Argues that intellectual contemplation is part of a broader spiritual journey towards a better understanding of God Contributes to the current resurgence of Thomistic theology in both Protestant and Catholic circles

Renewing Our Hope Robert Barron, 2020-08-12 In a time of discouragement how can the Church renew itself and its outreach to all people Bishop Robert Barron Auxiliary Bishop of the Archdiocese of Los Angeles insists that a dumbed down Catholicism cannot succeed in today's highly educated society instead the Church needs to draw upon its great theological heritage in order to renew its hope in Christ With *Renewing Our Hope* Essays for the New Evangelization Bishop Barron traces this renewal through four stages *Renewing Our Mission* lays out the challenges that call for Catholics to become more aware of their own intellectual resources in encountering the Nones *Renewing Our Minds* showcases the importance of theological reflection as a font of wisdom and sanity in the Church touching on Thomas Aquinas Hans Urs von Balthasar the recently canonized John Henry Newman and Pope Francis In *Renewing the Church* he proceeds to look at how Scripture the family the seminary and Catholic college graduates can each contribute to this renewal Finally in *Renewing Our Culture* he returns to the judgments Catholics must make in assessing contemporary culture specifically family life liberalism relativism and surprisingly the beauty of cinema Bishop Barron known as the host of the Catholicism PBS video series was previously rector and professor of systematic theology at Mundelein Seminary outside Chicago Illinois He demonstrates again in *Renewing Our Hope* his ability to make the fruits of his wide reading accessible to a broad audience while still giving his academic colleagues much to consider

Routledge Companion to Christian Ethics D. Stephen Long, Rebekah L. Miles, 2023-01-01 The Routledge Companion to Christian Ethics brings together two different but related disciplines the first is contemplative or theoretical asking what are the beliefs or doctrines that characterize Christianity whilst the second is practical asking what are the ethical practices that attend its teachings The movement between the theoretical and practical aspects is not however one way as doctrine and life are mutually informing In this comprehensive volume leading scholars address key topics problems and debates in this hotly debated topic within a truly global context Comprising over 35 chapters by a team of international contributors the handbook is divided into three parts based on the three persons of the Trinity God the Father God the Son and God the Holy Spirit Within these sections cutting edge issues are examined including God and genetics War peace and violence White supremacy Creation and sexuality Digital ethics Transgender studies Climate change Immigration and refugees Adopting a practical approach that must consider new concerns that have arisen with recent social political and cultural shifts The Routledge Companion to Christian Ethics is essential reading for students and researchers in Christian ethics religious ethics and Christianity studies The handbook will also be very useful for those in related fields such as ethics and philosophy **Pope**

Benedict XVI Vincent Twomey, 2009-09-03 Fr D Vincent Twomey a former doctoral student of Joseph Ratzinger and long time friend of the Pope felt the need to respond to the common question he heard often after the papal election What kind of person is the new Pope So often Twomey had read false depictions of both the man and his thought especially the image presented by the media as a grim enforcer Twomey offers here a unique double presentation of the man Pope Benedict XVI a theological portrait that encompasses both an overview of the writings teachings and thought of the brilliant theologian and spiritual writer as well as the man himself and his personality traits and how he communicates with others Twomey shows that the secret to the serene dignified behavior of Benedict is that he is open to beauty as much as truth that he lives outside himself and is not preoccupied with his own self He also is a man that Twomey says has the courage to be imperfect showing

he has a deep humility and strives for teaching the truth even when misunderstood or not presented as well as he would like Fr D Vincent Twomey S V D holds a PH D in Theology and is a Professor of Moral Theology at the Pontifical University at St Patrick s College in Ireland He is the author of several books including his most recent acclaimed study on the state of Irish Catholicism *The End Of Irish Catholicism* **A Textbook of Christian Ethics** Robin Gill,2006-01-01 A new updated third edition of the most successful and widely used textbook on Christian ethics **Historical and Multidisciplinary Perspectives on Hope** Steven C. van den Heuvel,2020-07-20 This open access volume makes an important contribution to the ongoing research on hope theory by combining insights from both its long history and its increasing multi disciplinarity In the first part it recognizes the importance of the centuries old reflection on hope by offering historical perspectives and tracing it back to ancient Greek philosophy At the same time it provides novel perspectives on often overlooked historical theories and developments and challenges established views The second part of the volume documents the state of the art of current research in hope across eight disciplines which are philosophy theology psychology economy sociology health studies ecology and development studies Taken together this volume provides an integrated view on hope as a multi faced phenomenon It contributes to the further understanding of hope as an essential human capacity with the possibility of transforming our human societies **The New Cambridge Companion to Christian Doctrine** Michael Allen,2022-11-17 This Companion guides the reader through the main topics and the most significant methods for practicing Christian theology The essays in this first part engage the ten most notable loci in Christian doctrine The ten essays in the second part address the most significant movements that have broad impact upon the practice of Christian doctrine *Informed Consent to Abortion* Caterina Milo,2025 In *Informed Consent to Abortion* Caterina Milo argues that this politically polarised debate has neglected the crucial component of the decision making process Informed Consent IC She provides a legal and ethical framework of abortion law and professional guidelines by critically analysing the implications of the 2015 UK Supreme Court judgment in *Montgomery v Lanarkshire Health Board* on informed consent Milo grounds the theoretical debate in the realities of how the law presently responds and how it should respond to key ethical values informing contemporary medicine and health both nationally and internationally *Reading John with St. Thomas Aquinas* Michael Dauphinais,Matthew Levering,2005 Written by leading experts on Aquinas s theology the essays in *Reading John with St Thomas Aquinas* bear common witness to a central theological conviction the tasks of biblical exegesis and speculative theology though distinct indwell and inform each other As the first book length study of the full breadth of Aquinas s *Commentary on the Gospel of John* this work illuminates the way in which thinking systematically or speculatively about revelation flows from questions raised within biblical exegesis itself Like any medieval biblical commentator Aquinas attempts to understand a biblical text not only in itself but also by appealing to parallel interpretive texts drawn from throughout the Bible as well as the accumulated insights of the Church Fathers This method enables him to penetrate deeply

into the thought of the Bible recognizing that the biblical authors speaking from within the context of Israel and the Church raise questions that are theological and that belong to coherent speculative theological frameworks The result is in large part a speculative theological commentary that is not imposed on the biblical texts but emerges from it necessary conjunction of the inspired words of Scripture exegetical commentary and theological analysis The volume is both a study of Aquinas s thought and an attempt to foster contemporary exegetical approaches that emphasize the need to interpret Scripture speculatively through the historical lens of tradition

Theological Negotiations Douglas Farrow, 2018-11-06 One of today s leading theologians tackles some of the most significant themes in contemporary theology Douglas Farrow explores key theological loci such as nature and grace and justification and sanctification introduces theological giants such as Anselm Aquinas Luther and Barth and examines contemporary questions about sacraments and unity Throughout his explorations Farrow invites readers to consider how to negotiate controversy in Christian theology especially between Catholics and Protestants arguing that theology does its best work at the intersection of topics in dispute

Historical Dictionary of Catholicism William J. Collinge, 2021-08-15 This work covers the whole history of Catholicism including the periods of Christian history prior to the present divisions into Catholic Orthodox and Protestant but within the earlier periods it focuses on the story line that leads to Catholicism in the Roman Rite and particularly to Roman Catholicism in the United States The *Historical Dictionary of Catholicism* Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important persons and places as well as themes such as baptism contraception labor church architecture the sexual abuse crisis Catholic history doctrine and theology spirituality and worship moral and social teaching and church structure This book is an excellent resource for students researchers and anyone wanting to know more about Catholicism
