Goldsmith,1991 Goldsmith challenges the view that nature is absent in the modern urban novel and interprets the phrase the interweaving of physical description and symbolism metaphor and characterization and theme and imagery that give internal form to external narrative He provides a textual analysis of seven 20th century American novels Manhattan transfer Studs Lonigan Call it sleep The Dollmaker The Assistant The Pawnbroker and Mr Sammler s planet Annotation copyrighted by Book News Inc Portland OR Urban Rehearsals and Novel Plots in the Early American City Elizabeth Klimasmith,2021 Explores how early American Republic literary texts about urban life played an important role in constructing urban spaces and identities in the young United States and how books allowed readers to access and practice being urban Urban Rehearsals and Novel Plots in the Early American City Betsy Klimasmith,2021-11-04 Urban Rehearsals and Novel Plots in the Early American City sheds new light on the literature of the early US by exploring how literature theatre architecture and images worked together to allow readers to imagine themselves as urbanites even before cities developed In the four decades following the Revolutionary War the new nation was a loose network of nascent cities connected by print Before a national culture could develop local city cultures took shape literary texts played key roles in helping new Americans become city people Drawing on extensive archival research Urban Rehearsals argues that literature particularly novels and plays allowed Bostonians to navigate the transition from colonial town to post revolution city enabled Philadelphians to grieve their experiences of the 1793 Yellow Fever epidemic and rebuild in the epidemic s aftermath and showed New Yorkers how the domestic practices that reinforced their urbanity could be opened to the broader public Throughout attention to

underrepresented voices and texts calls attention to the possibilities for women immigrants and Black Americans in developing urban spaces while showing how those possibilities would be foreclosed as the nation developed. Balancing attention to canonical texts of the early Republic including *The Power of Sympathy* by Charlotte Temple and Benjamin Franklin's *Autobiography* with novels whose depiction of early cities deserves greater attention such as *Ormond* by The Boarding School Monima and *Kelroy* this volume shows how US cities developed on the pages and stages of the early Republic building urban imaginations that would construct the nation's early cities.

This set provides a snapshot of the current state of popular American literature including various types and genres. The volume presents alphabetically arranged entries on more than 70 diverse literary categories such as cyberpunk, fantasy, literature, flash fiction, GLBTQ literature, graphic novels, manga, and anime and zines. Each entry is written by an expert contributor and provides a definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's reception, a discussion of authors and works, and suggestions for further reading. Emotional Cities Joseph Ben Prestel, 2017-09-07 Emotional Cities offers an innovative account of the history of cities in the second half of the nineteenth century. Analyzing debates about emotions and urban change, it questions the assumed dissimilarity of the history of European and Middle Eastern cities during this period. The author shows that between 1860 and 1910 contemporaries in both Berlin and Cairo began to negotiate the transformation of the urban realm in terms of emotions. Looking at the ways in which a variety of urban dwellers from psychologists to bar maids framed recent changes in terms of their effect on love, honor or disgust, the book reveals striking parallels between the histories of the two cities. By combining urban history and the history of emotions, Prestel proposes a new perspective on the emergence of different yet comparable cities at the end of the nineteenth century. Street Art and Activism in the Greater Caribbean Jana Evans

Brazier, 2022-09-06 Foregrounding street art in the capital cities of Cuba, Haiti and Puerto Rico, this book argues that Antillean street artists diagnose the impossible state of the arrested present: colonized, occupied or under dictatorship, while simultaneously imagining liberated futures and fully sovereign states. Jana Evans Brazier launches a comparative study of art, politics, history, urban street cultures, engaged citizenships and social transformations in three Antillean capital cities: Havana, Cuba; Port-au-Prince, Haiti; and San Juan, Puerto Rico of the Greater Caribbean. The book includes a photo documentary archive of street art murals and installations by key muralists in these cities: Yulier Rodríguez Pérez, Jerry Rosemberg, Moisés and Colectivo Moriviv Chachi González Colón, Raysa Rodríguez García and Salom Cortés. Brazier offers art historical and geopolitical analyses of the urban street art in their cities of production, underscoring street art as political, economic and environmental engagements and not as exclusively aesthetic ones with urban space and street life. The book will be of interest to scholars working in art history, Caribbean studies, Latin American studies and urban studies.

Literatures of Urban Possibility Markku Salmela, Lieven Ameal, Jason Finch, 2021-05-21 This book demonstrates how city literature addresses questions of possibility. In city literature, ideas of possibility emerge primarily through two perspectives: texts may focus on what is possible for cities and they may present the urban environment as a site of possibility for individuals or communities. The volume combines reflections on urban possibility from a range of geographical and cultural contexts in addition to the English-speaking world. Individual chapters analyse possible cities and possible urban lives in Turkey, Israel, Finland, Germany, Russia and Sweden. Moreover, by engaging with issues such as city planning, mass housing, gentrification

informal settlements and translocal identities the book shows imaginative literature at work outlining what possibility means in cities
