The Struggle For Pluralism After The North African Revolutions:

The Struggle for Pluralism After the North African Revolutions Anthony Dworkin, 2013 The political transitions in North Africa appear to be faltering with the early stages of democracy showing the dangers of political competition as much as its benefits Two years after the revolutions the most pressing question is whether majority domination and social division are pushing out the prospect of genuine inclusive democracies in Egypt Tunisia and Libya In The struggle for pluralism after the North African Revolutions Anthony Dworkin argues that this is a crucial period for the development of competitive democracy in all three countries and the EU can play a leading role in supporting it A key message of the last two years is that stability in the transition countries will only be possible on the basis of pluralism and genuine reform In Egypt the Muslim Brotherhood s attempt to consolidate its power and the opposition s rejection of established institutions have provoked a political crisis and led to widespread unrest and violence The EU should respond by identifying a political compromise that consolidates competitive elections and neutral reform of public institutions Tunisia has avoided the extremes of confrontation and unrest experienced in Egypt but recently has faced an increase in tensions and polarisation Despite its strong secular traditions Tunisia also has a more violent Salafist movement that is willing to use direct action rather than the ballot box Europe should use its influence to press all sides to renounce political violence and work toward consensus and buttress this with urgent support for Tunisia s economy In Libya the legacy of Colonel Gaddafi continues to block the consolidation of democracy and the principle of democratic equality has yet to be secured Religion is less of an issue than in Egypt and Tunisia but revolutionary legitimacy skews political competition and fuels resistance to the government s monopoly of armed force Europe can help by building government capacity training parliamentarians and forming a credible security and justice system Differences over religion and revolutionary goals have exacerbated distrust in Egypt Libya and Tunisia There s a danger that a vicious cycle of polarisation and disorder could destroy hopes of true democracy But the years since the revolution have shown clearly that the only path to peaceful development in these countries is through inclusive democracy and a state that treats all social groups in a fair way Anthony Dworkin Publisher s description

After the Uprisings Anthony Dworkin, William Lawrence, Stefan Wolff, 2013-07-23 Against the backdrop of the recent military coup in Egypt and the ongoing civil war in Syria the initial euphoria of the Arab Spring has long since faded But the political transitions in Tunisia Libya and Yemen though fragile continue to offer hope for stable outcomes Anthony Dworkin explains why Tunisia s transition has kept from derailing so far William Lawrence argues that our failure to recognize Libya s specificities has kept us from understanding its post revolutionary trajectory And Stefan Wolff examines what s at stake in Yemen s ongoing National Dialogue Conference

Democracy Promotion and the Challenges of Illiberal Regional Powers Nelli Babayan, Thomas Risse, 2017-10-02 This book examines Western efforts at democracy promotion reactions by illiberal challengers and regional powers and political and societal conditions in target states It is

argued that Western powers are not unequivocally committed to the promotion of democracy and human rights while non democratic regional powers cannot simply be described as autocracy supporters This volume examines in detail the challenges by three illiberal regional powers China Russia and Saudi Arabia to Western US and EU efforts at democracy promotion The contributions specifically analyze their actions in Ethiopia and Angola in the case of China Georgia and Ukraine in the case of Russia and Tunisia in the case of Saudi Arabia Democratic powers such as the US or the EU usually prefer stability over human rights and democracy If democratic movements threaten stability in a region neither the US nor the EU supports them As to illiberal powers they are generally not that different from their democratic counterparts They also prefer stability over turmoil Neither Russia nor China nor Saudi Arabia explicitly promote autocracy Instead they seek to suppress democratic movements in their periphery the minute these groups threaten their security interests or are perceived to endanger their regime survival This was previously published as a special issue of Democratization

Contested Legitimacies Jannis Julien Grimm, 2025-10-01 Since the overthrow of President Mursi in mid 2013 Egypt has witnessed an authoritarian rollback and shrinking spaces for civil society Nationalist discourses have villified popular protest and channelled pressure for reform into a state centric model of governance Despite this hostile environment for social mobilization protest has persisted Contested Legitimacies explores this resilience of contentious politics through a multimethod approach that is attuned to the physical and discursive interactions among key players in Egypt's protest arena Drawing from a unique archive of sources it investigates the rise and fall of different coalitions of contenders from the Tamarod uprising against Mursi to the Anti Coup resistance against the military coup to the challenges posed by the Tiran and Sanafir island campaign to Al Sisi's regime It highlights the decisive impact of battles fought in a discursive arena on the conditions of possibility for street politics In postrevolutionary Egypt a contest over the meaning of political legitimacy cemented political polarization limited social movements coalition choices and ultimately paved the way for a restoration of autocracy
