African American Families Angela J. Hattery, Earl Smith, 2007-04-19 Bravo to the authors They have done an excellent job addressing the issues that are critical to community members policy makers and interventionists concerned with Black families in the context of our nation Michael C Lambert University of Missouri Colombia African American Families is a timely work The strength of this text lies in the depth of coverage clarity and the ability to combine secondary sources statistics and qualitative data to reveal the plight of African Americans in society Edward Opoku Dapaah Winston Salem State University African American Families is both engaging and challenging and is perhaps one of the most important works I have read in many years This book will most certainly move the discourse of the socio economic conditions of black families forward beyond the boundaries already set by other books in the market African American Families is an excellent book whose time has come and one that I would most definitely adopt Lateef O Badru University of Louisville African American Families provides a systematic sociological study of contemporary life for families of African descent living in the United States Analyzing both quantitative and qualitative data authors Angela J Hattery and Earl Smith identify the structural barriers that African Americans face in their attempts to raise their children and create loving healthy and raise the children of the next generation **Key Features** Uses the lens provided by the race class and gender paradigm Examples illustrate the

ways in which multiple systems of oppression interact with patterns of self defeating behavior to create barriers that deny many African Americans access to the American dream Addresses issues not fully or adequately addressed in previous books on Black families These issues include personal responsibility and disproportionately high rates of incarceration family violence and chronic illnesses like HIV AIDS Brings statistical data to life The authors weave personal stories based on interviews they ve conducted into the usual data from scholarly literature and from U S Census Bureau reports Provides several illustrations from Hurricane Katrina A contemporary analysis of a recent disaster demonstrates many of the issues presented in the book such as housing segregation and predatory lending practices Offers extensive data tables in the appendices Assembled in easy to read tables students are given access to the latest national agencies data from agencies including the U S Census Bureau Centers for Disease Control and Bureau of Justice Statistics Intended Audience This is an ideal textbook for advanced undergraduate and graduate courses such as African American Families Sociology of the Family Contemporary Families and Race and Ethnicity in the departments of Human Development and Family Studies Sociology African American Studies and Black Studies

Arab Women in Arab News Amal Al-Malki, David Kaufer, Suguru Ishizaki, Kira Dreher, 2012-03-15 This book addresses east west understandings of Arab women as portrayed through translated media The vast majority of media studies on Arab women are western based They study the effect of western stereotypes in western media depictions of Arab women There is a vast scholarly literature tracing western stereotypes of Arab women from medieval times to the present From 1800 the dominant western stereotype of Arab women depicts them as passive and oppressed Thirty years of social science media research in the west has shown that media images of Arab women reinforce this two hundred year old stereotype Much of this research has studied silent image bites of Arab women where women are pictured in veils and their own voices are replaced by western captions or voice overs This book sets out to answer this question To answer it we contracted with a global news translation service from the Middle East to collect and translate a sample of 22 months of new summaries from 103 Arab media sources belonging to 22 Arab countries Filtering the summaries that contained one or more female keywords e g woman mother aunt sister she yielded 2 061 summaries between September 2005 and June of 2007 Using the 2 061 summaries as input data a coding scheme was developed for active and passive female behaviors based on verb phrase analysis and conventions of English language news reporting
