Wallis Budge Magic And Mummies In London And:

Wallis Budge Matthew Djun Ismail,2011 Sir E A Wallis Budge 1857 1934 is today mostly known as the author of such books as *The Egyptian Book of the Dead* 1895 *The Gods of Egypt* 1904 and *An Egyptian Hieroglyphic Dictionary* 1920 Born an impoverished and illegitimate child in rural Cornwall Budge bit and clawed his way through the barriers of Victorian and Edwardian class prejudice to a knighthood in 1920 As Keeper of Egyptian and Assyrian Antiquities in the British Museum from 1894 to 1924 Budge s career was entwined with the great issues of his day the rise of the European Empires in the Middle East and the decline of the Ottoman Empire the French and British struggle to control Egypt and its antiquities the conflicts between Ottoman and European antiquarian interests in the Ottoman province of Iraq and the British invasion and colonization of the Sudan Budge was both a proponent of a liberalized Christianity and a believer in the reality of the occult world and his books were viewed by many as a primary source for alternative religious inspiration More than an account of the professional conflicts and the controversial smuggling of antiquities for which Budge is now remembered in academic circles this is an intriguing story of antiquities and empire and of how one man s life was saturated with both *Rider Haggard and the Imperial Occult* Simon Magus,2021-12-06 In *Rider Haggard and the Imperial Occult* Simon Magus offers the first academic monograph on the world of occult thought which lies behind and beneath the fictional writing of H Rider Haggard It engages with a broad scope of religious philosophical and anthropological ideas Many of these were involved in debates within the controversies of the Anglican Church which occurred in the face of Darwinism and the criticism of the Bible The book follows three main intellectual currents involved in the promulgation of these ideas namely the reception of ancient Egypt the resurgence of Romanticism and the ideas of the Theosophical Society all couched within the context of Empire The Greco-Egyptian Magical Formularies Christopher Faraone,Sofia Torallas Tovar,2022-11-14 Essays on the magical handbooks of Greco Roman Egypt **Ancient Egypt in the Modern Imagination** Eleanor Dobson,Nichola Tonks,2020-01-23 Ancient Egypt has always been a source of fascination to writers artists and architects in the West This book is the first study to address representations of Ancient Egypt in the modern imagination breaking down conventional disciplinary boundaries between fields such as History Classics Art History Fashion Film Archaeology Egyptology and Literature to further a nuanced understanding of ancient Egypt in cultures stretching from the eighteenth century to the present day emphasising how some of the various meanings of ancient Egypt to modern people have traversed time and media Divided into three themes the chapters scrutinise different aspects of the use of ancient Egypt in a variety of media looking in particular at the ways in which Egyptology as a discipline has influenced representations of Egypt ancient Egypt s associations with death and mysticism as well as connections between ancient Egypt and gendered power The diversity of this study aims to emphasise both the multiplicity and the patterning of popular responses to ancient Egypt as well as the longevity of this phenomenon and its relevance today **Victorian Alchemy** Eleanor Dobson,2022-10-06 *Victorian Alchemy*

explores nineteenth century conceptions of ancient Egypt as this extant civilisation was being rediscovered in the modern world With its material remnants somewhat paradoxically symbolic of both antiquity and modernity in the very currentness of Egyptological excavations ancient Egypt was at once evocative of ancient magical power and of cutting edge science a tension that might be productively conceived of as alchemical Allusions to ancient Egypt simultaneously lent an air of legitimacy to depictions of the supernatural while projecting a sense of enchantment onto representations of cutting edge science Examining literature and other cultural forms including art photography and early film Eleanor Dobson traces the myriad ways in which magic and science were perceived as entwined and ancient Egypt evoked in parallel with various fields of study from imaging technologies and astronomy to investigations into the electromagnetic spectrum and the human mind itself In so doing counter to linear narratives of nineteenth century progress and demonstrating how ancient Egypt was more than a mere setting for Orientalist fantasies or nightmares the book establishes how conceptions of modernity were inextricably bound up in the contemporary reception of the ancient world and suggests how such ideas that took root and flourished in the Victorian era persist to this day

Mummified Angela Stienne, 2022-06-07 *Mummified* explores the curious unsettling and controversial cases of mummies held in French and British museums From powdered mummies eaten as medicine to mummies unrolled in public dissected for race studies and DNA tested in modern laboratories there is a lot more to these ancient remains than first meets the eye This book takes you on a journey from Paris to London Leicester and Manchester from the apothecaries of the Middle Ages to the dissecting tables of the eighteenth century and finally behind the screen of today's computers to revisit the stories of these bodies that have fascinated Europeans for so long *Mummified* investigates matters of life and death of collecting and viewing and of interactions sometimes violent and sometimes emotional that question the essence of what makes us human
