Women Philosophers of Seventeenth-century England Jacqueline Broad, 2020 This volume collects the private letters and published epistles of English women philosophers of the early modern period c 1650 1700 It includes the correspondences of Margaret Cavendish Anne Conway Damaris Cudworth Masham and Elizabeth Berkeley Burnet These women were the interlocutors of some of the best known intellectuals of their era including Constantijn Huygens Walter Charleton Henry More Joseph Glanvill John Locke Jean Le Clerc and Gottfried Wilhelm Leibniz Their epistolary exchanges range over a wide variety of philosophical subjects from religion moral theology and ethics to epistemology metaphysics and natural philosophy For the first time in one collection the philosophical correspondences of these women have been brought together to be appreciated as a whole

Women Philosophers of Seventeenth Century England is an invaluable primary resource for students and scholars of these neglected women thinkers It includes original introductory essays for each woman philosopher demonstrating how her correspondences contributed to the formation of her own views as well as those of her better known contemporaries It also provides detailed scholarly annotations to the letters and epistles explaining unfamiliar philosophical ideas and defining obscure terminology to help make the texts accessible and comprehensible to the modern reader This collection and its companion volume *Women Philosophers of Eighteenth Century England* forthcoming provide valuable historical evidence that women made substantial contributions to the formation and development of early modern thought and reflect the intensely collaborative and gender inclusive nature of philosophical discussion in the early modern period

Women Philosophers in the Long Nineteenth Century Dalia Nassar, Kristin Gjesdal, 2021 The long nineteenth century the period beginning with the French Revolution and ending with World War I was a transformative period for women philosophers in German speaking countries and contexts The period spans romanticism and idealism socialism Nietzscheanism and phenomenology philosophical movements we most often associate with Hegel Schopenhauer Kierkegaard Nietzsche and Marx but rarely with women Yet women philosophers not only contributed to these movements but also spearheaded debates about their social and political implications While today their works are less well known than those of their male contemporaries many of these women philosophers were widely read and influential in their own time Their contributions shed important new light on nineteenth century philosophy and philosophy more generally revealing the extent to which various movements which we consider distinct were joined and demonstrating the degree to which philosophy can transform lives and be transformed by lived experiences and practices In the nineteenth century women philosophers explored a wide range of philosophical topics and styles Working within and in dialogue with popular philosophical movements women philosophers helped shape philosophy's agenda and provided unique approaches to existential political aesthetic and epistemological questions Though largely deprived formal education and academic positions women thinkers developed a way of philosophizing that was accessible intuitive and activist in spirit The present volume makes available to English language readers in many cases for the first time the works of nine women philosophers with the hope of stimulating further interest in and scholarship on their works The volume includes a comprehensive introduction to women philosophers in the Nineteenth Century and introduces each philosopher and her position The translations are furnished with explanatory footnotes The volume is designed to be accessible to students as well as scholars

Women Philosophers of the Seventeenth Century Jacqueline Broad, 2003-02-27 In this rich and detailed study of early modern women's thought Jacqueline Broad explores the complexity of women's responses to Cartesian philosophy and its intellectual legacy in England and Europe She examines the work of thinkers such as Mary Astell Elisabeth of Bohemia Margaret Cavendish Anne Conway and Damaris Masham who were active participants in the intellectual life of their time and were also the respected colleagues of philosophers such as Descartes Leibniz and Locke She also illuminates the continuities between early modern women's thought and the anti dualism of more recent feminist thinkers The result is a more gender balanced account of early modern thought than has hitherto been available Broad's clear and accessible exploration of this still unfamiliar area will have a strong appeal to both students and scholars in the history of philosophy women's studies and the history of ideas

Women Philosophers in Nineteenth-Century Britain Alison Stone,2023 Many women wrote philosophy in nineteenth century Britain and they wrote across the full range of philosophical topics Yet these important women thinkers have been left out of the philosophical canon and many of them are barely known today The aim of this book is to put them back on the map It introduces twelve women philosophers Mary Shepherd Harriet Martineau Ada Lovelace George Eliot Frances Power Cobbe Helena Blavatsky Julia Wedgwood Victoria Welby Arabella Buckley Annie Besant Vernon Lee and Constance Naden Alison Stone looks at their views on naturalism philosophy of mind evolution morality and religion and progress in history She shows how these women interacted and developed their philosophical views in conversation with one another not only with their male contemporaries The rich print and periodical culture of the period enabled these women to publish philosophy in forms accessible to a general readership despite the restrictions women faced such as having limited or no access to university education Stone explains how these women became excluded from the history of philosophy because there was a cultural shift at the end of the nineteenth century towards specialised forms of philosophical writing which depended on academic credentials that were still largely unavailable to women
