Women Power And Kinship Politics:

Women, Power, and Kinship Politics Mina Roces, 1998-05-26 Politics in the Philippines is not male dominated but gendered. This book examines how women hold power unofficially through their kinship ties with male politicians. Examining the perspectives of local concepts of power, the author explores gender and power in post-war Philippines and characterizes kinship politics embedded in the predominate political culture. Women's power is a site where the conflict between the two discourses of kinship politics and modern nationalist values is daily contested. Unofficial women's power is resourced through kinship politics but because it is exercised behind the scenes it makes women vulnerable to criticisms that they are manipulative or scheming, wielding power that is illegal, undemocratic, anti-nationalist, and unaccountable. But at the other end of the equation, women's crusades against graft and corruption are doubly legitimized through both the modern discursive prioritizing of the nation-state and through women's traditional gendered roles as moral guardians. This book will be of interest to scholars and students in Philippine studies, Southeast Asian history, gender studies, women and power in Asia, and feminist studies.

Indonesian Women and Local Politics Kurniawati Hastuti Dewi, 2015-03-09 In an important social change, female Muslim political leaders in Java have enjoyed considerable success in direct local elections following the fall of Suharto in Indonesia. *Indonesian Women and Local Politics* shows that Islam, gender, and social networks have been decisive in their political victories. Islamic ideas concerning female leadership provide a strong religious foundation for their political campaigns. However, their approach to women's issues shows that female leaders do not necessarily adopt a woman's perspectives when formulating policies. This new trend of Muslim women in politics will continue to shape the growth and direction of democratization in local politics in post-Suharto Indonesia and will color future discourse on gender politics and Islam in contemporary Southeast Asia.

Women of Power Torild Skard, 2015-03-09 At a time when a woman, Angela Merkel, is arguably the most powerful leader in Europe and another Hilary Clinton continues to

be at the center of the US political stage it seems that women have broken through the glass ceiling and begun to populate the highest offices of the political world *Women of Power* is a testament to that accomplishment offering the most comprehensive overview of female presidents and prime ministers to date Looking at over fifty countries and over seventy women leaders since 1960 Torild Skard herself an experienced politician examines how and why these women rose to the top and what their leadership has meant for women's empowerment throughout the latter half of the twentieth century Skard examines the achievements and life stories of the world's female leaders up to the current era She offers nuanced portraits that draw on a number of materials including many interviews that she conducted herself All of the women discussed are organized by both chronology and geography and Skard includes a number of helpful chapters that provide an overview and assessment of how different women leaders have come to power in different regions Overall the book provides a fascinating account of women's empowerment as it has manifested itself at the very top of the political hierarchy

Gender and Politics in Post-Reformasi Indonesia Kurniawati Hastuti Dewi, 2022-07-02 This book employs a gendered perspective to uncover an in depth understanding of the political role of women leaders in local government in Indonesia Beginning with the story of two women who successfully won the local elections in Indramayu in 2010 and Tangerang Selatan in 2011 respectively the book uses their experiences as a point of departure to present a discussion on female political leaders part within the larger political dynastic structure in Indonesia The book explores the multiple challenges and difficulties that these women encountered in reaching power and in promoting local democracy highlighting the patriarchal nature of the oligarchy In doing so this book provides a rich empirical account of the current features of female political leaders and their political and familial linkages The research thus contributes significantly to the work of scholars and political activists seeking to unpack the process and progress of democratization in post reformasi Indonesia in which women's political participation and leadership are an inevitable and vital part In doing so the book champions how Indonesian women are playing an increasingly important role in the democratic process even in the face of the enduring challenges posed by familial ties and political dynasty factors that continue to hinder democratization trends that are also prevalent across multiple Southeast Asian countries in the twenty first century Relevant to scholars and students situated at the intersection of gender and politics this translated and updated co publication is a tour de force led by one of Indonesia's seminal scholars in women's studies

Dynasties and Female Political Leaders in Asia Claudia Derichs, Mark R. Thompson, 2013 This book is the first comprehensive academic effort to examine the phenomenon of top female political leaders in Asia It portrays prime ministers presidents and opposition leaders but it is not a conventional biographical volume Rather it analyzes female politicians by means of case studies that are based on a common theoretical framework The case studies were conducted over three years of field research which included interviews with the female leaders themselves and members of their inner circle Each chapter explores the similarities but also points to the distinctiveness of each female leader arising from political

and social systems cultural and religious conditions and economic parameters Series Political Science Perspectives Politikwissenschaftliche Perspektiven Vol 16 **Women in Asia** Louise Edwards, Mina Roces, 2020-07-25 Women in Asia Tradition Modernity and Globalisation surveys the transformation in the status of women since 1970 in a diverse range of nations Malaysia China Indonesia Singapore the Philippines India Taiwan Vietnam Hong Kong Korea Japan and Burma Within these 13 national case studies the book presents new arguments about being women being Asian and being modern in contemporary Asia Recent social changes in women s place in society are untangled in recognition that not all change is progress and that not all modernity enhances women s status The authors suggest that the improvements in women s status within the Asian region vary dramatically according to the manner in which women interact with the particular economic and ideological forces in each nation Each contributor has focussed on a particular country in their area of expertise They present innovative arguments relating to the problem of being women in Asia during a period of dramatic social and political changes Each national case study explores key social and economic markers of women s status such as employment rates wage differentials literacy rates and participation in politics or business The effects of population control programs legislation on domestic violence and female infanticide and women s role in the family and the workforce are also discussed The book poses questions as to how women have negotiated these shifts and in the process created a modern Asian woman Specialists from a variety of disciplines including history anthropology sociology demography gender studies and psychology grapple with the complexities and ambivalences presented by the multiple faces of the modern Asian woman Complete with a list of recommended readings and a web site with links to electronic resources the book will be of particular interest to undergraduate students of Asian studies and women s studies as well as scholars and postgraduate students interested in comparative women s studies Gender and Power in Affluent Asia Krishna Sen, Maila Stivens, 2002-09-11 Gender and Power in Affluent Asia is the first major study to analyse the relationships between gender and power that have accompanied the rise of Asian affluence **The Woman President** Ramona Vijayarasa, 2022-06-27 Too much attention is paid to the absence of women leaders around the world rather than their presence leaving a gap in our understanding of the difference women leaders make on the lives of fellow women The Woman President presents a unique comparative study of women s leadership and the law offering new ways for understanding the impact of female presidential leadership on women s everyday lives by analysing the legal legacies of four women presidents Corazon Aquino 1986 1992 Gloria Macapagal Arroyo 2001 2010 Megawati Sukarnoputri 2001 2004 and Chandrika Bandaranaike Kumaratunga 1994 2005 It uses a new and innovative methodology the Gender Legislative Index to score laws enacted during these four tenures from a women s rights perspective The findings challenge and expand our understanding of what constitutes a woman s issue bringing within its gendered analysis labour law reform democracy anti corruption poverty alleviation and pro peace interventions alongside more oft considered terrain such as gender based violence reproductive rights gender equality quotas and women s rights at

work This book also offers important insights into the institutional and social mechanisms that enable women leaders to lead for women including women s movements and global networks of women presidents and prime ministers The words of women leaders themselves both from personal interviews and speeches bring depth to the assessments and conclusions drawn The Woman President offers new tools and sharpens old ones to provide an essential comparative contribution to our knowledge about the dynamics and impact of female presidencies drawing from the realities of the Asia region **Women's Suffrage in Asia** Louise Edwards,Mina Roces,2006-08-21 Including chapters on Indonesia India Thailand China the Philippines Japan Malaysia Korea Vietnam and international suffrage connections Women s Suffrage in Asia engages in debates on suffrage in the region by raising issues unique to the country s case studies presented It explains why the history of suffrage is neglected in the nationalist historiography and untangles the connections between culture nationalism and colonialism in the context of women s struggles for suffrage
