Womens Words The Feminist Practice Of Oral History:

Women's Words Sherna Berger Gluck, Daphne Patai, 1991 *Women's Words* is the first collection of writings devoted exclusively to exploring the theoretical methodological and practical problems that arise when women utilize oral history as a tool of feminist scholarship. In thirteen multidisciplinary essays the book takes stock of the implicit presuppositions, contradictions and prospects of oral history at the hands of feminist scholars. Publisher's description [Beyond Women's Words](#) Katrina Srigley, Stacey Zembrzycki, Franca Iacovetta, 2018-05-01 *Beyond Women's Words* unites feminist scholars, artists and community activists working with the stories of women and other historically marginalized subjects to address the contributions and challenges of doing feminist oral history. Feminists who work with oral history methods want to tell stories that matter. They know too that the telling of those stories, the processes by which they are generated and recorded and the different contexts in which they are shared and interpreted also matters a lot. Using Sherna Berger Gluck and Daphne Patai's classic text *Women's Words* as a platform to reflect on how feminisms broadly defined have influenced and continue to influence the wider field of oral history, this remarkable collection brings together an international, multi-generational and multidisciplinary line-up of authors whose work highlights the great variety in understandings of and approaches to feminist oral histories. Through five thematic sections, the volume considers Indigenous modes of storytelling, feminism in diverse locales around the globe, different theoretical approaches, oral history as performance, digital oral history and oral history as community engagement. *Beyond Women's Words* is ideal for students of oral history, anthropology, public history, women's and gender history and Women's and Gender Studies as well as activists, artists and community engaged practitioners. [The Practice of Qualitative Research](#) Sharlene Nagy Hesse-Biber, Patricia Leavy, 2006 Covering all the key mainstream qualitative methods, this book offers candid wisdom, tips from leading researchers that will help students with the process of completing a successful research project. [Reader's Guide to Women's Studies](#) Eleanor Amico, 1998-03-20 *The Reader's Guide to Women's Studies* is a searching and analytical description of the most prominent and influential works written in the now universal field of women's studies. Some 200 scholars have contributed to the project, which adopts a multi-layered approach allowing for comprehensive treatment of its subject matter. Entries range from very broad themes such as Health, General Works to entries on specific individuals or more focused topics such as Doctors. **Feminism & Autobiography** Tess Coslett, Celia Lury, Penny Summerfield, 2002-01-04 Featuring essays by leading feminist scholars from a variety of disciplines, this key text explores the latest developments in autobiographical studies. The collection is structured around the inter-linked concepts of genre, inter-subjectivity and memory. Whilst exemplifying the very different levels of autobiographical activity going on in feminist studies, the contributions chart a movement from autobiography as genre to autobiography as cultural practice and from the analysis of autobiographical texts to a preoccupation with autobiography as method. [Qualitative Research Practice](#) Clive Seale, 2007 Aimed at the student reader, this book demonstrates the benefits of using particular

methods from the viewpoint of real life experience It contains chapters written by leading internationally distinguished qualitative researchers who recount and reflect on their own research experiences as well as others
