1960 Al Filreis, 2021-10-26 In 1960 when World War II might seem to have been receding into history a number of artists and writers instead turned back to it They chose to confront the unprecedented horror and mass killing of the war searching for new creative and political possibilities after the conservatism of the 1950s in the long shadow of genocide Al Filreis recasts 1960 as a turning point to offer a groundbreaking account of postwar culture He examines an eclectic group of artistic literary and intellectual figures who strove to create a new language to reckon with the trauma of World War II and to imagine a new world Filreis reflects on the belatedness of this response to the war and the Holocaust and shows how key works linked the legacies of fascism and antisemitism with American racism In grappling with the memory of the war he demonstrates artists reclaimed the radical elements of modernism and brought forth original ideas about testimony to traumatic history 1960 interweaves the lives and works of figures across high and popular culture including Chinua Achebe Hannah Arendt James Baldwin Amiri Baraka Paul Celan John Coltrane Frantz Fanon Roberto Rossellini Muriel Rukeyser Rod Serling and Louis Zukofsky and considers art forms spanning poetry fiction memoir film painting sculpture teleplays musical theater and jazz A deeply interdisciplinary cultural literary and intellectual history this book also offers fresh perspective on the beginning of the 1960s

Witness to Phenomenon Joseph D. Ketner II, 2017-12-28 Witness to Phenomenon articulates a fresh examination of the German Group Zero Heinz Mack Otto Piene and Günther Rambow and other new tendency artists who rejected painting and introduced new art media in postwar Europe Group ZERO evolved into a network across Europe Amsterdam Milan Paris and Zagreb This pan European affiliation of artists generated a continuous stream of innovative artistic statements through the 1960s incorporating non traditional materials and new technologies to create kinetic art light installations performances immersive multimedia installations monumental land art and the communication media of video and television They transformed the

visual arts from the inanimate object d art to a sensory experience by adopting the ascendant philosophy of Phenomenology as their conceptual foundation Drawing from a decade of research on unpublished archives of the artists and critics of this period this publication positions Group ZERO as a catalytic art moment in the transition from modern to contemporary art

The Ideas, Identity and Art of Daniel Spoerri Leda Cempellin, 2019-02-15 The term artistic animator is inspired by the definition Kunstanimator given to Spoerri by his longstanding friend Karl Gerstner during an interview with Katerina Vatsella in 1995 Wherever he went Spoerri was capable of inspiring others to make art and at the same time he absorbed interiorized and transformed ideas from others His fluctuating memberships during late Modernism Zero Nouveau R alisme Fluxus Mail Art explain why some areas of this work have not yet received their due attention and their connection to the whole picture has often eluded scholarly inquiry Beyond his tableaux pi ges which gave him immediate notoriety through an early purchase by the MoMA Spoerri discovered a new way to approach the multiples in sculpture Edition MAT he transformed his trap pictures into an experimental narrative form Topographie An cdot e du Hasard he initiated the Eat Art movement he tested an innovative curatorial approach the Mus e Sentimental and the Giardino Despite constant interruptions due to his semi nomadic lifestyle this oeuvre presents an extraordinary coherence where none of these ventures can be properly understood without considering all the others This is the first monograph entirely devoted to Daniel Spoerri in the United States to date With an introduction by Barbara R derscheidt Keep It Moving? Rachel Rivenc, Reinhard Bek, 2018-03-13 Kinetic art not only includes movement but often depends on it to produce an intended effect and therefore fully realize its nature as art It can take a multiplicity of forms and include a wide range of motion from motorized and electrically driven movement to motion as the result of wind light or other sources of energy Kinetic art emerged throughout the twentieth century and had its major developments in the 1950s and 1960s Professionals responsible for conserving contemporary art are in the midst of rethinking the concept of authenticity and solving the dichotomy often felt between original materials and functionality of the work of art The contrast is especially acute with kinetic art when a compromise between the two often seems impossible Also to be considered are issues of technological obsolescence and the fact that an artist s chosen technology often carries with it strong sociological and historical information and meanings **Fluxus Administration** Colby Chamberlain, 2024-07-09

George Maciunas is typically associated with the famous art collective Fluxus of which he is often thought to have been the leader In this book critic and art historian Colby Chamberlain wants us to question two things first the idea that Fluxus was a group in any conventional sense and second that Maciunas was its leader Instead Chamberlain shows us how Maciunas used the paper materials of bureaucracy in his art cards certificates charts files and plans among others to subvert his own status as a figurehead of this collective and even as a biographical entity Each of the book s chapters situates Maciunas s artistic practice in relation to a different domain education communication production housing and health We learn about his use of the postal service to make Fluxus into an international network his manipulation of US copyright law to pursue a Soviet ideal

of collective authorship his intervention in Manhattan's zoning restrictions as founder and manager of the Fluxhouse artists' lofts in SoHo and his performances protesting against normative ideals of health and family focusing on his own ultimately failed medical self-management Fluxus Administration is not a biography but it does delve more deeply than any other book into Maciunas's life and work showing the lengths to which the artist himself went to disrupt any easy account of himself

How to Make the Body Jennifer Creech, Thomas O. Haakenson, 2022-05-05 How to Make the Body Difference Identity and Embodiment brings together contemporary and historical readings of the body exploring the insights and limits of established and emerging theories of difference identity and embodiment in a variety of German contexts The engaging contributions to this volume utilize and challenge cutting edge approaches to scholarship on the body by putting these approaches in direct conversation with canonical texts and objects as well as with lesser known yet provocative emerging forms To these ends the chapter authors investigate the body through detailed studies across a wide variety of disciplines and modes of expression from advertising aesthetics and pornography to social media scientific experimentation and transnational cultural forms Thus this volume showcases the ways in which the body as such cannot be taken for granted and surmises that the body continues to undergo constant and potentially disruptive diversification and transformation *Yayoi Kusama* Midori Yamamura, 2024-03-19 An examination of Yayoi Kusama's work that goes beyond the usual biographical interpretation to consider her place in postwar global art history Yayoi Kusama is the most famous artist to emerge from Japan in the period following World War II Part of a burgeoning international art scene in the early 1960s she exhibited in New York with Andy Warhol Donald Judd Claes Oldenburg and other Pop and Minimalist luminaries and in Europe with the Dutch Nul and the German Zero artist groups Known for repetitive patterns sewn soft sculptures naked performance and suggestive content Kusama's work anticipated the politically charged feminist art of the 1970s But Kusama and her work were soon eclipsed by a dealer controlled art market monopoly of white male American artists Returning to Japan in 1973 Kusama became almost as famous for her self-proclaimed mental illness and permanent residence in a psychiatric hospital as she was for her art In this book Midori Yamamura eschews the usual critical fascination with Kusama's biography to consider the artist in her social and cultural milieu By examining Kusama's art alongside that of her peers Yamamura offers a new perspective on Kusama's career Yamamura shows that Kusama who came of age in totalitarian wartime Japan embraced art as an anticonformist pursuit seeking a subjective autonomy that resulted in the singular expression of her art Examining Kusama's association with European and New York art movements of the 1960s and her creation of psychedelic light and sound Happenings Yamamura argues that Kusama and her heterogeneous peers defied and undermined various pillars of modernity during the crucial transition from the modern nation state to global free market capitalism The art market rediscovered Kusama in the 1990s and she has since had a series of high profile exhibitions Recounting Kusama's story Yamamura offers an incisive penetrating analysis of postwar art's globalization as viewed from the periphery

Atmospheres of Projection Giuliana Bruno, 2022-10-13 Following on the success of *Surface* Bruno's previous book with us in this new one she explores the act and art of projection in its manifold guises and what those can tell us about how we think and feel and create the world we inhabit This is not just an exploration of the psychological operation of projection the idea that we cast onto others the qualities we refuse to acknowledge in ourselves It is a major work of cultural history and media archaeology As a way to transform space and atmosphere projection has a long history in the arts dating back to shadow plays camera obscuras magic lantern shows and phantasmagoria But the atmosphere of projection is not a thing of the past alone It is alive and well today It continues to fascinate us as screens filled with moving figures pervade the spaces of the art gallery and the museum as well as the environments of our daily lives What is the root of our fascination How does it manifest in contemporary art How do we define atmosphere How is projection an atmosphere Are these two modalities conceptually and historically related and how so Why are artists today so interested in environments and in elements of projection To explain this continual fascination with projection and atmosphere Bruno traverses psychoanalysis architecture the history of science visual art and moving image culture to see how projective mechanisms and their environments have developed over time

The Simple Truth Simon Morley, 2020-12-15 The monochrome a single color work of art is highly ambiguous For some it epitomizes purity and is art reduced to its essence For others it is just a stunt the proverbial emperor's new clothes Why are monochrome works both so admired and such an easy target of scorn Why does a monochrome look so simple and yet is so challenging to comprehend And what is it that drives artists to create such works In this illuminating book Simon Morley unpacks the meanings of the monochrome as it has developed internationally over the twentieth century to today In doing so he also explores how artists have understood what they make how critics variously interpret it and how art is encountered by viewers

London Art Worlds Jo Applin, Catherine Spencer, Amy Tobin, 2017-12-14 The essays in this collection explore the extraordinarily rich networks of international artists and art practices that emerged in and around London during the 1960s and 70s a period that saw an explosion of new media and fresh attitudes and approaches to making and thinking about art The contributors to *London Art Worlds* examine the many activities and movements that existed alongside more established institutions in this period from the rise of cybernetics and the founding of alternative publications to the public protests and new pedagogical models in London's art schools The essays explore how international artists and the rise of alternative venues publications and exhibitions along with a growing mobilization of artists around political and cultural issues ranging from feminism to democracy pushed the boundaries of the London art scene beyond the West End's familiar galleries and posed a radical challenge to established modes of making and understanding art Engaging wide ranging and original *London Art Worlds* provides a necessary perspective on the visual culture of the London art scene in the 1960s and 70s Art historians and scholars of the era will find these essays especially valuable and thought provoking In addition to the editors contributors to this volume are Elena Crippa Antony Hudek Dominic Johnson Carmen Juli Courtney J

Martin Lucy Reynolds Joy Sleeman Isobel Whitelegg and Andrew Wilson **Doug Wheeler** Doug Wheeler, 2020-01-07 Over five decades Doug Wheeler has pioneered the art of light and space His work powerfully explores the way we perceive empty space the way light can affect our perception and make emptiness feel full and dense From his early experiences flying across the desert with his father a doctor in Globe Arizona Wheeler developed a passion for the intensity and stillness of vast expanses seeing in them a whole new set of possibilities for visual art Although Wheeler began his career as a painter his wall mounted artworks soon began incorporating light as a medium and quickly gave way to an unprecedented art historical breakthrough his construction of an absolute light environment crafted in his studio in 1967 Since that unparalleled moment Wheeler s work has been exhibited widely all over the world in the past decade with numerous major gallery and museum installations his reputation as the definitive light and space artist has been solidified This volume featuring new scholarship by renowned art historian Germano Celant traces the entire course of Wheeler s career to date from his first mature paintings to his immersive installations Writing on Wheeler s intense and direct engagement with the absoluteness in the optical fields he creates Celant provides a detailed account for Wheeler s development as one of the most original and influential artists of his generation Wheeler s work not only changes how we encounter reality after we see it but also how we envision what is possible more broadly in visual art Mathias Goeritz Jennifer Josten, 2018-01-01 The first major work in English on Mathias Goeritz 1915 1990 this book illuminates the artist s pivotal role within the landscape of twentieth century modernism Goeritz became recognized as an abstract sculptor after arriving in Mexico from Germany by way of Spain in 1949 His call to integrate abstract forms into civic and religious architecture outlined in his Emotional Architecture manifesto had a transformative impact on midcentury Mexican art and design While best known for the experimental museum El Eco and his collaborations with the architect Luis Barrag n including the brightly colored towers of Satellite City Goeritz also shaped the Bauhaus inspired curriculum at Guadalajara s School of Architecture and the iconic Cultural Program of Mexico City s 1968 Olympic Games Josten addresses the Cold War implications of these and other initiatives that pitted Goeritz an advocate of internationalist abstraction against Diego Rivera and David Alfaro Siqueiros ardent defenders of the realist style that prevailed in official Mexican art during the postrevolutionary period Exploring Goeritz s dialogues with leading figures among the Parisian and New York avant gardes such as Yves Klein and Philip Johnson Josten shows how Goeritz s approach to modernism which was highly attuned to politics and place formed part of a global enterprise *Laszlo Moholy-Nagy* Joyce Tsai, 2018-04-06 Laszlo Moholy Nagy is the first monograph on Moholy to attend to the fraught but central role painting played in shaping his aesthetic project His reputation has been that of an artist far more interested in exploring the possibilities offered by photography film and other new media than in working with what he once called the anachronistic medium of painting And yet with the exception of the period between 1928 and 1930 Moholy painted throughout his career Joyce Tsai argues that his investment in painting especially after 1930 emerged not only out of

pragmatic and aesthetic considerations but also out of a growing recognition of the economic political and ethical compromises required by his large scale technologically mediated projects aimed at reforming human vision Without abandoning his commitment to fostering what he called New Vision Moholy came to understand painting as a particularly plastic field in which the progressive possibilities of photography film and other emergent media could find provisional expression Provided by publisher
