Transforming The Robocops Changing Police In South Africa:

Transforming the Robocops Monique Marks, 2005 The structure uniform equipment and training of the South African Police Service have changed since apartheid says Marks sociology U of KwaZulu Natal the force proclaims a community oriented service ethic hires more women and black personnel in high positions and is rarely rather than often excessively violent during demonstrations and protests Still she asks how much the police have changed and whether it is really to change them or indeed to change the police anywhere

Police Work and Identity Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street

Fighting Crime Together Jenny Fleming, Jennifer Wood, Jennifer Dawn Wood, 2006 Whether they want to or not police are increasingly having to work with and through many local national and international partnerships This edited collection explores the development of policing and security networks It looks at ways in which police can develop new strategies for integrating the knowledge capacities and resources of different security providers and assesses the challenges associated with such a venture

Policing Tim Newburn, Jill Peay, 2012-06-22 Bringing together a range of leading social scientists and criminologists this volume explores a number of key themes raised by the work of Robert Reiner Arguably the leading policing scholar of his generation Reiner s work over some 40 years has ranged broadly in this field taking in the study of police history culture organisation elites and relationships with the media Always carefully situated within an analysis of the changing socio political circumstances of policing and crime control Robert Reiner s scholarship has been path breaking in its impact The 13 original essays in this volume are testament to Reiner s influence Although reflecting the primarily British bent within his

work the essays also draw on contributors from Australia Europe South Africa and the United States to explore some of the leading debates of the moment These include but are not limited to the impact of neo liberalism on crime control and the challenges for modern social democracy police culture equality and political economy new media and the future of policing youth policing and democracy and the challenges and possibilities posed by globalisation in the fields of policing and security

Policing: Toward an Unknown Future John Crank, Colleen Kadleck, 2013-12-16 The enclosed papers are the culmination of a project Dr John Crank and Dr Colleen Kadleck carried out assessing issues facing the police into the early 21st century The papers are future oriented in the sense that they anticipate trends visible today Everywhere the contributing scholars found that the organizational concept practice and function of the police were undergoing transition Yet the seeming state level hardening of the police function was ubiquitous Two themes were noteworthy On the one hand in developing or second world countries police face endemic problems of corruption organized crime and drugs Police in response are undergoing centralization and intensification of law enforcement activities In countries with first world economies Canada the United States and Australia contributors discovered trends toward expansion of the police function a trend described by Brodeur as toward high policing It reflects the growing reliance on surveillance for crime control and for the tracking of minority indigenous and immigrant populations in crime prevention efforts The results suggest that governments sometimes encouraged by their citizenry seem increasingly to rely on the police to deal with a broad array of social as well as criminal problems This book was originally published as a special issue of *Police Practice and Research*
