Video-Based Aural Rehabilitation Guide Linda L. Daniel, Sneha V. Bharadwaj, 2019-10-21 The Video Based Aural Rehabilitation Guide Enhancing Listening and Spoken Language in Children and Adults is the first aural rehabilitation book of its kind to intertwine chapter text with over 200 captioned videos This unique resource is intended to educate undergraduate and graduate students in speech language pathology audiology and education of the deaf and hard of hearing as well as enhance the knowledge and skills of practicing professionals The

extensive videos are also an invaluable resource for students enrolled in a clinical or student teaching practicum. Videos feature speech language pathologists, audiologists, Listening and Spoken Language Specialists, teachers of the deaf and hard of hearing, early interventionists, otologists, and occupational therapists practicing in settings such as clinics, private practices, schools, hospitals, and the community. Topics addressed in the text and videos include hearing technologies, aural rehabilitation procedures, factors that affect intervention outcomes, fundamentals of assessment, supports for education, counseling for children and adults with hearing loss, and the psychosocial well-being of persons with hearing loss and their families. The Video Based Aural Rehabilitation Guide can be used as a stand-alone text or as a companion alongside the most frequently used aural rehabilitation textbooks. Key Features: Over 200 captioned videos accessible on a companion site; Collaboration among 14 professionals in audiology, speech language pathology, Listening and Spoken Language medicine, education, research, and psychology; Chapters with concise summaries, recommended resources for further learning, and study questions with answer keys; Background information on the individuals featured in the videos. This exciting new text with instructional videos is a much-needed bridge that integrates the disciplines of speech language pathology, audiology, and education of the deaf and hard of hearing to educate professionals serving children and adults with hearing loss and their families. NOTE: This ebook has 200 embedded videos, which could make it slower to download and open than a text-only ebook.

Handbook of Automated Scoring Duanli Yan, André A. Rupp, Peter W. Foltz, 2020-02-26. Automated scoring engines require a careful balancing of the contributions of technology, NLP, psychometrics, artificial intelligence, and the learning sciences. The present handbook is evidence that the theories, methodologies, and underlying technology that surround automated scoring have reached maturity and that there is a growing acceptance of these technologies among experts and the public. Foreword by Alina von Davier. ACTNext Senior Vice President. Handbook of Automated Scoring: Theory into Practice provides a scientifically grounded overview of the key research efforts required to move automated scoring systems into operational practice. It examines the field of automated scoring from the viewpoint of related scientific fields serving as its foundation, the latest developments of computational methodologies utilized in automated scoring, and several large-scale real-world applications of automated scoring for complex learning and assessment systems. The book is organized into three parts that cover 1) theoretical foundations, 2) operational methodologies, and 3) practical illustrations, each with a commentary. In addition, the handbook includes an introduction and synthesis chapter as well as a cross-chapter glossary. John D. Bonvillian,Nicole Kissane Lee,Tracy T. Dooley,Filip T. Loncke,2020-07-30 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages It is the culmination of over twenty years of research and development by the authors The Simplified Sign System has been developed and tested for ease of sign comprehension memorization and formation by limiting the complexity of the motor skills required to form each sign and by ensuring that each sign visually resembles the meaning it conveys Volume 1 outlines the research underpinning and informing the project and places the

Simplified Sign System in a wider context of sign usage historically and by different populations Volume 2 presents the lexicon of signs totalling approximately 1000 signs each with a clear illustration and a written description of how the sign is formed as well as a memory aid that connects the sign visually to the meaning that it conveys While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities cerebral palsy autism or aphasia it may also assist the communication needs of a wider audience such as healthcare professionals aid workers military personnel travellers or parents and children who have not yet mastered spoken language The system also has been shown to enhance learning for individuals studying a foreign language Lucid and comprehensive this work constitutes a valuable resource that will enhance the communicative interactions of many different people and will be of great interest to researchers and educators alike
