*Thinking about Democracy* Arend Lijphart, 2007-10-10 Arend Lijphart is one of the world's leading and most influential political scientists whose work has had a profound impact on the study of democracy and comparative politics. *Thinking about Democracy* draws on a lifetime's experience of research and publication in this area and collects together for the first time his most significant and influential work. **Peacemaking, Power-sharing and International Law** Martin Wählisch, 2019-09-05 This monograph provides a contemporary analysis of the frictions between peacemaking and international human rights law based on the cases of postconflict power sharing in Lebanon and Bosnia Herzegovina. In this context it evaluates the long standing debate in the United Nations and human rights bodies about the imperfect peace. Written from a practitioner scholarly viewpoint and drawing from new authentic sources, the book describes the mechanisms used in peace agreements and post conflict constitutions for managing ethnic or religious diversity, explains their legal limits under international human rights law and provides a conceptual framework for analysing the nexus between law and peacemaking. The book argues that the relationship between the content of peace agreements and post conflict constitutions, their negotiation process and the element of time needs to be untangled to better understand the legal limits of statebuilding in the aftermath of armed conflict. It is a key resource for scholars in human rights law and peace and conflict studies, advisers in peace processes, constitution makers and peace mediators.

*Politics of Identity in Post-Conflict States* Éamonn Ó Ciardha, Gabriela Vojvoda, 2015-12-14 Ireland and the Balkans have come to represent divided and re-united communities. They both provide effective microcosms of national, ethnic, political, military, religious, ideological and cultural conflicts in their respective regions and as a result they demonstrate real and imaginary divisions. This book will specifically focus on the history, politics and literature of Bosnia Herzegovina and Northern Ireland while making comparative reference to some of Europe's other disputed and divided regions. Using case studies such as Kosovo and Serbia, Lithuania, Germany, Poland, Russia and Belarus, Greece and Macedonia, it examines space, place and border discourse, the topography of war and violence, post-war settlement and reconciliation and the location and negotiation of national, ethnic, religious, political and cultural identities. The book will be of particular interest to scholars and students of cultural studies, history, politics, Irish studies, Slavonic studies, area studies and literary studies.

**Politics of Democratic Breakdown** Gangsheng Bao, 2022-05-30 Democratic breakdown as a political and historic event can impact the fate of millions if not hundreds of millions of people by changing the political complexion of a country. This book attempts to systematically explain why democracies collapse. The author's main theoretical argument is based on the examination of two factors. One is political cleavages among voters. These can cause serious political conflicts and may lead to

fierce political confrontation and major upheaval at the society level The other revolves around the types of political and institutional arrangements under democratic regimes Centrifugal democratic regimes are likely to weaken government capacity or state capacity rendering governments incapable of effectively resolving political conflicts and when these two factors come together political conflicts are less likely to be controlled effectively These situations can evolve into serious political crises and eventually lead to the collapse of democratic regimes The empirical research of this book is based on a comparative historical analysis of Germany Nigeria Chile and India Examining democratic collapses from both theoretical and empirical perspectives this book will be of interest to those engaged in the study of democracy Political Science

Federalism, Plurinationality and Democratic Constitutionalism Ferran Requejo, Miquel Caminal Badia, 2012-02-20. This book provides a theoretical and comparative analysis of federalism and federations in plurinational democracies, examining how states with distinct peoples and communities coexist or not. Through a theoretical approach to democracy and federalism and interdisciplinary analysis of plurinationality in state organization, including case studies of the UK, Russia, Canada, Belgium, India, Spain, Switzerland, and Bolivia, this text assesses the possibilities and limits of federalism as a way to recognize and accommodate multinationalism in plurinational democracies. It evaluates a range of strategies used by states to support national, ethnic, linguistic, or religious collectives in present-day liberal democracies. Leading scholars in the field evaluate the institutional and practical repercussions regarding the issue of recognition and accommodation of national minorities in a globalised world through different theoretical perspectives to build up a detailed picture of problems and solutions to multinationalism. Negotiations in the World Trade Organization Michal Parizek, 2019-10-10. This book examines the World Trade Organization (WTO) in the context of the global economy in the twenty-first century, arguing that many problems within the institution lie in the disparity between its design

and the nature of its tasks Studying the global trade regime and the unsuccessful Doha round of trade liberalization negotiations this volume suggests that important institutional adjustments may be necessary for the WTO and other major international institutions to re gain their ability to manage global economy It uses extensive new qualitative and quantitative evidence to identify systematic dysfunctions in how the Doha negotiations have been conducted and links these dysfunctions to the exclusively inter governmental design of interest representation in the WTO Based on this the book argues that global economic institutions should consider allowing broader parliamentary and non state representation of their members Presenting findings which can also be applied to other global economic institutions Negotiations in the World Trade Organization will be useful to students and scholars of international trade global governance and international political economy

*The Israeli-Palestinian Conflict* Karl Cordell, Brendan O'Leary, Stefan Wolff, 2018-10-11 The conflict between Israel and the Palestinians is one of the longest unresolved conflicts of modern times It has brought about the early and violent deaths of tens of thousands of people and blighted the lives of millions more It is symbiotically linked to the wider crises that continue to engulf the wider region The purpose of this volume is to elucidate both the nature of the conflict but perhaps more importantly to make some tentative proposals with regard to how the conflict may eventually be peacefully concluded The contributors offer their prognosis in light of the fact that both Israeli and Palestinian society is becoming increasingly polarised and prey to fanatics who argue that the conflict will and should be solved by the complete destruction of one side by the other In short this volume seeks to provide rational counter arguments to fundamentalist bile that questions the fundamental humanity of the opposing side This book was originally published as a special issue of the journal *Ethnopolitics*

**Isocracy** Nicolò Bellanca,2019-03-30 In the twentieth century there were two great political and social paradigms the liberal democratic and the libertarian in its various socialist anarchist and communist delineations The central idea of the first approach is isonomy the exclusion of any discrimination on the basis that legal rights are afforded equally to all people The central idea of the second approach is rather to acknowledge and address a

broader spectrum of known inequalities Such an approach Bellanca argues allows the pursuit of pluralism as well as a more realistic and complex view of what equality is Here he analyzes the main economic and political institutions of an isocratic society and in so doing effectively outlines how a utopian society can be structurally and anthropologically realized This book is ideal reading for an audience interested in the critique of contemporary capitalism through a renewed perspective of democratic socialism and leftist libertarianism Nicol Bellanca is Associate Professor of Development Economics at the University of Florence Italy He is the author of a broad array of scholarly articles books and textbooks about both the history of economic thought and development economics His current research focuses on the theory of institutional change
