Thinking Critically About Moral Problems:

Thinking Critically about Moral Problems Thomas F. Wall, 2003 In contrast to most texts designed to introduce students to contemporary moral problems this book is designed to present students with a method for how to think for themselves in a morally reasoned fashion Honing students critical thinking skills through continuous reference to a step by step method of moral analysis this text covers not only many timely moral problems associated with life and death social justice and sex and reproduction but many major ethical theories as well such as utilitarianism deontology virtue ethics and egoism Building on the methodology and critical successes of his THINKING CRITICALLY ABOUT PHILOSOPHICAL PROBLEMS Wadsworth 2002 Wall s new book provides students with clear and readily accessible models of rigorous moral analysis to guide their own deliberations about the most crucial moral issues of our time

Thinking Critically about Ethical Issues RUGGIERO, 2019-01-30 Thinking Critically About Ethical Issues encourages students to reason out for themselves the best answers to moral problems rather than providing neat answers for students to swallow and regurgitate Striking a balance between the theoretical and the practical Ruggiero s text discusses the history of ethics but its focus is on doing ethics to promote the development of critical thinking skills and to help students acquire confidence in their own judgement The short chapter length allows students to spend less time reading and more time doing ethical analysis

Thinking Critically about Philosophical Problems Thomas F. Wall, 2001 Cited by one reviewer as a work of stunning originality this new text presents philosophy both as a collection of fundamental problems and as a method to solve problems the method of critical thinking Students become active participants in doing philosophy in using the method of philosophy as philosophers do when they are thinking well The various parts of the text are organized to reflect a recurring pattern of critical thinking and exercises are provided throughout the text to sharpen these thinking skills in the context of solving philosophical problems In addition to addressing individual philosophical problems this text also encourages students to integrate their solutions into a coherent worldview

Thinking Critically about Ethical Issues W/analyzing Moral Issues Vincent Ryan Ruggiero,2014 **Thinking Critically About Ethical Issues**

Vincent Ruggiero,2007-04-13 This concise accessible text emphasizes doing ethical analysis and thinking critically about ethical issues rather than focusing on ethical theory or the history of ethics Ruggiero s readers are invited to apply ethical principles to issues that exemplify the kinds of moral challenges encountered in everyday life It engages students minds stimulates enthusiasm and makes teaching more effective and rewarding *Thinking Critically about Ethical Issues* Vincent Ryan Ruggiero,1992 An introduction to the role of critical thinking in moral reasoning Emphasis is on the application of ethical principles to the kinds of moral issues students face in their daily lives *Thinking Critically About Abortion* Nathan Nobis,Kristina Grob,2019-06-19 This book introduces readers to the many arguments and controversies concerning abortion While it argues for ethical and legal positions on the issues it focuses on how to think about the issues not just what to think about them It is an ideal resource to improve your understanding of what people think why they think that and whether their and your arguments are good or bad and why It s ideal for classroom use discussion groups organizational learning and personal reading From the Preface To many people abortion is an issue for which discussions and debates are frustrating and fruitless it seems like no progress will ever be made towards any understanding much less resolution or even compromise Judgments like these however are premature because some basic techniques from critical thinking such as carefully defining words and testing definitions stating the full structure of arguments so each step of the reasoning can be examined and comparing the strengths and weaknesses of different explanations can help us make progress towards these goals When emotions run high we sometimes need to step back and use a passion for calm cool critical thinking This helps us better understand the positions and arguments of people who see things differently from us as well as our own positions and arguments And we can use critical thinking skills help to try to figure out which positions are best in terms of being supported by good arguments after all we might have much to learn from other people sometimes that our own views should change for the better Here we use basic critical thinking skills to argue that abortion is typically not morally wrong We begin with less morally controversial claims adults children and babies are wrong to kill and wrong to kill fundamentally because they we are conscious aware and have feelings We argue that since early fetuses entirely lack these characteristics they are not inherently wrong to kill and so most abortions are not morally wrong since most abortions are done early in pregnancy

before consciousness and feeling develop in the fetus Furthermore since the right to life is not the right to someone else s body fetuses might not have the right to the pregnant woman s body which she has the right to and so she has the right to not allow the fetus use of her body This further justifies abortion at least until technology allows for the removal of fetuses to other wombs Since morally permissible actions should be legal abortions should be legal it is an injustice to criminalize actions that are not wrong In the course of arguing for these claims we 1 discuss how to best define abortion 2 dismiss many common question begging arguments that merely assume their conclusions instead of giving genuine reasons for them 3 refute some often heard everyday arguments about abortion on all sides 4 explain why the most influential philosophical arguments against abortion are unsuccessful 5 provide some positive arguments that at least early abortions are not wrong 6 briefly discuss the ethics and legality of later abortions and more This essay is not a how to win an argument piece or a tract or any kind of apologetics It is not designed to help anyone win debates everybody wins on this issue when we calmly and respectfully engage arguments with care charity honesty and humility This book is merely a reasoned systematic introduction to the issues that we hope models these skills and virtues Its discussion should not be taken as absolute proof of anything much more needs to be understood and carefully discussed always

The Role of Moral Reasoning on Socioscientific Issues and Discourse in Science Education Dana L. Zeidler,2007-04-29 This is the first book to address moral reasoning and socioscientific discourse It provides a theoretical framework to reconsider what a functional view of scientific literacy entails by examining how nature of science issues classroom discourse issues cultural issues and science technology society environment case based issues contribute to habits of mind about socioscientific content The text covers philosophical psychological and pedagogical considerations underpinning moral reasoning as well as the status of socioscientific issues in science education

Handbook of Research on Advancing Critical Thinking in Higher Education Wisdom, Sherrie,Leavitt, Lynda,2015-07-17 The importance of critical thinking has surged as academics in higher education realize that many students upon entering college lack the critical thinking skills necessary to succeed While much has been written regarding the lack of critical thinking less has been written on the success of methods implemented to develop this fundamental skill The Handbook of Research on Advancing Critical Thinking in Higher Education explores the effective methods and tools being used to integrate the development of critical thinking skills in both undergraduate and graduate studies Due to the difficulties associated with teaching critical thinking skills to learners of any age this publication is a crucial addition to the scholarly reference works available to pre service and early career teachers seasoned educational professionals professors across disciplines curriculum specialists and educational administrators
