## Thinking Like A Communist:

**Thinking Like a Communist** Tony Smith,1987      Thinking Like a Terrorist Mike German,2007 As the fifth full year of America s global war on terrorism continues statistics concerning terrorist attacks show a disturbing trend from a twenty one year high in 2003 attacks tripled in 2004 and then doubled in 2005 And as the incidence of terrorist attacks increased so has the number of terrorists While the primary leaders of the Taliban al Qaeda and al Qaeda in Iraq remain at large a 2006 Department of Defense study reportedly identified thirty new al Qaeda affiliated terrorist groups that have been created since September 11 2001 We may not have metrics that measure our success in the war on terrorism but these realities certainly illuminate our failures In Thinking Like a Terrorist former FBI counterterrorism agent Mike German contends that the overarching problem is a fundamental failure to understand the terrorists namely what they want and how they intend to get it When our counterterrorism policies are driven by misunderstanding and misperception we shouldn t be surprised at the results Today s terrorists have a real plan a blueprint that has brought them victory in the past that they are executing to perfection moreover their plan is published and available to anyone who bothers to read it Once the terrorists plan is understood we can develop and implement more effective counterterrorism strategies A former undercover agent who infiltrated neo Nazi terrorist groups in the United States German explains the terrorist s point of view and discusses ways to counter the terrorism threat Based on his unusual experience in the field Thinking Like a Terrorist provides unique insights into why terrorism is such a persistent and difficult problem and why the U S approach to counterterrorism isn t working

**Scientist** Christopher Howard,2022-12-22 A compelling case for transforming how research methods are taught to undergraduate students of political science London School of Economics Review of Books Each year tens of thousands of students who are interested in politics go through a rite of passage they take a course in research methods Many find the subject to be boring or confusing and with good reason Most of the standard books on research methods fail to highlight the most important concepts and questions Instead they brim with dry technical definitions and focus heavily on statistical

analysis slighting other valuable methods This approach prevents students from mastering the skills they need to engage more directly and meaningfully with a wide variety of research With wit and practical wisdom Christopher Howard draws on more than a decade of experience teaching research methods to transform a typically dreary subject and teach budding political scientists the critical skills they need to read published research more effectively and produce better research of their own The first part of the book is devoted to asking three fundamental questions in political science What happened Why Who cares In the second section Howard demonstrates how to answer these questions by choosing an appropriate research design selecting cases and working with numbers and written documents as evidence Drawing on examples from American and comparative politics international relations and public policy *Thinking Like a Political Scientist* highlights the most common challenges that political scientists routinely face and each chapter concludes with exercises so that students can practice dealing with those challenges

**What Are You Seeking ?** J Krishnamurti, 2022-09-09 The answer to the question What are you Seeking is simple We want to find truth God everlasting peace The real question says Krishnamurti is Why do you seek at all Knowing conflict repression self doubt and fear as consistent companions we naturally wish for them to come to an end So begins the search for relief the search for everlasting peace through ideas religions self help self analysis etc and we think of this search as a right action towards finding what we are looking for But do we know what we are looking for or are we merely seeking relief from what is happening presently Are we seeking at that point only an idea the supposed opposite of the emotion that we are experiencing now It is the search that maintains the present emotion and its projected opposite in a state of mutually co existent conflict inherently

Grinberg, 2024-03-26 How virility and Jewishness became hallmarks of postwar New York's combative intellectual scene In the years following World War II the New York intellectuals became some of the most renowned critics and writers in the country Although mostly male and Jewish this prominent group also included women and non Jews Yet all of its members embraced a secular Jewish machismo that became a defining characteristic of the contemporary experience Write like a Man examines how the New York intellectuals shared a uniquely American conception of Jewish masculinity that prized verbal confrontation polemical aggression and an unflinching style of argumentation Ronnie Grinberg paints illuminating portraits of figures such as Norman Mailer Hannah Arendt Lionel and Diana Trilling Mary McCarthy Norman Podhoretz Midge Decter and Irving Howe She describes how their construction of Jewish masculinity helped to propel the American Jew from outsider to insider even as they clashed over its meaning in a deeply anxious project of self definition Along the way Grinberg sheds light on their fraught encounters with the most contentious issues and ideas of the day from student radicalism and the civil rights movement to feminism Freudianism and neoconservatism A spellbinding chronicle of mid century America Write like a Man shows how a combative and intellectually grounded vision of Jewish manhood contributed to the masculinization of intellectual life and shaped some of the most important political and cultural debates of the postwar era      **Atrocity and Amnesia** Robert Boyers, 1987-05-28 Working deliberately against the grain of assumptions dominant in the contemporary literary academy Boyers examines novels by Günter Grass Gabriel García Márquez Milan Kundera and others arguing that it is necessary to speak of character ethics and philosophic purpose if one is to understand these works A penetrating study Atrocity and Amnesia illuminates some of the major fiction of our time and makes an important contribution to contemporary political thought      Be Reasonable Laird Wilcox, 2011-01-27 A remarkable collection of quotations aphorisms and epigrams relating to beliefs ideologies superstitions and fanaticism covering more than fifteen categories among them civil liberties fanatics and true believers intolerance individual liberties and personal freedom mysticism and religion public opinion and mass media rationalism skepticism state power utopianism idealism and reformist zeal Included are selections from classic and modern authors in all literary genres both prose and poetry including Brooks Adams Aristotle Francis Bacon William F Buckley Jr G K Chesterton Clarence Darrow Henry Fielding Thomas Jefferson Baron de Montesquieu Friedrich Nietzsche Thomas Paine Jean Jacques Rousseau Bertrand Russell Seneca William Shakespeare G B Shaw Jonathan Swift Margaret Thatcher Voltaire W B Yeats and hundreds of others Quotations in all categories are listed alphabetically by author and
